

Oil Coolers

MOCAL oil coolers have earned a reputation for being tough, lightweight, and highly efficient. This makes them the obvious choice for all high performance automotive, motorcycle, marine and aviation applications. Oil cooler

construction utilizes a variable number of pressed plates forming oil-ways which contain "turbulators" to break down boundary layer effects in the oil flow allowing for maximum heat

Oil Cooler Cutaway

dissipation without undue pressure build-up. Oil-ways are interspaced with corrugations providing airways between the plates allowing air to pass. Airway corrugations are also louvered to optimize heat transfer. The entire oil cooler is made from aluminum alloy braised into a one piece unit. Each is then pressure tested to 170 p.s.i., sample coolers are put through even more exhaustive testing to ensure their stability under all conditions. Oil Coolers are available in 235mm and 115mm

core sizes. Fluid connections are optional in either male -AN/JIC (-6, -8, -10, -12, -16) size or male BSP (1/2", 5/8", 3/4") size fittings. **MOCAL** oil coolers

are suitable for all engine, transmission and differential cooling applications. We can supply oil cooler installation kits for most popular automotive applications and stock a full line of oil plumbing components. Our technical staff is also available to assist in selecting the proper cooling components for your requirements.

System 22

Mocal System 22 series oil coolers are now available. These coolers use M22mm x 1.5 thread o-ring boss (ORB) type adaptors, hose ends and banjo fittings for added versatility. This concept also allows shops and resellers to stock a minimal range of cores but still have the potential full range of fluid connection sizes available.

System 22 oil coolers feature a versatile 22mm x 1.5 female adaptor fitting system. Select from a range of 22mm x -AN unions or hose ends for direct connection to socketless or stainless braid -AN hose.

- a) Union Adaptor -6 to -16an
- b) Hose End Socketless -6 to -12an
- c) Hose End Swivel -6 to -12an

d) Banjo type cooler adaptors are very handy for space limited installations. Available in two sizes, 22mm x -10AN male and 22mm x 8AN male, these banjo adaptors are the most compact connection available (measuring only 1.75" off the top plate of the cooler).

See next page for complete listing.

Universal Cooler Mounting Brackets (pair)

Description	part #	price \$
Cooler Mounts (pair)	OCB1	\$21.50

These reinforced steel brackets offer a universal mounting solution for all sizes and widths of Mocal and Setrab oil coolers, with options for orientation. Brackets feature a durable powdercoated finish and 70A durometer damping pads to help isolate coolers from vibration. Sold as a pair (2) and include rubber damping, threaded backing plates and hardware.

Oil Cooler Mounting Brackets

Description	part #	price \$
Cooler Mount (115m)	ABKT-115	\$19.50
Cooler Mount (235m)	ABKT-235	\$23.70

These versatile formed aluminum brackets provide the most secure method for mounting radiator type oil coolers. Brackets incorporate rubber damping pads to reduce vibration and are available in 115mm and 235mm core versions. Shorter height coolers (less than 16 row) can use single bracket off one end, larger cores should be supported from both ends. Sold (1) for each cooler end; includes one bracket with hardware.

If your application involves low vehicle speeds, restrictive air flow or static industrial cooling installations adding a fan is the logical answer. Mocal cooler/fan combos are available in most popular fluid connections (-AN, BSP, push-on). Fans have water-resistant motors and are supplied in "puller" blade configuration.

Fan Mount Series 6 34 Row single 9.0" 630cfm fan	FP634KIT	\$250.00

Already have a 113, 119, 625 or 634 size oil cooler and want to add a fan? This kit includes fan, shroud/brackets and hardware from our complete cooler fan packs, less the oil cooler. Fans have water-resistant motors and are supplied in "puller" blade configuration.

Oil Cooler Fan Mounting Strips

Description	part #	price \$
Cooler/Fan mounting strips	ABKT1	\$15.50

Special slim gauge nylon "zip strip" mounting provide a simple and secure method for mounting fans to oil coolers, water radiators or intercoolers. They can also be used to mount oil coolers to water radiators or alike components. Kit includes four heavy duty tie mounts with protective foam pads for easy installation.

