5 ILCS 120/2 (c) (5)-Discussion of the purchase or lease of real property for the use of the public body, including meetings held for the purpose of discussing whether a particular parcel should be acquired.

* items are in members' packets

The next meeting of the Forest Preserve Executive Committee will be held at Loud Thunder Forest Preserve Park Office, 19406 Loud Thunder Rd, Illinois City, Illinois on Tuesday, August 12th, 2025 at 3:30 PM.

FOREST PRESERVE EXECUTIVE COMMITTEE MINUTES JUNE 10, 2025

PRESENT: Committee members – K. Swanson, R. Simmer, J. Woods, E. Sowards, D. Mielke, C. Layer.

ABSENT: L. Moreno.

ALSO PRESENT: Jeff Craver, District Director; Lee Jackson, Niabi Zoo Director.

President Swanson called the monthly meeting of the Forest Preserve Executive Committee to order at 3:35 PM on Tuesday, June 10, 2025, in the class room of the Administration Building at Niabi Zoo in Coal Valley, Illinois.

E. Sowards, K. Swanson, J. Woods, R. Simmer, D. Mielke, C. Layer.
TOTAL PRESENT 6
L. Moreno.
TOTAL ABSENT 1

President Swanson called for a motion approving the May Committee meeting minutes.

MOTION: Ms. Woods moved to approve the May Committee meeting minutes. Dr. Simmer seconded the motion.

Motion carried.

President Swanson called for a motion to approve the claims and treasurer's disbursements in the amount of \$789,017.42.

MOTION: Ms. Woods moved to approve the claims and treasurer's disbursements in the amount of \$789,017.42. Dr. Mielke seconded the motion.

Motion carried.

President Swanson called for a motion to approve the transfers of appropriation.

MOTION: Dr. Simmer moved to approve the transfers of appropriation. Mr. Layer seconded the motion.

Motion carried.

President Swanson called for a motion to approve the resolutions regarding the General Fund transfer of appropriations to Niabi Zoo Fund, additional fiscal year 2025 appropriation in the Niabi Zoo Fund, fiscal year 2025 Niabi Zoo Fund appropriations for Mixed Primate and Otter

Exhibit Improvements, the Bike Path Grant Improvements, and Cooling system for Biodiversity Building at Niabi Zoo.

MOTION: Dr. Simmer moved to approve the resolutions regarding the General Fund transfer of appropriations to Niabi Zoo Fund, additional fiscal year 2025 appropriation in the Niabi Zoo Fund, fiscal year 2025 Niabi Zoo Fund appropriations for Mixed Primate and Otter Exhibit Improvements, the Bike Path Grant Improvements, and Cooling system for Biodiversity Building at Niabi Zoo. Sowards seconded the motion.

Motion carried.

President Swanson made three calls for public comment. There were no requests for public comment.

President Swanson called for a motion to approve the revised fiscal year 2026 Annual Budget and Appropriation Ordinances for the General Fund, Niabi Zoological Preserve Fund, IMRF Retirement Fund, FISSA Fund, Audit Fund, and Development of Forests and Construction of Improvement Fund.

MOTION: Ms. Woods moved to approve the revised fiscal year 2026 Annual Budget and Appropriation Ordinances for the General Fund, Niabi Zoological Preserve Fund, IMRF Retirement Fund, FISSA Fund, Audit Fund, and Development of Forests and Construction of Improvement Fund. Dr. Simmer seconded the motion.

Motion carried.

President Swanson called for a motion to approve the purchase of a Ford F-150 in the amount of \$43,673.00.

MOTION: Dr. Simmer moved to approve the purchase of a Ford F-150 in the amount of \$43,673.00. Ms. Woods seconded the motion.

Motion carried.

President Swanson stated that bids for the Great River Trail Project will need to be forwarded to the Commission meeting next week. The bid opening isn't until the sixteenth. The only other option is to decide the bids in July, which would delay the project another month.

There was consensus to decide the bids next week at the Commission meeting.

President Swanson called for a motion to approve the staff recommended proposal for Actuarial Services for GASB 75 reporting.

MOTION: Dr. Simmer moved to approve the staff recommended proposal for Actuarial Services for GASB 75 reporting. Ms. Woods seconded the motion.

Mr. Craver stated that the District received four proposals for actuarial services. Focusing on the two lowest proposals, which does not include the District's current external auditing firm, USI. Lauterbach & Amen, LLP, based out of Naperville, is the lowest bid. Lauterbach does the County's, and staff is recommending Lauterbach & Amen, LLP.

Motion carried.

President Swanson called for a motion to approve the MindFire Communications Agreement for Services in the amount of \$80,225.00.

Dr. Simmer asked if this was for the full year.

Mr. Craver stated that the jump in price that being seen is due to the additional services of redoing the District's website and the Bluff's website. This is in addition to the regularly performed services that MindFire has done for the District in the past several years.

MOTION: Dr. Simmer moved to approve the MindFire Communications Agreement for Services in the amount of \$80,225.00. Mr. Mielke seconded the motion.

Motion carried.

President Swanson called for a motion to approve the amendment to Zoo Director salary of \$1,000.00.

MOTION: Ms. Woods moved to approve the amendment to Zoo Director salary of \$1,000.00. Dr. Simmer seconded the motion.

Motion carried.

President Swanson asked if there were any questions from the Committee on the routine reports.

There were no questions.

President Swanson asked Mr. Jackson if there was anything he wanted to bring to the Committee's attention.

Mr. Jackson stated that there are several new exhibits this year. A few have already opened up. There is good progress on the cat house.

Dr. Simmer asked how the train was performing.

Mr. Jackson stated that the train had running well this year.

Mr. Craver added that the District needs to get at least three more years out of the current train. The bonds for the zoo will be complete in 2028, and the hotel/motel tax money will be

around until 2033. With any luck the District will be able to use the extra cash in the budget to purchase a new, or gently used, train.

Mr. Craver then went over a brief summary of the history of the hotel/motel tax money that the zoo has been receiving over the years.

Mr. Jackson stated that a new bid will have to be acquired for, preferably, an electric train.

President Swanson asked Mr. Craver if there was anything he wanted to bring the Committee's attention to from the report this month.

Mr. Craver stated that the reports were pretty self-explanatory this month, but was happy to answer any questions.

There were no questions.

President Swanson reminded the Committee that in July the Committee will be meeting at Indian Bluff Golf Course, then called for a motion to approve all routine reports from the Director and Department Heads as presented.

MOTION: Ms. Woods moved to approve all routine reports from the Director and Department Heads as presented. Ms. Sowards seconded the motion.

Motion carried.

President Swanson called the meeting adjourned at 3:58 PM.

ADOPTED by the Rock Island County Forest Preserve Commission, Rock Island County, Illinois, this 15th day of July, 2025.

Kai Swanson, President Forest Preserve Commission Karen Kinney, Secretary Forest Preserve Commission

Resolution

Rock Island County Forest Preserve District Re: Open Meetings Act Review of Minutes of a Meeting Lawfully Closed

WHEREAS, the Rock Island County Forest Preserve Commission strictly adheres to all provisions of the Open Meetings Act as defined in 5 ILCS 120; and

WHEREAS, 5 ILCS 120/2.06(c), calls for periodic review of minutes of meetings lawfully closed to determine if the need for confidentiality still exists as to all or part of these minutes or that the minutes or portions therefor no longer require confidential treatment and are available for public inspection; and

WHEREAS, during regular committee meetings held during the month of July, 2025; Rock Island County Forest Preserve has reviewed minutes of closed meetings for all previously held closed sessions.

NOW, THEREFORE, BE IT *RESOLVED* that the following meeting minutes have been determined to contain matters where the need for confidentiality still exists:

Re: Amendment Number 1 for Additional Services Rock Island County Forest Preserve District Great River Trail - HMA Repairs and Overlay Cordova, Illinois

IMEG Project Number: 24002519.01

Dear Jeff:

As we discussed, you would like IMEG to provide additional services for preparation of Construction Administration (CA) & Construction Engineering Inspection & Observation (CEI) services for the Great River Trail – HMA repairs & overlay. All other services, terms, and conditions shall remain as stated in our original Agreement dated January 10, 2025.

Construction Services

Construction Administration including:

Answer Contractor questions and Requests for Information (RFIs).

Prepare Requests for Proposal (RFPs) and deliver to Contractor for pricing.

Review Contractor responses to RFPs and recommend change orders.

Prepare change orders for the contract.

Review Contractor pay applications and recommend all or partial payments.

Request material documentation and report to IL DOT.

Prepare final documentation to close out the project.

Review shop drawing submittals for items requested in the contract documents.

Conduct job site observation(s) during construction, plus one final job site observation at the end of the construction period. Project length is estimated to be 2 weeks.

Prepare record documents based upon Owner and Contractor-supplied as-installed documents, with no additional verification.

Construction Engineering & Inspection (CE&I) Services:

General Administration of Construction Contract: Consult with Owner, act as Owner's representative in the field, and assume all duties and responsibilities and have the rights and authority assigned to Engineer in the Contract Documents in connection with the completion of the Work in accordance with the Contract Documents.

Full-time CE&I services are anticipated to follow a standard Contractor's schedule of Monday through Friday at eight hours per day.

Forward Contractor questions and Requests for Information (RFIs) to Engineer for review.

Prepare daily/weekly reports.

Review pay estimates and change orders for the Contract.

Prepare daily/weekly reports.

Provide coordination and attend final walkthrough with Owner, Engineer and Contractor. Prepare and provide a final punch list to the Contractor.

After Contractor notification of final completion, attend final job site observation to determine if the work is complete and acceptable.

Prepare revisions of the contract drawings to reflect as-built conditions.

Construction Survey Services:

Layout limits of construction.

Verify elevations and slopes meet ADA guidelines.

All staking requests shall be based on a minimum of 48 hours' notice to IMEG for scheduling.

Compensation

We propose to provide the services described above on a time and material basis using our standard hourly billing rates (attached), with an estimated fee of \$13,800. The total estimated fees for the project will now be \$29,400. Reimbursable expenses remain as stated in our original Agreement.

