

Finally, a way that makes learning about money fun for everyone!

Camp Millionaire is an innovative camp that teaches kids how to make, manage and multiply their money!

Using interactive GAMES and ACTIVITIES kids learn the basic time-tested principles of creating financial freedom.

- How our beliefs and attitudes influence how we make and manage money.
- Money is simply a form of energy.
- Passive income streams are the answer!
- The many ways people earn and make money (employee, self-employment, business owner or investor).
- How to put your money to work using the stock market, real estate, and business.
- How to set goals and manage their money.
- The importance of helping their community, i.e. giving back

The Moving Out! is based on all the same principles of Camp Millionaire...but...there's a LOT more!

(Middle School Edition) – This year's version is getting a major upgrade! We're adding real-world prep like **resume-building, interview practice, and goal-setting for future jobs and schools.**
