Winter storage arrival and check in

Gate 8 entry | Measurement | Drop-off | Draft Barn | Gate 7 exit

EVENT PARKING AND WINTER STORAGE DIRECTIONS

1 Enter at Gate 8

Follow the designated northbound driveway.

2 Measure and receive a ticket

Staff attach a matching Storage ID tag to the item.

3 Drop off in the assigned space

Wait for the attendant's directions before disconnecting.

4 Complete paperwork at the Draft Barn

Use the designated tow-vehicle parking and marked walk. Bring the measurement ticket and pay.

5 Exit through Gate 7

Follow the marked exit aisle. Keep the paid ticket for the exit marshal.

Winter storage arrival & check-in

What to do when you arrive | Keep your measurement ticket with you

1 ARRIVE AT GATE 8

Move-in begins at 9:00 AM on Saturday, November 14. Use Gate 8 and follow the marked northbound parking-lot driveway. Follow posted signs and staff directions.

2 STOP FOR MEASUREMENT

Remain with your vehicle until staff approach. Staff will measure the item and collect the information needed for your measurement ticket. If you plan an early pickup, tell staff and provide the pickup date.

3 PARK IN YOUR ASSIGNED SPACE

Follow the parking attendant to the assigned storage drop-off space. Once parked, keep your tow vehicle attached and take your measurement ticket to the Draft Barn.

4 COMPLETE PAPERWORK & PAYMENT

Bring your measurement ticket and required storage documents to the Draft Barn, marked with a gold star on the map. Staff will confirm your name and Storage ID, complete paperwork and payment, and arrange the correct early-pickup identification when needed.

5 EXIT THROUGH GATE 7

After paperwork and payment, return to your vehicle. Follow the orange route and EXIT signs to Gate 7 on Columbus Street. Keep your paid ticket/receipt for your records. Do not drive against the marked traffic flow or enter a storage building on your own.

SHARED GROUNDS | WATCH FOR RUNNERS & PEDESTRIANS

Other events will be taking place on the grounds. Follow staff instructions and expect temporary traffic holds where event routes cross vehicle lanes. Keep driveways, exit aisles and emergency access clear.