Closing

We will begin our services following acceptance of this Amendment for Additional Services. Acceptance may be conveyed via email or by signing this offer and returning it to our office. Notwithstanding the foregoing sentence, if you or members of your firm engage IMEG for services for the referenced project, either verbally or by actions, which imply acceptance of this Amendment such as providing drawings, submitting questions, requesting engineering information, etc., without returning a signed copy of this Amendment, it is expressly agreed that acceptance of **all** terms and conditions of the original agreement will be implied and contractually binding.

Re: Proposal for Services Rock Island County Forest Preserve District EV Charger Design

Dear Jeff:

Thank you for the opportunity to submit a Proposal for the services described herein for the new Level II EV Chargers at multiple sites within the Rock Island County Forest Preserve District. The sites include Niabi Zoo, Illiniwek Forest Preserve, Amowa Forest Preserve, Dorrance Park, Loud Thunder Forest Preserve, Martin Conservation Area, and Indian Bluff Golf Course. The District has received a grant from the Illinois Finance Authority that will cover a large portion of the construction costs, which have been estimated to be approximately \$300,000.00.

We understand you would like IMEG to serve as the prime consultant and provide the following services:

Civil

Survey

Provide a topographic survey of each project site for use as backgrounds.

Topographic survey services include:

- Perform topographic survey of an approximately 1/2 acre of each location.
- IMEG to submit JULIE design locate and provide a summary table of existing utilities provided by requested design locate.
- Topographic survey to extend 25 feet outside project boundary lines.
- IMEG to set a minimum of three control points on site.
- IMEG to set a minimum of two benchmarks on site.
- Show contours at one-foot intervals.
- Show plotted location of structures, power poles, and other visible permanent features.
- Show visually observed evidence of subsurface structures.
- Show elevation of each entrance into each building on project site.
- Show utility information marked by JULIE design locate.
- Show utility information based on maps provided to the surveyor by Client.
- Show locations, size, depth and direction of flow for sanitary and storm sewer systems.
- Note water elevations in any excavation, well, or body of water on project site.

- Show trees greater than 4 inches in diameter, 3 feet above the ground.
- Show outline of large, wooded areas.
- Show individual bushes larger than 12".
- Outline larger landscaped areas.
- Prepare AutoCAD format drawings for engineer use.

Electrical Design

Incoming electrical service, power distribution, and grounding at each site. Electric vehicle (EV) charging.

General Design

Prepare applicable specifications and contracts. Prepare contract documents that are suitable for pricing and construction purposes.

Project Design Meetings

Participate in virtual or in-person meetings as required.

Bidding Phase

Issue documents to prospective bidders. Conduct Prebid meeting, if necessary. Respond to contractor questions. Prepare addenda information as required. Assist with bid evaluation and recommend award to successful contractor.

Assumptions

The following assumptions are in addition to those listed under IMEG's scope of services above.

General

Documents prepared by the Engineer will be prepared based upon reasonable assumptions derived from existing information provided by the Owner and from limited observation of accessible and visible existing conditions by the Engineer without the benefit of extensive field measurements and investigation prohibited by expense and inconvenience to the Owner. It is understood and agreed that unforeseen conditions uncovered during the progress of the project may require changes in the project, resulting in additional cost and delay.

The project will be designed by IMEG using Building Information Modeling (BIM) software with Autodesk Revit® as the platform. The BIM deliverable will be no greater than Level of Development (LOD) 300 as defined in AIA Document E202.

The Revit® model is only inclusive of those systems and trades designed by IMEG. The Revit® model will not include Owner/vendor-provided and installed systems requiring coordination by the installing contractors. The Revit® model is intended for internal coordination among the design team. It is understood the model is not intended to be an exact and complete three-dimensional representation of how the Contractor will route and locate utilities and equipment.

Modeling of existing conditions will be limited to the extent required to produce specifications and 2D contract documents.

The project will be awarded as a single prime contract for construction. Phased design and/or issue of early documents are not required.

Compensation

We propose to provide the services described above for a fixed fee of \$64,500.00. Should the size and/or scope of the project, project schedule, or project budget change, IMEG reserves the right to adjust our fees, or new or increased services will be provided as additional services.

Project Expenses

The following reimbursable expenses are not included in the above fee and will be invoiced with a 1.1 multiplier of actual cost:

- Payment of plan review fees, permit fees, filing fees, or other imposed governmental agency fees.
- Necessary consultants as approved by Client.
- Project specific insurance coverage riders or amendments necessary to comply with required insurance requirements above current IMEG limits and conditions.
- Postage and delivery charges.
- Travel expense: Automobile mileage will be invoiced at the IRS rate in effect at the time of travel. Travel expenses include mileage, tolls, parking fees, taxi, train, airfare, rental car and fuel, and other out of pocket travel related expenses.
- Reproduction and distribution costs associated with issuing contract documents.

Additional Services

IMEG can include the following as additional services. Additional services will be performed on a time and material basis using IMEG's standard hourly rates in effect at the time the service is performed, or for a negotiated fee, and only after approved in writing.

General

Construction phase services

Services within IMEG's expertise not included above.

Condition assessment surveys or invasive field takeoff to determine existing conditions that are not readily accessible or visible.

Assistance with grants and other related funding applications.

Value engineering or negotiating construction cost/scope/alternates with contractors and related document revisions after Design Development documents are complete.

Additional effort to support expedited, segmented, and/or express building permit process. Revising IMEG design documents as a result of equipment lead times or supply chain delays.

SMEPT

Revising equipment layout and connections, and floor plan modifications, after IMEG's Design Development documents are complete.

Page 3 of 8

Electrical

Development of an arc flash hazard analysis or modifications to an existing arc flash analysis for the facility.

Closing

The attached Terms and Conditions dated 09.2024 are made a part of this Proposal. This Proposal is valid for 45 days from the date of this offer.

We will begin our services following acceptance of this Proposal for Services. Acceptance may be conveyed via email or by signing this offer and returning it to our office. Notwithstanding the foregoing sentence, if you or members of your firm engage IMEG for services for the referenced project, either verbally or by actions that imply acceptance of this Proposal, such as providing drawings, submitting questions, requesting engineering information, etc., without returning a signed copy of this Proposal, it is expressly agreed that acceptance of <u>all</u> terms and conditions of this Proposal will be implied and contractually binding.

Terms and Conditions

1. Definitions:

"Agreement" - Collectively IMEG's proposal, these Standard Terms and Conditions, IMEG's Standard Hourly Rates, and any exhibits incorporated expressly by reference, herein.

"Change Order" - Any additional Services or change in schedule related to the Project requested by IMEG or Client.

"Client" - The party for whom Services are being provided, and its directors, officers, affiliates, employees, and agents.

"Day(s)" - Any day other than Saturday, Sunday, or any other day on which banks in New York are closed.

"IMEG" - IMEG Consultants Corp., and its directors, officers, affiliates, employees, and agents.

"Losses" - Any loss, liability, claim, damage, cost, expense, and reasonable attorney's fees.

"Party" - Each of IMEG and Client; "Parties" means IMEG and Client collectively.

"Project" - The specific project for which Services are performed pursuant to this Agreement.

"Project Owner" - The party responsible for the initiation, funding, and oversight of the Project.

"Services" - The services or work performed by IMEG in any office location for Client on the Project.

"Standard Hourly Rates" - The current hourly rates set by IMEG for Services performed under this Agreement.

2. Standard of Care/Performance: Services provided by IMEG under this Agreement shall be performed in accordance with the professional skill and care ordinarily exercised by professionals practicing under similar circumstances in the same or similar location ("Standard of Care"). It is explicitly understood and agreed that the Standard of Care does not demand perfection, and IMEG will not be responsible for any cost escalations, separate and apart from IMEG's negligence as defined in Section 11, throughout the Project's duration. Nothing contained in this Agreement or within any certification/representation statement shall obligate, bind, or require IMEG to exercise professional skill and judgment greater than the Standard of Care. IMEG makes no warranty or guarantee, express or implied, and shall not be responsible for any failure to follow or apply any knowledge or techniques which are not generally known or accepted. Should Client seek additional design parameters in contemplation of future climate change, such parameters shall be explicitly outlined in the Standard of Care.

3. Information: Except as otherwise defined in the Services, Client shall facilitate the exchange of information among the Project Owner, IMEG, and other service providers as necessary for the coordination of the Project. IMEG shall be entitled to rely on the accuracy and completeness of such information furnished by Client or Client's other service providers. IMEG shall not be liable for inaccurate data, specifications, or other Project requirements submitted to it by or on behalf of Client. If there are updates or changes to any information provided to IMEG in furtherance of the Services, Client is responsible for advising IMEG's personnel of such updates or changes in writing.

4. Limitation of Responsibilities: IMEG shall not be responsible for, nor have control over or charge of, construction means, methods, coordination, schedules, techniques, procedures, delays, site observation, or review of contractor's work, or for any health or safety precautions or programs. Client shall indemnify, defend, and hold harmless IMEG for contractor's or subcontractor's performance or the failure of contractor's or subcontractor's work to conform to Project design specifications and contract documents.

5. Additional Services: If the Project schedule or scope changes and additional Services are requested, IMEG shall send Client a Change Order and Client must approve such Change Order in writing or electronically prior to IMEG commencing work. Services performed pursuant to a Change Order shall be deemed an amendment to this Agreement and such additional Services shall be performed pursuant to these Standard Terms and Conditions.

IMEG shall not be responsible for any expense associated with any Services that are a betterment or added value to the Project.

6. Compensation/Payment: Client shall pay IMEG in full for all Services performed and expenses incurred. Services provided by IMEG on a time and material basis shall be performed in accordance with IMEG's Standard Hourly Rates, subject to annual update. If Client disputes any portion of an invoice, Client shall notify IMEG in writing within fifteen (15) Days of the invoice date by notice to ClientStatements@imegcorp.com. If no notice is received, Client agrees the invoice is accurate and to pay the amount in full. In no case are invoices subject to unilateral discounting, back-charges, or set-offs, and payment in full is due for Services performed regardless of whether this Agreement or the Project is terminated. Accounts unpaid sixty (60) Days after the invoice date may be subject to a monthly service charge of one- and one-half percent (1.5%) (or the maximum legal rate) on the unpaid balance. If any portion of an account remains unpaid 120 Days after the invoice date, IMEG may stop or pause performance of Services and institute collection action. Client shall pay all costs of collection, including reasonable attorney's fees. Collection actions and billing disputes shall not be subject to informal dispute resolution procedures as described in Section 8.

