## Braided Hose Scrap Sale

Selling bulk lengths of hose, rather than pre-cut lengths, means we wind up with odd length remnants. If you have a use for short lengths, here's your chance to save 25% on AQP stainless braid hose. When ordering, make sure to tell us that you are looking for short lengths and you want the special price as listed here. Price only applies to lengths of 3 foot or less, but can be combined (i.e.: ordering 9 feet as 3 x 3 foot sections).

-6 size	FC3-6	\$3.80 foot (regularly 5.05 )
-8 size	FC3-8	\$4.40 foot (regularly 5.85 )
-10 size	FC3-10	\$4.90 foot (regularly 6.50 )
-12 size	FC3-12	\$5.80 foot (regularly 7.75 )

## -6AN 180° PTFE Hose End

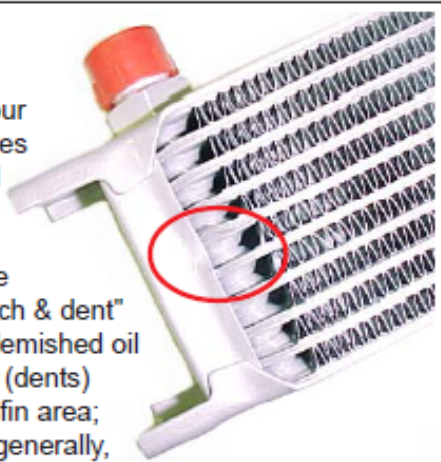

-6AN 180° swivel hose end for Teflon (PTFE) hose. These were a special order for a customer who later required a wider radius bend. In black/silver these are currently \$22.50 each on clearance for only \$9.90

**\$9.90 each**  
*regular price \$22.50*  
*20 available 04/2019*

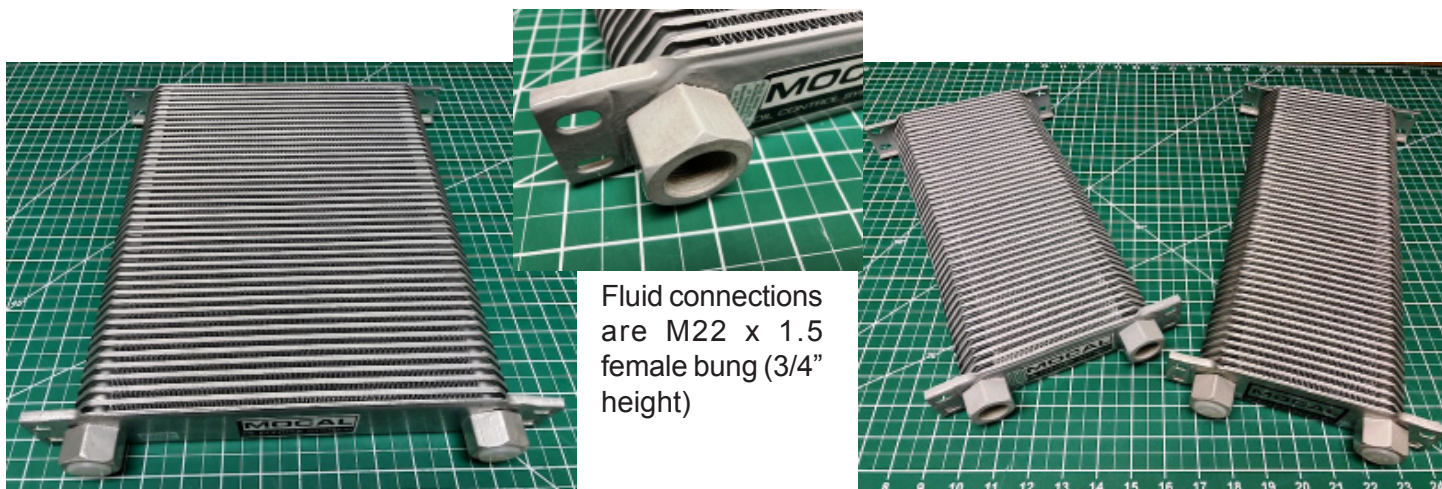

## Scratch & Dent Sale

With the number products that come through our doors, damage occurs on a regular basis. Issues are usually caused when improperly packaged goods are handled roughly by freight carriers, or (in some cases) parts that are less than perfect sneak through quality control. For these reasons, we regularly have a quantity of "scratch & dent" oil coolers and flip-top fuel caps to liquidate. Blemished oil coolers will have some type of cosmetic issue: (dents) somewhere on the top/bottom plate or cooling fin area; paint missing, or, generally, looking less than desirable.

Fuel caps will likely have finish issues with either plating or polish and could be lightly scratched. All items are tested completely functional and discounted from 10-30%. If looks aren't so important, and you're looking to \$ave, inquire if we have a "scratch & dent" next time you are ordering.

## Plumbing Clearance Items

44 Row 235mm (series 6) Oil Coolers

44 and 50 row 115mm (series 1) Oil Coolers

Recently while moving some crates around the factory we came across a stash of pre-production Mocal HD series oil coolers. These were made about 10 years ago prior to the current black production HD coolers with the slim profile female fluid connections. These have a taller (3/4") bung for fluid connection and are painted an ugly bright silver or industrial gray. They may also be slightly crooked or blemished, but the pricing more than makes up for their unattractiveness. All units are new and pressure tested. Quantities and pricing are limited to stock on hand.

<b>44 Row 115mm</b>	<b>OC1442-105HD</b>	<b>\$175.00</b> (regularly \$385.00)
<i>(size 13 1/2" high*, 6 1/4" wide, 2" thick) *height less fluid connection</i>		
<b>44 Row 235mm</b>	<b>OC5442-105HD</b>	<b>\$220.00</b> (regularly \$440.00)
<i>(size 13 1/2" high*, 11 1/4" wide, 2" thick) *height less fluid connection</i>		
<b>50 Row 115mm</b>	<b>OC1502-105HD</b>	<b>\$185.00</b> (regularly \$420.00)
<i>(size 15 1/4" high*, 6 1/4" wide, 2" thick) *height less fluid connection</i>
