

## **Airport Shuttle – Wisconsin Farm Technology Days 2025**

The ability to fly to the Wisconsin Farm Technology Days Show has just been made easier. The show is August 5-7, 2025, to be held at Clinton Farms of Bear Creek in Waupaca County.

Pilots will be able to fly to the nearby Clintonville, Wisconsin Municipal Airport (CLI). It is a non-towered airport with six runways – four paved and two grass. Parking and fuel are available. Commercial flights are not available.

Free shuttle service will be provided to take exhibitors and visitors to and from the farm about 11 miles away. The service has been made possible through generous donations from Clintonville City Council, Clintonville Municipal Airport and Victory Church. Shuttle hours of operation will be August 5-7, 2025 starting at 7:30am at the airport with the last run returning to the airport at 5:30pm. There will be a break for lunch between 12 noon and 1:00pm.

Airport fly-in and shuttle service to the Wisconsin Farm Technology Days is not new to the show however the last time it was offered was in 2018 to the Marshfield show. Flying to Clintonville airport provides another opportunity for distant visitors to attend the show.

The Wisconsin Farm Technology Days is the largest outdoor farm show in Wisconsin. It moves to a different farm each year. Clinton Farms, which hosted the shows in both 1978 and 2003, is located at E8351 Wisconsin Hwy 22, Bear Creek, WI 54922. Hours of the show are 9:00am to 4:00pm. General admission is \$15 per person, children 12 and under are free. To learn more, visit our website, [wifarmtechdays.org](http://wifarmtechdays.org).