7. Ownership/Use of Instruments of Service: All drawings, specifications, BIM, reports, and other work product of IMEG developed for this Project are instruments of service owned by IMEG ("Instruments of Service"). Upon Client's payment in full to IMEG for all Services performed and expenses incurred, IMEG shall provide Client with a license to use the Instruments of Service for purposes consistent with the Project. Reuse of any Instruments of Service by Client or any third-party for any other use without the express written consent of IMEG shall be at Client's sole risk. Client shall indemnify, defend, and hold harmless IMEG against Losses arising out of unauthorized use or misuse of the Instruments of Service.

8. Dispute Resolution/Governing Law: Excluding collection actions and billing disputes as described in Section 6, claims or disputes between the Parties arising out of the Services or out of this Agreement shall be escalated for informal dispute resolution. If no informal dispute resolution is achieved within fifteen (15) Days of demand made by IMEG or Client, the Parties shall submit the matter to non-binding mediation (mediation being subject to the provisions in Section 8.2 of AIA Document C401-2017). The Parties shall include a similar provision as in this Section 8 with all contractors, subconsultants, and subcontractors, providing for non-binding mediation as the primary method of dispute resolution following informal dispute resolution as described in this Section. This Agreement and all questions, disputes, and litigation arising in connection with the Services shall be governed by, and brought in, the laws of the state where the Project is located.

9. Mutual Waiver of Damages: Each Party hereby expressly waives against the other Party any and all claims for consequential, indirect, punitive, special, incidental, exemplary, or liquidated damages. The waiver in this Section shall apply to any such damages listed herein sought to be recovered through any indemnity obligation in this Agreement.

10. LIMITATION OF LIABILITY: To the fullest extent permitted by applicable law, IMEG's total liability arising out of or related to this Agreement, for all Services performed on this Project, and for all Losses, whether based in contract or tort, in law or equity, or for negligent acts, errors, or omissions, from any cause, shall not exceed the total amount of \$100,000.00 This limitation of liability was negotiated after the Parties discussed the risks and rewards associated with the Project. No individual professional director, officer, or employee of IMEG shall be individually liable for negligence arising out of this Agreement. The limitation of liability established in this Section shall survive the expiration or termination of this Agreement.

11. Indemnification: Subject to Section 10, IMEG shall, to the fullest extent permitted by applicable law, indemnify and hold harmless Client against Losses to the extent caused by, and in proportion to, the negligence of IMEG in the performance of Services under this Agreement. IMEG shall not be obligated to indemnify Client for Client's own negligence.

Client shall, to the fullest extent permitted by applicable law, indemnify and hold harmless IMEG against Losses to the extent caused by, and in proportion to, the negligence of Client in the performance of its services under this Agreement. Client shall not be obligated to indemnify IMEG for IMEG's own negligence.

The other terms of this Agreement notwithstanding, in the event of any professional liability claim within the purview of the indemnification provisions of this Section, each Party shall control its own defense, and at the time of claim resolution, each Party shall provide reimbursement for reasonable defense costs and attorney's fees recoverable under applicable law to the extent caused by the negligence of each Party as determined by a competent trier of fact. As such, the Parties recognize and expressly agree that the duty to defend is not applicable to

professional liability claims and is wholly separate and distinct from the duty to indemnify and hold harmless as described in this Section.

12. Insurance: IMEG shall obtain and maintain the following insurance coverages: Commercial General Liability, Automobile Liability, Umbrella/Excess Liability, Worker's Compensation/Employer's Liability, and Professional Liability. Certificates of insurance shall be provided to Client upon request. When stipulated by the Parties, Commercial General Liability, Automobile Liability, and Umbrella/Excess Liability shall be written or endorsed to include additional insureds (which shall not be named additional insureds), primary/non-contributory coverage, and other coverages, subject to all policy terms, conditions, and exclusions, and any limitations as to coverage amounts as agreed upon in writing by the Parties.

13. Termination: Either Party may terminate this Agreement due to the other Party's material breach of this Agreement upon providing a ten (10) Day written notice to the breaching Party and an opportunity of at least five (5) Days to cure such material breach. Upon termination, payment in full to IMEG is required for all Services performed and expenses incurred through the date of termination. IMEG shall not be required to release any Instruments of Service until such payments have been received. If this Agreement is terminated or suspended due to Client's material breach, Client shall return all Instruments of Service within its possession or control, and any consequences (including delay) resulting from such termination or suspension shall be the sole responsibility of Client. The cancellation of the Project or the institution of bankruptcy proceedings by either Party shall be deemed a material breach and termination of this Agreement.

14. Assignment: Except for assignment by operation of law, neither Party shall transfer or assign any rights or duties under, or interest in, this Agreement, including, but not limited to, monies that are due or monies that may be due, without the prior written consent of the other Party, which shall not be unreasonably withheld. Subcontracting to subconsultants, normally contemplated by IMEG as a generally accepted business practice, shall not be considered an assignment for purposes of this Agreement.

15. Employment and Non-Solicitation: Except with the other Party's prior written consent, neither Party shall solicit the employment of, or employ any of the other Party's employees, during the performance of this Agreement and for a period of six (6) months thereafter, provided that any general solicitation for employment through a published advertisement shall not constitute a breach of this Section.

16. Force Majeure: Except as otherwise provided, no delay or failure in IMEG's performance of its obligations under this Agreement shall constitute a default or the incurrence of damages, if and to the extent, the delay or failure is caused by the occurrence of any contingency beyond the reasonable prevention or control, and without any fault, of IMEG. Unless such occurrence frustrates IMEG's performance, such occurrence shall not operate to excuse, but only to delay, IMEG's performance. Once such occurrence ceases, IMEG shall resume the performance of its obligations under this Agreement as soon as reasonably possible.

17. Severability and Non-Waiver: If any part of this Agreement is declared invalid or unenforceable, the remainder shall continue to be valid and enforceable. No failure to act by either Party shall be deemed to constitute a waiver of such Party's rights or remedies under this Agreement. Additionally, there shall be no legal presumption against the drafter of this Agreement in the event of a dispute as to the enforceability and/or interpretation of this Agreement.

18. Entire Agreement: If Client issues to IMEG a purchase order or similar document, none of the terms and conditions stated therein shall bind IMEG, and such document, whether signed by IMEG or not, shall be considered only as a document for Client's internal operational management. This Agreement represents the entire and integrated agreement between the Parties and supersedes all prior negotiations, representations, or agreements, either written or oral. This Agreement may be amended only by written instrument signed by both Parties.

19. Equal Employment Opportunity: The Parties shall abide by the requirements of 41 CFR 60-1.4(a), 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities and prohibit discrimination against all individuals based on their race, color, religion, sex, sexual orientation, gender identity, national origin, and for inquiring about, discussing, or disclosing compensation. Moreover, these regulations require that covered prime consultants and subconsultants take affirmative action to employ and advance in employment individuals without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, or veteran status.

1 Executive Summary

"The clearest way into the universe is through a forest wilderness."

— John Muir

The Rock Island County Forest Preserve District includes seven preserves disbursed within Rock Island County totaling 2,659 acres of owned and leased property. The District's boundaries are coterminous with those of Rock Island County, which is located in northwestern Illinois along the Mississippi River.

As reported in the 2022 Census American Community Survey, Rock Island County has a population of 143,819 residents. The county's population has experienced a decrease of over 14% since its peak in 1970 and is estimated to remain steady in the future. Even though Rock Island County's population is projected to remain steady, local municipalities continue to annex unincorporated parcels of Rock Island County for development, leaving less ecologicallyviable land in a natural state for wildlife habitat and preservation.

While typical service levels and community guidelines and standards are available for municipal-oriented parks and recreation, the Forest Preserve District's purpose is to acquire and maintain lands. The District's planning efforts for future population and availability of land must be evaluated to meet the demands of the population and changing identified trends. The Forest Preserve District's vision for its parks and facility system should not solely be steered by national trends or municipal park and recreation standards, but through an evaluation of ecological health and sustainability. The current and remaining needs of wildlife, and not just the use of the preserves by its patrons, should be evaluated.

This document plays an important role in identifying Forest Preserve District goals through the input of stakeholders, elected officials, and the general public to ensure that the District vision is being implemented through effective, feasible, and time-appropriate strategies.

The Rock Island County Forest Preserve District has completed a comprehensive analysis of the current and future needs for its parks system to increase efforts to appeal to the largest number of residents possible and to serve as a framework to achieve the identified goals and objectives. The plan describes the purpose and activities of the Rock Island County Forest Preserve District, who the District serves, and what implementation strategies will enhance the District's efforts. Components of the plan include the District's vision, goals, and objectives; a current and future needs analysis; policies; recommended strategies and implementation activities;

1

background and general information, including demographics/trends; and an inventory of each preserve facility's amenities and short-term, mid-term, and long-term goals along with operation/marketing details.

Community input about the preserves and District operations is referenced in various sections of the plan and has been influential in the completion of the plan. The ideas offered from internal and external stakeholders helped to steer the direction and vision of the **Rock Island County Forest Preserve** District. This input shows that accessible natural places along with parks serve as a social gathering space, and contribute to the overall mental and physical well-being and the quality of life for residents and visitors. Based on that feedback, we've created short-term. mid-term, and long-term goals and suggested implementation activities to achieve such goals.

By identifying opportunities to improve accessibility, respond to trends, and plan for future land acquisition, the District is staying focused on the evolving needs of our community. The District will continue to assess the physical, natural, and social setting prior to the development or restoration of new lands or facilities. These strategies support our vision for consistent, connected, and healthy public spaces for all. Ongoing reviews of park amenities, operations, outreach, and management help us stay on track and deliver a top-tier park system. On-going strategies that have been identified include:

 Support and maintain existing parks and preserves; acquire additional lands for preservation of natural resources

- Provide access to preserved natural areas, and recreational and educational opportunities
- Continue marketing and outreach to maximize awareness and usage of District's parks and facilities
- Be fiscally responsible; monitor parks and land management trends to address cost effective and sustainable management of the District's park system

The Rock Island County Forest Preserve District Master Plan outlines strategies, defined as projects, actions, or purchases that may occur in the next five years. The recommended strategies are categorized by the plan's policies, and include the roles of the key contacts to further the progression and the proposed implementation activity.

