

RADIATE[®] PLUS, the next generation of RADIATE, is a foliar applied plant growth hormone package with a well-rounded nutrition package to drive root growth, shoot growth and early season plant potential.

PRODUCT FEATURES

- A targeted combination of the plant hormones IBA, Kinetin and a well-rounded nutrition package
- A nutritional package specifically formulated to enhance phosphorus fertility including other macro and micronutrients to aid in plant development
- Phosphorus functions as one of the main promoters of photosynthesis, nutrient transport and energy transfer via energy-rich linkages (ATP)
- Foliar application on a wide range of crops
- Compatible with a wide range of pesticides and tank mix partners

RATE & TIMING

1 L/A at herbicide timing (2-6 leaf depending on crop). Refer to label for rate structures.

GUARANTEED ANALYSIS

- Total Nitrogen (N) - 6.00%
- Available Phosphate (P2O5) - 26.00%
- Soluble Potash (K2O) - 5.00%
- Boron (B) actual - 0.05%
- Copper (Cu) actual - 0.05%
- Iron/Fer (Fe) actual - 0.30%
- Manganese (Mn) actual - 0.05%
- Zinc (Zn) actual - 0.10%
- EDTA (Ethylene diamine tetraacetic acid) - 1.00%
- 3-Indolebutyric Acid (IBA) - 0.85%
- Cytokinin, as Kinetin - 0.15%

GROWER BENEFITS

- Promotes root and shoot growth
- Promotes early season vigor and growth; reducing negative effects of stresses
- Gives a plant available foliar nutrition (macro and micro) boost
- 100% plant-available formulation to aid in uptake