Electric Fan Accessories

Fan Switches & Associated Parts

Description	part #	price \$
Fan Switch 180°	FS180	\$22.50
Fan Switch 190°	FS190	\$22.50
Fan Switch 200°	FS200	\$22.50
-8AN Male/Female	GA8MF-2	\$12.60
-8AN Male/Male	GA8MM-2	\$10.60
-10AN Male/Female	GA10MF-2	\$16.25
-10AN Male/Male	GA10MM-2	\$14.25
-12AN Male/Female	GA12MF-2	\$19.50
-10AN Male/Male	GA12MM-2	\$17.10

Fan Switch: Small preset 180°, 190° or 200° switch with 1/8" NPT male thread can be fitted to oil coolers or plumbing to activate auxiliary fan(s).

Female/Male: Installs over an existing -AN male. Provides (1) 1/8" NPT port for fan switch or gauge sender. Adds about 1" additional length depending on size.

Male/Male: Installs in hose. Provides (1) 1/8" NPT port for fan switch or gauge sender. Adds about 1 1/2" additional length to hose depending on size.

Fan Relay 12v with Harness

Description	part #	price \$
12v Relay	Relay12	\$8.50

Fans should be supplied power through a relay which provides power directly from 12v source. Use a fan switch (above) or manual switch (you provide) to trigger relay. Harness/plug included, 12 volt 30/40 amp rated.

Fan Wiring Kit - Adjustable 150f - 240f

Description	part	price \$
Fan Wiring Kit Adjustable	AFTR1	\$105.00

Adjustable turn-on range 150f - 240f fan wiring kit uses push-in probe sensor. Turn-off is -10f lower than turn on. Controller has simple potentiometer control for temperature set and incorporates 40amp relay. Override circuit is built in for manual switch or trigger with a/c compressor (on). Wiring and fuse holder is included. Sensor is a serviceable part.

Oil Cooler Ducting

OCD13, OCD16

16 row 235m Cooler w/ OCD16

Oil Cooler Ducting

Description	part #	price \$
Duct for 13 row	OCD13	\$83.10
Duct for 16 row	OCD16	\$89.50
Duct for 19 row	OCD19	\$94.00

Oil cooler ducting is a simple and effective way to maximize cooling performance, especially when the cooler is mounted in a reduced airflow location. Available for 235 matrix size 13, 16 and 19 row coolers, brackets and hardware are included. Hose connections are single 3" or 3.5" on 13 and 16 row size and double 2.5" or 3" on the 19 row size. Maximum depth required is 6" (other dimensions are the same as cooler matrix area).

Specialty Oil Coolers

OCNIS1

MOCAL Oil Cooler for Nissan GT-R (R35)

Description	part #	price \$
Oil Cooler GT-R (R35)	OCNIS1	\$725.00

This is our new, direct fit, high-performance oil cooler for the Nissan GT-R (R35) 2009+ US/JDM, and European models. Cooler features a heavy duty bar/plate core with increased surface area over the somewhat fragile and exceedingly expensive (+\$3,000) OEM tube/fin cooler. Our GTR oil cooler is a complete plug-and-play solution which attaches to factory hoses and mounting point; optionally the fluid connections are internally threaded for M22 x –AN unions (-10 or -12); this makes it suitable for use with aftermarket –AN hose/fitting assemblies. With the ever increasing amounts of power customers are getting out of the GT-R type engines, keep in mind oil coolers should always be replaced after engine failures; also if using high volume/pressure oil pumps, our cooler is also capable of operating at +50psi over the standard cooler.

MOCAL

APC12 / 16 Oil Cooler
(16" x 4.5" x 2" core)

MOCAL Front Spoiler Oil Cooler

Description	part #	price \$
Spoiler Cooler -12AN	APC12	\$742.50
Spoiler Cooler -16AN	APC16	\$742.50

This coolers large 26 inch cross flow design cooler is well suited to front spoiler installations and its' a direct fit for "RUF" brand 911/930 front spoilers. Cooler features unique double stack oil passages giving it a high BTU rating for its size; as well, bar and plate design makes it strong and capable for motorsports use. Cooler is available with either -12AN or -16AN male fluid connections. Mounting tabs are provided at top and sizes to aid installation.