This Master Plan is designed to be flexible and evolving. Annual review of the plan goals, objectives, and polices are recommended for the District staff. This annual review will determine whether the course of action to implement strategies outlined in this plan continue to be supported or should be revised to address changing needs and priorities. The annual review should also consider the public's feedback and the plan policies including system, parks and facilities, programs, and land policies.

Purpose

Any forest preserve district organized under the Downstate Forest Preserve Act shall have the power to create forest preserves, and for that purpose shall have the power to acquire in the manner hereinafter provided, and hold lands containing one or more natural forests or parts thereof or land or lands connecting such forests or parts thereof, or lands capable of being forested, or capable of being restored to a natural condition, for the purpose of protecting and preserving the flora, fauna, and scenic beauties within such district, and to restore, restock, protect and preserve the natural forests and such lands together with their flora and fauna. as nearly as may be, in their natural state and condition, for the purpose of the education, pleasure, and recreation of the public.

Mission

The mission of the Rock Island County Forest Preserve District is to maintain and acquire lands with the intent to restore and conserve such lands for the purpose of preservation, education, and recreation for its residents with fiscal responsibility.

Vision

The vision of the Forest Preserve District of Rock Island County is to be a leader in natural resource management that connects nature and wildlife with people through recreation and education. Evidence of this vision will include:

- People and nature are united with quality amenities and experiences.
- Rock Island County will be a resilient landscape with restored and preserved natural areas.
- The Forest Preserve District leads Rock Island County in protecting, conserving, and enhancing the natural landscape.

5

2 Background and Items Considered

Background

In 1940, Arthur Wood, the president of the Moline Conservation Club, requested the establishment of a Rock Island County Forest Preserve Commission. The goal of the Commission was to obtain lands that the Forest Preserve would manage and maintain in their natural state. The proposal was passed in 1941 through a referendum vote.

Today, the Rock Island County Forest Preserve Commission is the governing body of the Rock Island County Forest Preserve District and oversees seven forest preserve areas totaling 2.659 acres. The Rock Island County Forest Preserve Commission consists of 19 members elected to the County Board. It's the responsibility of the Commission to oversee and approve all rules, policies, budgets, and procedures presented by the Forest Preserve Executive Committee. Every four years, one-half of the Commission seats are up for election. The Commissioners elect a Forest Preserve Commission President every two years and have traditionally appointed the County Clerk, Treasurer, and Auditor as the Commission's Secretary, Treasurer, and Auditor, respectively. The board selects a nonelected professional to serve as Director of the District. The District Director acts as the chief operating officer of the District, oversees all the Rock Island **County Forest Preserve District** operations, and is responsible for all administrative functions of the District,

including employment, budget administration, and implementation of board policies, actions and/or decisions.

It's the responsibility of the Forest Preserve Commission President to appoint up to 7 members to the Forest Preserve Executive Committee from the other 18 remaining members of the Forest Preserve Commission. The Forest Preserve Commission President is also the chairman of the Forest Preserve Executive Committee. The Forest Preserve Executive Committee is in charge of setting all rules, policies, budgets, and procedures that are then presented to the Forest Preserve Commission. The Forest Preserve Executive Committee meets once a month with the Forest Preserve District Director and the superintendents of each forest preserve.

The Forest Preserve Commission meets the third Tuesday of each month following the regularly scheduled meeting of the Rock Island County Board. The Forest Preserve Committee presents to the Commission the business of the District that requires the Commission's approval. The Commissioners are responsible for voting on all Forest Preserve statutory issues, and the actions of the Commission are considered final.

The District is primarily financed through direct property taxation and fees from facility usage. The Forest Preserve District Director and the superintendents of each forest preserve facility discuss and determine the fiscal budget. Each

7

initial fiscal year budget is reviewed by the Forest Preserve Executive Committee, and upon its approval is presented to the Forest Preserve Commission for approval.

The Forest Preserve employs 37 fulltime employees and over 100 temporary employees traditionally employed to assist during the summer season when facility usage is at its greatest. The temporary employees work under the supervision of the District's full-time employees performing a variety of tasks.

Coverage Area

This plan covers the geographic area of the County of Rock Island, Illinois, as the boundaries of Rock Island County and the Rock Island County Forest Preserve District are coterminous, but more specifically, the approximately 2,659 acres of land are under the stewardship of the Rock Island County Forest Preserve District. More information and history about each of the six preserves and the District as a whole is in the Forest Preserves section of this document.

Items Considered

Recreation Trends/Level of Service

The level of service, based on professional planning and recreation associations, will require the Rock Island County Forest Preserve District to be proactive in order to maintain a professionally recognized standard level of service. Currently, the District alone provides 18.6 open space acres per 1,000 population, which does not include space provided by municipalities in the county, while the 2024 National Recreation and Park Association Performance benchmarks report the average for all park agencies is 10.8 acres per 1,000 population. In addition, the District has 4.0 full-time employees (FTE) per 10,000 population, which compares to 7.9 FTE's for all park agencies.

Changes in land management practices and a population seeking native natural areas for leisure outdoor recreational and educational experiences will only increase the interest for additional outdoor opportunities. Some of the trends that affect these considerations are:

- Interest in increasing RV camping amenities
- Increasing trail usage of all types
 paved, unpaved, natural, etc.
- Increasing use of green technologies
- National and social push to be outdoors and move more – unplug
- Increasing emphasis in sustainability and momentum to restore and preserve native landscapes
- Changes in weather patterns and impact on property maintenance and their use – example, cooling stations may be needed in the hot summers
- Generational difference between millennials, baby boomers, etc. are shifting interests
- Increasing need to collaborate due to tight budgets
- Conservation of natural resources for flora and fauna preservation

 Decreasing funding support from federal and state sources requiring the need to develop new funding strategies

Special-use areas should be expandable and meet new and/or developing park and recreation trends. Public participation should be invited and encouraged during the planning and implementation of projects and/or activities affecting the District. Awareness of existing and changing land-use patterns, zoning classifications, and proposed annexation areas will ensure adequate open space recreation land is retained and sensitive natural areas are protected and preserved to meet the needs of the prospective beneficiaries.

The 2023 National Recreation and Park Association Engagement with Parks Report referenced that parks provide a wide range of opportunities and noted parks and open spaces play a key role in healthy ecosystems. Studies on leisure time activities indicate there is a correlation between the amount of disposable income and level of educational attainment. This determination corresponds with a growing demand for leisure-oriented provisions and accommodations.

Considering median age, age distribution, income, and educational attainment, it is expected high-quality recreational opportunities will be needed to meet the demands of all age groups in Rock Island County. Rock Island County's population is projected to remain steady and older, with a median age around 40. This projected population data coupled with the increasing demand for leisure time options should encourage the District to consider possibilities to enhance recreational opportunities for all ages at their facilities. In addressing these enhancements, the District may consider incorporating Illinois Association of Park District (IAPD) accreditation standards throughout where applicable and shall also consider the needs the citizens provided in the latest data collection as the plan considerations in addition to stakeholder and staff input.

Physical Development Trends

According to Historic Rock Island County (published by Kramer & Company in 1908), the land along the Rock River had not been surveyed and was not open to settlement. However, squatters began to live on the land occupied by Native Americans. Rock Island County was formed in 1831, which was named after an island in the Mississippi River, and townships were formed in 1857. Most municipalities in Rock Island County have long histories, many dating to the 19th Century. The landscape has been altered with varied construction and development efforts for many years. A wide variety of buildings and facilities are found in Rock Island County, with the heaviest concentration in the Quad Cities metropolitan area. This urbanization has adversely affected the amount of open space available for outdoor recreation.

In 2020, the Trust for Public Land noted the outdoors connect people to nature and to one another and listed five reasons to support parks:

 Parks help us stay active because research shows that the more parks there are in a

9

community, the more people exercise.

- 2. Parks benefit our mental health, as studies show that nature can reduce stress and promote relaxation.
- 3. Parks protect us from severe weather because climate change means higher sea levels and more powerful, more frequent storms and natural areas can slow and absorb some of these impacts.
- 4. Parks keep our neighborhoods cooler since data scientists discovered that neighborhoods with a park nearby are up to 6 degrees cooler than those that *don't have a park within a half*mile.
- Parks are pandemic lifelines. COVID-19 shrunk our world and the outdoors became an essential part of how we coped. ¹

Land use defines where people live and where they work or play. Rock Island County is an urban county and encourages development to be located within existing municipalities to preserve prime farmland and environmentallysensitive areas as part of its land development plans. Land use patterns have important influences on access to recreation and open space. With the river valleys and bluffs, there are many areas with significant slope where erosion and runoff may be an issue in the county. These areas offer opportunities for open space conservation. Some locations represent areas with a greater density or

concentration of urban activity with residential, commercial, industrial, and institutional uses that emphasize the need for neighboring active and passive recreation activities. Our team at the Rock Island County Forest Preserve District assists in addressing these land development needs.

Priorities and Guiding Principles

Preservation and Maintenance: Preserve the Natural Flora and Fauna and Maintain Existing Facilities and Amenities

The highest priority is to preserve and maintain the existing resources of the forest preserve District. Protection and management of the flora and fauna is the primary objective of the forest preserve staff. Upkeep of the existing lands, facilities, and amenities must also include recognition of the needs and expectations of county residents and users of the parks. Input from the public meetings emphasized the importance of preservation and maintenance of the natural attributes within the preserves.

Finance and Land Management: Enhance Financial Stability and Resources to Support Quality Facilities and Services

Our team at the Rock Island County Forest Preserve District faces some financial constraints leading to a disincentive for further land acquisition, improvements to existing facilities, and adding or continuing programs.

¹ Source: The Trust for Public Land "Five Reasons to United for Parks," September 21, 2020

Currently, the District has 40.0 percent of expenditure through revenues not including taxes, while the 2024 National Recreation and Park Association Performance (NRPA) benchmark reports the average for all parks is 28 percent. In addition, it is reported that average operating expenditures per acre for all parks is \$8,499, while the District is \$2,698 per acre. The capital budget for the District for the next five years is \$3,750,000, excluding bonds, while the NRPA reports the average for all parks is \$10,000,000.

