Doctors on Mission International

Doctors on Mission international is a volunteer based non-for-profit fully registered organization uniting like-minded Christian medical teams with the aim of serving humanity with freely accessible, acceptable and reliable medical and surgical; needs to reduce the burden on medical care on the community while serving God and bringing healing to communities.

About Us

Founded in 2023, Doctor's on mission international unites like-minded Christian medical teams to provide medical care to low limited setting communities while serving God and bringing healing to communities through medical & Surgical missions, satellite health facilities, emergency humanitarian relief, nutritional rehabilitations, surgical care and medical training.

Our Vision

Uniting Christian medical teams with skills & training to provide free quality, accessible and acceptable medical care to vulnerable communities with lifesaving healthcare.

Our Mission

To enable free access to universal healthcare to all communities while bringing healing to communities and bridging the gap to healthcare needs.

Our Values

- Faith
- Love
- Voluntarism
- Integrity
- Team work
- Result oriented

AMIGOS INTERNACIONALES

Amigos internacionales is a non-profit organization dedicated to addressing critical needs in underserved communities worldwide. Through initiatives medical campos, educational programs, and infrastructure projects, they strive to foster sustainable development and holistic well-being.

Founded in 1967, Amigos Internacionales, Inc. began with a vision to provide emergency services and disaster relief across the globe. Over the years, their mission has evolved, concentrating on impactful initiatives in Africa through their Mission

point campaign. Today, they dedicate themselves to building communities by establishing churches, schools, and essential infrastructure like water wells, particularly in regions impacted by the South Sudan refugee crisis.

Their commitment extends beyond immediate relief to fostering sustainable development, spiritual growth, and community resilience. Driven by partnerships and volunteerism, we strive to create a lasting difference in the lives of the underprivileged, transforming their futures through faith, education, and practical support.

COMMUNICATION FROM THE TEAM LEAD

On Behalf of the whole team at Doctors on Mission International, I would wish to express my deepest gratitude for your unwavering support toward the Ogul Medical camp in Gulu District. Your selfless generosity has played a key role in enabling us to reach the most vulnerable communities with much needed medical care, surgical care, nutritional support for children, training and humanitarian relief in Northern Uganda.

Through your support, we managed to reach over 1,500 people in 3 days with much

needed medical and surgical care in Northern Uganda. Regardless of these successes, we remain immensely aware of the gross need for comprehensive medical & surgical needs for several remote communities in Uganda. We believe that your support will continue to play a key role in enabling us to reach more communities with our tailor-made interventions.

I would love to extend our heart felt appreciation to all volunteers, medical professionals, partners, and the hospitals who have played a key role in our existence and the work we do for the community. May the Lord bless everything you do and may He increase and reward you abundantly.

This report shows a detailed overview of our achievements from the medical camp, challenges we faced, and recommendations for this year. I hope you can be proud of this amazing work that you have contributed to.

“Also, I heard the voice of the Lord, saying: “Whom shall I send, and who will go for Us?” Then I said, “Here am I! Send me.” Isaiah 6:8

Mulyamboga Paul, MD

Team Lead,
Doctors on Mission International.

Ministry through Medical Missions

A ministry of healing does not happen from a distance. To bring health, the physician must be physically present. Jesus is the ultimate model, showing that an embodied presence is necessary to bring healing and hope to others. Though Jesus is fully God, He is also fully human.

He knows what pain and suffering is and can identify and sympathize with those who are hurting and bring comfort. Jesus shows us how effective ministry is to be done. He calls us to reach out to the vulnerable and the sick.

Ogul Village Medical Outreach, March 2025

Doctors on Mission International partnered with Amigos Internacionales to organize a 3-day medical outreach at Ogul-Coopil village, Angaya parish, Unyama Sub-County, Aswa County, Gulu District, Northern Uganda.

The camp offered general medical and surgical consultations, specialist clinics, Eye care, Dental care, Free cancer screening, skin clinic, children's clinic, physiotherapy clinic, immunization, family planning services, general medical consultations and health education.

The outreach was entirely volunteer-led and all health workers were mobilized by doctors on Mission in partnership with partner hospitals, Gulu district health office and local authorities

Goal/ Objective

The aim of the Outreach was to increase the provision of quality, professional surgical, medical care to high-quality value-based healthcare to reduce health disparities for all people regardless of their ability to afford, age, race, disability, ethnicity, religion and origin.

It was also aimed at being used a bench mark to identify the needs of the community, and to help guide the team in establishing a medical facility in the village.

Medical Outreach Location

Ogul-Coopil village, Angaya parish, Unyama Sub- County, Aswa County, Gulu District, Northern Uganda.