The District might consider the following initiatives and funding avenues in order to alleviate financial burdens:

- Increase community awareness of problems and priorities
- Research alternative funding options, such as grants, donations, in-kind contributions, endowments, hard/soft matching funds, et al
- Increase involvement in joint purchasing with other jurisdictions in the Bi-State Region for equipment, supplies, maintenance items and amenities
- Utilize volunteer organizations
- Establish ambassador programs, such as Friends of Foundations/Societies for fundraising
- Promote available rental facilities for gatherings and receptions
- Consider staffing for grant research and activity/events programming

- Evaluate current fee structure and identify areas where increases can be justified or added fees might be warranted
- Discuss tax levy increases or special bond referendums to fund needed expenses or generate sufficient revenue

In weighing the consideration of acquisition and improvements to the **Rock Island County Forest Preserve** District, the 2023 National Recreation and Park Association Economic Impact of Parks referenced that parks have economic values, such as increased property values related to proximity to parks, and that park and recreation lands and facilities generate indirect revenues through a multiplier effect. Further, the forest preserve districts and conservation districts in northeastern Illinois report on meeting the challenges in the 21st Century (a two-year study of the forest preserve and conservation districts in northeastern Illinois) noted districts should explore opportunities to diversify their revenue sources, including pursuing grant opportunities and collaborating with other organizations. The report also recommended districts should also advocate for the continuation of state and federal programs.

Some other key issues addressed within the report are pertinent to the Rock Island County Forest Preserve District, as follows:

 To have the funds needed for preservation, restoration, and other important activities, land preservation districts need to advocate for increased state and federal funding. This involves educating voters and elected officials about the important role districts play and the need to supplement local property tax revenues.

- To ensure that district land remains available for the public, forest preserve and conservation districts must prevent encroachments and refuse to sell district land.
- Whether a forest preserve district or conservation district is well governed depends on a number of factors: the relationship of the district board to the county board, the interests and abilities of the members of the district board, the professionalism of staff, and the transparency of the decisionmaking process. The boards of forest preserve and conservation districts must focus on setting policy and let the staff manage the districts operations.

The report also stated adequate safety within forest preserves and conservation areas is best achieved with law enforcement officers that are part of the district staff due to the unique types of violations, customer service needs, and policing methods.

<u>Riverfront and Waterway Protection</u> <u>and Access: Preserve Natural</u> <u>Riverfront and Waterway Resources</u> <u>while Maintaining Access for Citizens</u>

The Rock Island County Forest Preserve District realizes the greatest resources the community has are its waterways. The Mississippi River and Rock River provide and continually afford new opportunities to enhance the natural recreation and education opportunities in Rock Island County. The District needs to view these and other natural areas as societal benefits rather than budgetary burdens and make a concerted effort to raise awareness encouraging appropriate riverfront and waterway uses. Development within or near the riverfronts should highlight and not diminish access to residents and visitors, while enhancing the natural beauty of these waterways. Conservation of natural areas by promoting proper management and maintenance of the flora and fauna was an important item identified through the public input processes.

<u>Compliance with the "Accessibility</u> <u>Code (IAC) and "Americans with</u> <u>Disabilities Act" (ADA)</u>

Every reasonable effort to bring the existing facilities into compliance with the Illinois Accessibility Code (IAC) and the Americans with Disabilities Act (ADA) will be made. All new facilities must be constructed in accordance with IAC requirements. The Illinois Accessibility Code (IAC) is intended to resolve areas of difference between those federal standards of ADA and the former Illinois accessibility standards, applicable to buildings and facilities in the State of Illinois covered by the Illinois Environmental Barriers Act (EBA). The drafters of the IAC compared and adopted the stricter of the former state or federal accessible design standards. The Rock Island **County Forest Preserve District is** committed to making every reasonable effort to ensure that its parks and facilities can be used and enjoyed by
everyone. In 2012, an access audit of the entire District was performed. District staff is in the process of implementing the recommendations and addressing access deficiencies as funding becomes available. A summary of the access audit can be found in the Appendix.

District-Wide Goals – Background

The Rock Island County Forest Preserve Plan is founded on goals and objectives that provide the framework for decision-making and investment in the District's facilities. The goals identified herein were established through extensive on-site inventories and evaluation of existing amenities; discussions with District officials, administrators, facility directors, and staff; public input; analysis of existing plans; consideration of national, state, and regional trends and standards; and recognition of the primary objectives and the mission statement of the Rock Island County Forest Preserve District.

History of the Forest Preserve

The first meeting of the Forest Preserve Commission was held on December 15, 1942 in the Rock Island County, IL Courthouse. The thirty-eight (38) member commission selected its first officers, and Commissioner Louis C. Schafer was named the first President of the Forest Preserve Commission. County Clerk, Samuel H. Mullinix, was named Secretary, and Commissioner William A. Klingebiel was named Treasurer. Assistant States Attorney, Lawrence L. Phares, was made legal advisor. A committee of three commissioners was appointed to draft the first ordinances of the District that

were approved at the next meeting on record, February 9, 1943. The ordinances pertained to the officers & duties of the District and initially the Chairman of the County Board of Supervisors acted as the President of the Commission.

The first funding appropriation ordinance was approved on February 15, 1943 with a total operations budget of \$35,000, of which \$25,000 was appropriated for the purchase of land.

On August 10, 1943, a Land Committee was appointed by the president and approved by the board. The committee began to recommend land purchases to the board for much of the Forest Preserve that exists today. Further detail is found in the developmental history of each preserve. Once the Forest Preserve District had begun acquiring property, the board adopted its first set of ordinances pertaining to general rules and regulations on July 7, 1944.

On April 22, 1947, the District hired Ottar G. Bloomquist as the first Superintendent of the Rock Island County Forest Preserve District for an annual salary of \$4,500. At the November 11, 1947 meeting, the board adopted a motion to have rangers as custodians of the preserves. On May 11, 1948, the District began renting office space at 125-18th Street in Rock Island. Efforts to obtain space in the Rock Island County Courthouse were denied. The rent for the office space was \$25.00 per month, and Superintendent Bloomquist was allowed to hire a stenographer for \$10.00 per month.

On August 13, 1946, an engineering proposal by Carter Jenkins of Jenkins, Merchant & Nankivil for improvements to Blackhawk Hills, Otlman property, Dorrance Park, and Searle Ranch property was considered. These proposals were the first master plans for each park site. Mr. Jenkins also recommended the Board put forth a naming contest for the properties of the District, and on December 10, 1946, the board approved this concept. During the February 10, 1948 meeting of the board, the board adopted the preserve naming contest procedures and put forth a prize of \$15.00 to be awarded to each winner. The contest was to be held April 1-15, and the winner was to be determined by a committee of Rock Island County residents. The Blackhawk Hills tract. or Blackhawk Preserve as it was called, was named Indian Bluff, and the naming winner was Bob Van DeMaele. The Searle Ranch tract was to be named Loud Thunder, and the naming winner was Thomas W. Rogers. Lastly, Katherine Walther was the naming winner for the Oltman property for her submission of Illiniwek. Because it was not noted in the naming contest, it may be assumed the District preferred to keep the Dorrance Park name.

District-Wide Goals

- Support and maintain existing parks and preserves, and acquire additional lands for preservation of natural resources
 - Identify and preserve or restore natural areas, such as wetlands, prairies, and significant tree stands that provide habitat for native wildlife

- Limit local and regional environmental effects through sustainable practices
- Develop an invasive species management program
- Develop a greenhouse and/or nursery to serve the entire District for restoration and beautification purposes
- Monitor the ecological health of the preserves related to invasive species, disease, environmental effects, erosion, and water quality
- Increase awareness and understanding of the District's purpose and mission through usage of the District's parks, programs, and facilities
- Enhance branding, marketing and promotion of the amenities available at the forest preserves through various medias
- Create educational materials for display on websites or distribution at District parks and facilities
- Install interpretive signage about the varied species of flora and fauna throughout trail systems and restoration areas, and increase the use of QR codes
- Develop formalized user groups for each park
- Hold seasonal or annual events that create publicity for first-time visitors
- Use social media to reach the general public, and for more audience targeting

- Hire a full-time employee to develop and manage an education and volunteer program, special events, and grant writing
- Provide access to preserved natural areas and recreational and educational opportunities
 - Offer programs, activities, and amenities according to the needs and wants of the residents of Rock Island County
 - Be accessible to all residents of Rock Island County
 - Provide recreation opportunities for all seasons
- Be fiscally responsible and monitor parks and land management trends to address cost effective and sustainable management of the District's park system
 - Pursue partnering opportunities with community businesses and organizations
 - Stay current on possible grant opportunities available for the District
 - Research possible crosspromotional opportunities with other county forest preserve or conservation districts and state or federal agencies
 - Create a Friends of the Forest Preserve 501(c) and/or an endowment
 - Consider fee increases carefully and what the market will bear, including differential user fees for

visitors from outside the county/region

- Market to outside metropolitan areas where fees are significantly higher or lack services offered
- Consider off-season fund raising opportunities
- Implement best operational, management, and governance practices
 - Review the District's master plan annually and update the plan every five years
 - Implement Illinois Association of Park District's accreditation standards for the Forest Preserve and Conservation Districts and attain other institutional accreditations for Niabi Zoo and Indian Bluff Golf Course
 - Increase staff and board involvement and development through active participation in state and national organizations
 - Monitor and assess the current conditions, trends, and open space needs within Rock Island County on an annual basis
 - Review annually the District's liabilities and risk management program –consider hiring a Human Resource professional to manage the needs of the District in this area
 - Keep current on advancing technologies and implement in appropriate facilities such as computerized maintenance management system

Community Engagement

A variety of methods were used to collect input from the public. As a public entity, the Rock Island County Forest Preserve District understands the importance of public guidance in the planning process. The needs and issues gathered from the public participation process have been considered in the development of the goals and objectives of the plan, and summaries of input are included in the appendix.

Public Meetings and Feedback

An initial meeting was held with the Executive Committee to refine the purpose and mission statement of the Forest Preserve District. Two public input meetings were held to allow the public to discuss the strengths, needs, and suggestions for each of the forest preserves. The first meeting was held on April 30, 2024 at Indian Bluff Golf Course, and the second meeting was held on May 14, 2024 at Niabi Zoo. The public was given an opportunity to provide comments and/or suggestions on any of the services and operations of the District. In addition to the two general public input meetings, one strategic planning meeting was held with District management team.

<u>Community Input</u>

In fall 2023, public perception research was conducted for the Rock Island County Forest Preserve District by Mindfire Communications. Focus group meetings were held with stakeholder groups including golf course users and conservation organizations, such as Living Lands and Waters, the U.S. Fish and Wildlife Service, and Soil and Water Conservation. A sample of 1,950 residents and non-residents completed the survey in hard copy or electronically. Questions about the demographics of the survey respondent in addition to detailed questions about the perception of the various forest preserves were included. Questions were also asked about how frequently the park is visited by the respondent, and what, if any, improvements he or she would like to see.

The results provide detailed insight into which parks are the most or least well known and used, and also gave some guidance on how resources should be allocated in the future at each individual park. The survey and results can be seen on the forest preserve website, www.ricfpd.org. Unique and varied landscapes make Rock Island County an ideal setting for parks, open space, recreation facilities, and conservation areas. Rock Island County is bordered by the Mississippi River to the west, Whiteside County to the north, Henry County to the east, and Mercer County to the south. Rock Island County is both urban and rural, containing the Illinois Quad Cities. The county's location along the Mississippi River affords many scenic natural areas, which the county has recognized in its forest preserves.

Climate

Rock Island County sits in a temperate continental climate zone. It experiences vast temperature changes throughout the year. Summers tend to be hot and humid, especially in July and August. The average summer temperatures are 73.7°F. The winters are cold with occasional severe weather mainly occurring in December, January, and February. The average winter temperature is around 26.6°F, and the average annual snowfall is around 36.1 inches. Rainfall averages 38.27" per year, with 65% of it falling during the months of April through September. The growing season is 170 days between approximately April 29 and October 24.

Rock Island County's climate allows for an assortment of recreational opportunities throughout the year. The Rock Island County Forest Preserves can be utilized the entire year. However, some of the amenities or facilities are only open and available on a seasonal basis due to infrastructure and operational limitations.

Topography

Three major glacial advances and retreats created the topography of Rock Island County. The Kansas and the Illinoisan glaciations covered the entire county, while the Iowan glaciations covered the northern townships. The oldest glaciations are collectively termed Pre-Illinoisan. The Illinoisan glacier in the eastern portion of Illinois followed the Pre-Illinoisan, while the Iowan glacier covered the northern townships. The native rock material of the county is buried under glacial drift and varying depths of loess left by the retreating glaciers.

Key contributors to the landscape in Rock Island County are the Mississippi River and the Rock River. In pre-glacial time, the Mississippi River followed its current course until reaching the present day northern tip of Rock Island County, Illinois, where the River turned to the east following the Meredosia channel and eventually entered the present Illinois River valley near Hennepin, Illinois. This course was altered to its existing passage through the Quad Cities in an east-west direction when a westward moving ice lobe blocked the eastern flow of the Mississippi River. (The Quad Cities is the only major metropolitan area, among the ten states through which the Mississippi courses

where the river flows in an east-west direction.) Over the past 10,000 to 15,000 years, the present channel has deepened and narrowed forming the distinct bluffs and lowlands found in the areas bordering the Mississippi River.

The remainder of Rock Island County is level to gently rolling, with stream valleys becoming deeper and the slopes increasingly pronounced as the valleys approach the Mississippi and Rock Rivers. Another notable feature in the landscape is the drainage network. The vast majority of streams and creeks flow into the Rock and Mississippi Rivers.

The rivers provide many recreational opportunities: two of the forest preserves, Illiniwek and Loud Thunder, both sit adjacent to the Mississippi River.

Geology

During in the Devonian Period of the Paleozoic Era, which was around 300 million years ago, a shallow sea covered Rock Island County. The sea was inhabited by invertebrates and fish species. Decomposed shells and bones along with successive layers of sediment formed the current bedrock of the area, Devonian Limestone. Approximately 280 million years ago, during the Pennsylvanian Period, prehistoric trees and ferns thrived in the large swamp that covered the area. As the plants died, they mixed with clays and sands. Over time, the clay was changed into shale, and the vegetation and sand formed coal. There are large coal seams, which underlie much of the Rock Island County area still today.

Soils

Soils across Rock Island County are mainly loess from past glacial deposits. Loess covers most of the county and is the main component of the upland topsoil that is found today. The soils found in the Mississippi and Rock River valleys are alluvial soils, which form from river sediment deposits. The alluvial, or water deposited soils, though subject to periodic flooding are very fertile, and if properly drained, can produce high crop yields.

Most soils found at the forest preserves consist mainly of silty or sandy loams and some clay. Surface and subsurface characteristics vary considerably by slope, area, and other factors.

The soils found in the five forest preserves are as follows:

Dorrance Park

Fayette silt loam; Hickory-Sylvan silt loam; Orion silt loam; Orthents loam; and Sylvan silt loam

Illiniwek

Coyne fine sandy loam; Fayette silt loam; Hickory-Sylvan silt loam; Joslin silt loam; Martinsville clay loam; Moline silty clay; Niota silt loam; Raddle silt loam; and Saude loam

Indian Bluff

Atterberry silt loam; Fayette silt loam; Greenbush silt loam; Hickory-Sylvan silt loam; Rozetta silt loam; Sylvan silty clay loam; and Sylvan silt loam

Loud Thunder/Martin Conservation

Area

Fayette silt loam; Hickory-Sylvan-Fayette silt loam; Hickory-Sylvan silt loam; Marseilles-Hickory silt loam; Oakville-Tell Complex; Orion silt loam; Rozetta silt loam; Stronghurst silt loam; and Sylvan silt loam

Niabi Zoo

Fayette silt loam; Hickory-Sylvan-Fayette silt loam; Marseilles-Hickory silt loam; Orion silt loam; Radford silt loam; Rozetta silt loam; and Sylvan silt loam

Amôwa

Fayette silt loam; Hickory-Sylvan silt loam; Orthents loam; Rozetta silt loam; Sylvan-Bold silt loam; Sylvan silt loam; Sylvan silty clay loam

Flora & Fauna

There are a variety of ecosystems throughout Rock Island County, including forest, wetlands, streams and rivers, but very little prairie or savannahs. The majority of the vegetation is in the form of agriculture. The main crops grown in the area are corn and soybeans. Rock Island County's natural vegetation consists mainly of deciduous trees and various bushes and grasses. Many varieties of trees are found in Rock Island County, such as walnut, hickory, birch, various oaks, elms, aspen, willow, mulberry, and sumac.

The wildlife found in Rock Island County is common throughout the state of Illinois. The animals found include furbearers like the mink, muskrat, raccoon, fox, beaver, and skunk. The only "big game" animal prominent in Rock Island County is the White-tailed deer. There are also bobcats, coyotes and fox. Other common animals found are rabbits, squirrels, opossums, and a variety of vermin (mice, rats, etc.); reptiles (snakes, turtles, frogs, and lizards); and crustaceans (crabs, clams, etc.).

Wide arrays of fish are found in Rock Island County waters; species include largemouth, smallmouth, white and other types of bass; many varieties of catfish, walleye and carp; saugers, northern pike, perch, bluegills, crappies, sturgeon, suckers, buffalo (sheepshead), and bullheads.

There are a wide variety of birds found throughout Rock Island County. There are common songbirds, such as the northern cardinal, American robin, redwinged black bird, and song sparrow. Other species of birds include quail, ring-necked pheasants, North American kestrel, great horned owl, barred owl, red-tailed hawks, bald eagles, green heron, great blue heron, and pelicans.

Rock Island County is located on a waterfowl migration route known as the Mississippi flyway. This brings many varieties of ducks and geese into the area. The Mississippi River and the backwaters provide waterfowl with important shelter, protection, and food resources during their migration. The Mississippi River in Rock Island County is an excellent place to view American Bald Eagles. The eagles use the river as a winter-feeding area and breeding ground. The best time to view them is in January and February where they fish in the unfrozen waters just below both locks & dams.

The American Bald Eagle remains a federally protected species through the Bald Eagle Protection Act, which prohibits the take, transport, sale, barter, trade, import, export, and possession of eagles. Other species that are protected by the Endangered Species Act in the area are the Indiana bat (endangered), Higgins eye pearlymussel (endangered), sheepnose mussel (endangered), the spectaclecase mussel (endangered), and the Rusty Patched Bumble Bee (endangered).

Even as outdoor space becomes more limited, the demand for desirable recreation areas and opportunities is on the rise. Rock Island County's varied terrain and vegetation provide interesting areas for diverse educational and recreational use with minimal impact to the existing natural features. To get a better sense of the species found in each of the forest preserves, the District has begun to collect information from partners. An avian biodiversity survey was performed by U.S. Fish and Wildlife Service, Augustana College, BioEco Research and Monitoring Center, and the U.S. Army Corps of Engineers in 2017. The results are in the Appendix of this master plan. Another biodiversity inventory was performed in Summer 2024 for the Amôwa Forest Preserve District by the Bi-State Conservation Action Network. Over 889 species were found in the preserve. The District will continue biodiversity inventorying and working with these and other agencies to develop similar surveys for all the forest preserves.

Smart planning needs to consider habitats of endangered or threatened species, erosive and unsuitable soils, and possible disruption to any ecosystems. Because some endangered species have disappeared or are at risk from the county, efforts to restore and/or reconstruct habitat for future propagation or relocation of these species should be considered. Making full use of the District's geography of the Rock Island County Forest Preserve District's existing and potential new recreational areas will offer opportunities to expand habitats.

4 Demographics

This section includes information on population, gender, race, age, employment, income, education, and household characteristics. Much of the data from this chapter comes from the U.S. Census Bureau and their American Community Survey (ACS) estimates, with sources noted for each graphic. Historical data is included to show Rock Island County's progression over time, as well as provide some comparisons to the municipalities within the county. Getting a clearer picture of the county's demographics helps in planning for future needs and can help guide future development.

Population Trends

As reported by the U.S. Census Bureau, The population was 141,236 as of 2023. The county grew rapidly until 1970, when it reached a peak population of 166,734. Since 1990, the population has decreased by 4,051 at the last Decennial Census count of 144,672 in 2020. Figure 1 shows the Decennial Census population counts from 1940 to 2020, available population estimates from the Census for the years 2021 to 2023, and projections from Woods & Poole Economics to 2060.

Source: U.S. Census Bureau, – Decennial Census, 1940-2020. U.S. Census Bureau, Population Trends Division, Annual Estimates of the Resident Population Trends, 2023. Woods & Poole Economics, 2023.

081

There are 15 incorporated municipalities within Rock Island County, as well as two Census-designated places (CDPs). The City of Moline is the largest and makes up 29.7% of the total county's population. Table 1 shows the comparison of all the municipalities and CDPs within Rock Island County.

	2010	2020
Rock Island County	147,546	144,672
Andalusia	1,178	1,184
Carbon Cliff	2,134	1,846

Age and Gender Breakdown

The median age is a statistic that can be used to gauge the overall age of the population. The higher the median age the older a population, and conversely the lower the median age the younger the population. Rock Island County has a maturing population. The median age rose from 40.0 in 2017 to 40.2 in 2022.

Like many places across the country, Rock Island County has nearly equal amounts of males and females. According to the U.S. Census Bureau's 2022 ACS data, Rock Island County had 49.6% males and 50.4% females. Figure 2 shows the population by age distribution in 2022 and the projections for how this could change by 2060. These 2060 projections indicate an aging population, with the population 65 years and over projected to increase 5.2% and the population 85 years and over projected to increase 62.1%. Rock Island County Population Trends by Age Distribution.

Figure 2 – Population Trends by Age Distribution

Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2018-2022. Woods & Poole Economics, 2023.

Race & Ethnicity

Rock Island County's population as of 2022 shows that 75.0% of the population is identified as white alone. The most common single racial minority in Rock Island County are persons of Black or African American (10.7%), followed by Two or More Races (7.0%). Figure 3 shows race by category.

Hispanic or Latino ethnicity can be associated with any race. In 2022, 13.5% of Rock Island County's population identified themselves as Hispanic or Latino (of any race).

Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2018-2022.

Workforce and Jobs

In 2022, Rock Island County's civilian labor force was 71,306 people. Rock Island County's workers are employed in a variety of industry sectors. An industry sector is any grouping of private, non-profit, or government establishments that have some type of commonality. The most common industry sector noted in 2022 was Educational Attainment, Health and Social Services, which employs 20.6% of the labor force, followed by Manufacturing, which employs 15.9%. Table 2 shows employment of Rock Island County residents for all industries.

Table 2 –	Employment by Industry
-----------	-------------------------------

Agriculture, forestry, fishing and hunting, and mining	1.3%
Construction	6.2%
Manufacturing	15.9%
Wholesale trade	2.3%
Retail trade	12.0%
Transportation and warehousing, and utilities	7.3%
Information	1.3%
Finance and insurance, and real estate and rental and leasing	6.3%
Professional, scientific, and management, and administrative & waste management services	8.3%
Educational services, and health care and social assistance	20.6%
Arts, entertainment, and recreation, and accommodation and food services	9.3%
Other services, except public administration	
Public administration	5.3%

Income Snapshot

Median household income is a standard measure of prosperity of a community. Rock Island County's median household income was \$51,426 in 2017. By 2022, the median household income rose to \$64,435. When adjusted for inflation, Rock Island County's 2017 median household income figure rises to \$59,539 in 2022 dollars. Therefore, the estimated relative value of Rock Island County's median household income, when adjusted for inflation increased 8.2% from 2017 to 2022. (Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2013-2017 and 2018-2022.)

Educational Attainment

The United States is becoming a more highly educated society. In the United States as of 2022, 89.1% of Americans had a high school diploma or higher, and 34.3% had a bachelor's degree or higher. Comparatively, in 2022, 89.6% of Rock Island County's residents had a high school diploma or higher, and 24.1% of residents age 25 and older had a bachelor's degree or higher. (Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2018-2022.)

Comparison to Similar Counties

Based on Rock Island County's demographics, Champaign DeKalb, Kankakee, and Kendall Counties were selected as peers for comparison. Comparing Rock Island County with areas of a similar status summarizes how parks and recreation in Rock Island County is scoring in relation to a peer community. These communities were chosen as having similar populations, total district acreage, and similar features in their forest preserve district. Rock Island County is compared to the State of Illinois, even though there is a large size difference, as the data is normalized by population.

Rock Island County Forest Preserve District Comprehensive Park Plan

Figure 4 – Median Age

Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2013-2017 and 2018-2022.

The median age in Rock Island County increased from 40.0 years in 2017 to 40.2 in 2022. This corresponds to the regional trends of an aging population. Figure 4 illustrates the median age of all six jurisdictions.

In 2017, Rock Island County had a minority population accounting for 27.4% of residents. This ratio increased to 30.3% in 2022. Figure 5 outlines a comparison of the different jurisdictions and the State of Illinois.

Figure 5 – Percent Minority Population Trends

Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2013-2017 and 2018-2022. Note: Racial minorities and/or Hispanic or Latino ethnicity

Source: U.S. Census Bureau, American Community Survey 5-Year Estimates, 2013-2017 and 2018-2022. Note: Not adjusted for inflation.

Rock Island County's median household income increased 25.3% from \$51,426 in 2017 to \$64,435 in 2022. Comparatively, the State of Illinois's median household income only increased 28.1% from 2017 to 2022. Figure 6 compares the 2017 and 2022 median household incomes for all jurisdictions.

5 Forest Preserves

Amôwa Forest Preserve

The newest addition to the Rock Island County Forest Preserve District, is Amôwa Forest Preserve with approximately 179 acres. "Amôwa" (pronounced uh-MOE-wah) is the Sauk word for "bee." The name honors the Sauk people while also tying into the park's purpose to provide and conserve a biodiverse habitat for the region's native species, including vital pollinators. The Amôwa Forest Preserve offers protected land for visitors to explore and habitat for species that are in rapid decline due to loss of quality habitat. Quality habitat loss is a significant contributing factor for the decline of pollinators like the endangered Rusty Patched Bumblebee and vulnerable American Bumblebee.

Developmental History

The Amôwa Forest Preserve is located along Interstate 80 and Illinois 92. In the spring of 2022, the Forest Preserve District completed the final purchase of the Preserve, and the total acquisition cost was \$1,291,500. The Illinois Clean Energy Foundation and The Conservation Fund gave \$1,111,050. The District has since funded \$700,000 in parking and stormwater controls and \$50,000 in prairie reconstruction from grants from River Action and USFWS.

Goals and Objectives

- Maintain Amôwa Forest Preserve native landscape by protecting the natural resources within for the residents of Rock Island County
 - Preserve and improve the health of the existing natural habitat through the development of a forest management plan and prairie reconstruction
 - Identify future ecological issues and be proactive in the management
 - Eliminate invasive species
 - Consider a small shelter and/or nature scape play area with a portable bathroom or composting toilet
- Increase awareness of Amôwa Forest Preserve and Rock Island County's forest preserves
 - Create "Friends of Amôwa Forest Preserve" Group
 - Create promotional materials
 - Install uniform Forest Preserve identification signs

- Provide the residents of Rock Island County access to preserved natural areas and recreational opportunities at Amôwa Forest Preserve
 - Establish and maintain a natural surface nature trail system for hiking

Map 2 Amôwa Forest Preserve

Dorrance Park

Dorrance Park is located in Port Byron, IL and is the smallest of the forest preserves in Rock Island County at 79.3 acres. Dorrance provides an excellent mix of forested habitat for wildlife and traditional green space park amenities. Dorrance has three baseball diamonds and one peewee league diamond. The fields serve as home to the Upper Rock Island County Recreation Association (URICRA). The park also has a playground, picnic tables, restroom facilities, and approximately 4.5 miles of natural surface trails available for public use. Dorrance is a wonderful spot for bird watching, taking a short hike, playing on the playground, or playing ball.

Developmental History

Nathaniel Dorrance was a pioneer in Rock Island County. He was the original owner of the land and the park's namesake, and willed the property to the Port Byron Academy. Upon the dissolution of the Academy, the land went to Dorrance's heir, his grandson Clarence Stephens. Stephens donated the land to the Village of Port Byron for Port Byron High School to use as an athletic field. On January 16, 1945, the Forest Preserve Commission was informed of the potential donation of Dorrance Park by the Village and School District of Port Byron. The Commission approved the donation on April 24, 1945, and Clarence Stephens. living in Denver, supported the transfer and making this site available for a forest preserve. The final transfer was adopted on June 11, 1945.

On November 13, 1946, the Board approved a motion to purchase an

additional 9 acres of land adjacent to the Dorrance Park property in Port Byron. In addition to the land purchase, the Board adopted a bond ordinance for improvements in the amount of \$225,000. Between 1945 and 1959, amenities like comfort stations, parking areas, picnic facilities with tables and fireplaces, roads, baseball diamonds, and a water system were added to the park. In the late 1970s, lights were added to two of the three baseball diamonds.

A new water line was constructed in 2015 and the first phase of a multi-use trail with interpretative signage began. Trail construction was overseen by Friends of Off-Road Cycling (commonly called FORC). Phase one was completed with a grand opening in spring 2017, and the final phase was completed in 2018. The District and Upper Rock Island County Recreation Association (URICRA) installed a Musco lighting system in 2018 in part due to a grant from the Carver Foundation.

Goals and Objectives

- Maintain Dorrance Park native landscape by protecting the natural resources within for the residents of Rock Island County
 - Preserve and improve the health of the existing natural habitat through the forest management plan approved by the State District Forester and Commission (current plan can be found in the Appendix)
 - Identify future ecological issues and be proactive in the

management (NOTE: Timber harvest due to oak wilt occurred in 2016 with proceeds used to replant a more diverse selection of trees)

- Consider establishing wetland prairies and other land management practices to slow erosion from the small watershed within the park
- Pursue acquiring additional properties adjacent to the park
- Increase awareness of Dorrance Park and Rock Island County's forest preserves
 - Engage partners and the public with park clean-up program and educational programs
 - Promote seasonal recreational activities
- Provide the residents of Rock Island County access to

preserved natural areas and recreational opportunities

- Explore options for additional parking and infrastructure upgrades with the Village of Port Byron
- Add additional playground structures that have more aesthetic appeal to children and that are ADA accessible
- Install additional park amenities to promote day use, such as a smaller picnic shelters and playgrounds
- Construct a larger multi-purpose building for concessions, bathrooms, and storage
- Ball diamond improvements
- Evaluate drainage needs for athletic purposes on the ballfields
- Construct bleachers/seating with shade

Map 3 Dorrance Park

Illiniwek Forest Preserve

Illiniwek Forest Preserve consists of 173.6 acres in central Rock Island County.

Illiniwek boasts three quarters of a mile of Mississippi River shoreline and scenic bluffs that overlook the river. There are many recreation opportunities available at Illiniwek. There are 60 full-service camping pads with 50-amp electrical service and water hook-ups as well as primitive/tent camping sites, and all sites are provided a fire ring and picnic table. Illiniwek is open for camping from April through October, weather permitting. Shoreline fishing is another very popular activity among visitors. There is a also a playground, boat launch into the Mississippi River, a large picnic shelter for groups of 50 or less available for rental, and access to the Great River Trail.

<u>Developmental History</u>

On January 11, 1944, the Forest Preserve Board approved the purchase of the Oltman Farm at a price not to exceed \$40,000. This land was owned by Albert Oltman, known as the Oltman Tract Farm, and was a 174-acre tract of land along the Mississippi River shoreline east of Hampton, IL. The Oltman Tract was believed to be a popular place for Indian gatherings, so the Forest Preserve Commission selected the name Illiniwek from a public naming contest, which means "favorite Indian spot."

The acquisition of bonds in the amount of \$115,000 was adopted at a meeting of the Board on June 23, 1944. Negotiations to acquire the Oltman farm took several twists and turns, and during the November 11, 1944 meeting of the Board, a motion was adopted to allot the heirs of the Oltman farm three acres for \$500 an acre, which they never bought. The purchase of the Oltman farm actually occurred on September 28, 1945 for a price of \$40,000 and included the entire 173.6 acres.

In November 1946, the Rock Island **County Forest Preserve Commissioners** issued bonds for \$225,000, and Illiniwek received \$100,000 of the bonds for construction and improvements. In the late 1940s, a well and water system, roads, and parking areas were installed in the forest preserve. Throughout the 1950s, other improvements were added, and a caretaker's dwelling was constructed. Both modern and primitive camping facilities were made available to park patrons in the 1960s. A hillside scenic overlook was constructed in the 1980s, providing picturesque views of the Illiniwek preserve and Mississippi River. In the spring of 2013, the south shower facility was modified to meet current ADA standards, and then an ADA-accessible playground was constructed in 2015. Recently, 15 acres of prairie plantings were reconstructed in the open fields on the southeast side of Illinois 84 and where the two ball diamonds had been. Interpretive signage was installed throughout a designated prairie trail that connects the segmented parcels. A computerized point of sale system as well as additional upgrades were made to the camp office building in 2017. A new restroom and lift station that serves the building as well as the south shower building was constructed in 2024.

Goals and Objectives

- Maintain Illiniwek native landscape by protecting the natural resources for the residents of Rock Island County
 - Preserve and improve the health of the existing natural habitat through the forest management plan approved by the State District Forester and Commission (current plan can be found in the Appendix)
 - Identify future ecological issues and be proactive in the management
 - Add additional maintenance facility space or begin utilizing the maintenance facility currently occupied by the County Highway Department
- Increase awareness of Illiniwek and Rock Island County's forest preserves
 - Continue established park cleanup and education programs
 - Promote and encourage seasonal recreation activities

- Provide the residents of Rock Island County access to preserved natural areas and outdoor recreational opportunities
 - Continue to convert open turf areas into a biological diverse habitat
 - Construct a fishing pier
 - Develop additional parking areas and address deteriorating road conditions throughout the park
 - Utilize the sewer connect by converting the remaining septic systems to feed to the lift station, and upgrade all or a portion of the RV sites with sewer hookups
 - Construct a new multi-season picnic shelter or building on the northwest side of the park to be used as an educational station and rental opportunity
- Stay current with evolving technologies
 - Install a MOTUS station

Map 4 Illiniwek Forest Preserve

Indian Bluff Golf Course

Indian Bluff is a forest preserve and 18hole golf course situated on acres just south of the Quad Cities International Airport. The objective of Indian Bluff Golf Course is to be a public golf course of high quality with uniquely challenging golf holes for players of all abilities through exceptional care and customer service and natural recreation area featuring native habitats.

Indian Bluff recently completed building a new clubhouse in 2007 that includes pro shop sales, concessions, an ATM, club and cart rentals, and a practice green. There is also another concession stand located on the south edge of the golf course that serves hot dogs, brats, sandwiches, candy, beer, and assorted beverages during high-use periods.

The season is open from the end of March until November, and hours of operation are from 6:00 a.m. to dusk. Indian Bluff hosts several outings and leagues throughout each golf season. Indian Bluff also has a large picnic shelter available for rental in the southeastern corner of the preserve along with several acres of shaded picnic area space.

<u>Developmental History</u>

The Rock Island Forest Preserve purchased Indian Bluff in 1945 from the previous occupants, the Blackhawk Country Club. The purchase included 180 acres plus equipment. In 1964, an additional 20 acres was donated by the Parker family. The property was completely remodeled and has included many upgrades throughout the years. The most recent upgrades include a new irrigation system in 2006, new clubhouse and cart barn in 2007, and slope embankment stabilization and outfall structure modifications near hole #7 in 2011. The concession stand on the south side of the course received façade improvements and an outside water cooler in 2017. Bunker renovations began in 2015, and the director residence was demolished in 2016. An online reservation system for tee times was implemented in 2014.

Goals and Objectives

- Maintain Indian Bluff native landscape by protecting the natural resources within for the residents of Rock Island County
 - Preserve and improve the health of the existing natural habitat through a forest management plan
 - Identify future ecological issues and be proactive in the management
 - Maintain the native hill prairie near the entrance and apply for Illinois Nature Preserve status
 - Consider becoming a Certified Audubon Cooperative Sanctuary Golf Course
- Increase awareness about Indian Bluff and Rock Island County's forest preserves
 - Consider unique promotional events and alternative programs to encourage participation in the game

• Make sure residents can enjoy the natural and recreational offerings of Indian Bluff

- Make improvements to golf course
 - Reconfigure the layout of Hole #12
 - Install additional retaining wall at Hole #7
 - Level grass surface on all the tee boxes
 - Continue to support bunker renovation plan that began in 2015 and document replacements
 - Continue the cart path improvement plan that was developed in 2017 and add new paths when necessary
 - Consider developing a chip range near outing shelter
 - Install 3-hole junior golf area and/or other youth initiatives such as First Tee
 - Replace concession and restroom building on the south side of the course

- Create additional parking and resurface existing parking
- Construct inclement weather stations (gazebos or shelters) throughout the course
- "Beverage Cart" service
- Develop a site plan for the area off of Hole #2 that evaluates replacement of restroom facility near large picnic shelter pavilion or demolition of the facility and whether to construct a new picnic shelter with restrooms in close proximity to clubhouse
- Build additional storage/maintenance building
- Consider construction of a deck off the back of the clubhouse with a grill and concession service
- Stay on top of evolving technology
 - Consider a virtual reality or golf simulator to be installed within the clubhouse

Map 5 Indian Bluff Forest Preserve

Loud Thunder Forest Preserve

Loud Thunder is the largest of the Rock Island County forest preserves at 1,495.6 acres, of which approximately 61 acres is leased from the United States Corps of Engineers along the Mississippi River. Loud Thunder is situated in southwest Rock Island County off Highway 92, and portions of the preserve are adjacent to the Illowa Council's Loud Thunder Boy Scout Camp. The Illinois Great River Road National Scenic Byway winds through the picturesque landscapes of the Preserve. Loud Thunder affords many recreational opportunities including camping, hiking, boating, and fishing. The Loud Thunder Forest Preserve provides an inspirational outdoor experience while expressing the importance of maintaining the flora and fauna.

One of the main attractions at Loud Thunder is Lake George, which is a 167-acre man-made lake. The lake is stocked with many varieties of fish including; bluegill, largemouth bass, crappie, channel catfish, bullhead, and muskellunge. Gas motors are not allowed on the lake creating a peaceful environment for both boaters and fisherman. Seasonal boat rentals are available during the summer season and a small selection of refreshments are available in the park office.

Other popular activities available at Loud Thunder are hiking trails. The Hauberg Trail East Branch and West Branch combine to form over two-miles of moderate level hiking through the scenic forested areas along the river. The Sac-Fox Trail is an approximately 12-mile, continuous loop, moderate level hiking trail that winds its way throughout the Loud Thunder Forest Preserve. There are other shared-use trails located throughout the preserve for mountain bikers, horseback riders, and hikers. There are two playgrounds and two smaller sized and one large picnic shelter available for rental. In the winter, Loud Thunder offers crosscountry skiing, snowshoeing, and ice fishing on Lake George.

There are five campgrounds located in Loud Thunder. Campsite amenities vary throughout the campground type from primitive sites (mainly for tent campers) to water, electricity, and sewer hookups for RV and other camping units. All campsites are provided a fire ring and picnic table. Camping is open from April through October, weather permitting.

<u>Developmental History</u>

Loud Thunder began in 1944 with the purchase of a 1,240-acre ranch from Charles Searle. On February 8, 1944, a land ordinance was approved, and a letter from the Forest Preserve Advisory Committee (consisting of John Hauberg, Dr. Conrad Bergendoff, and Arthur W. Wood) dated February 7, 1944 recommended the purchase of the mile or so of river front adjoining and lying immediately east of the recently purchased Searle Ranch.

On March 14, 1944, the land purchase Committee approved the purchase of the Gosline, Harlbutt, and White properties with the Gosline property in an amount not to exceed \$4,500, the Harlbutt property in an amount not to exceed \$1,400, and the White property in an amount not to exceed \$10,000.

On March 8, 1948, the District adopted a lease from the Department of Army for a tract along the Mississippi River near Lock & Dam 16. Adjacent properties were later purchased creating the existing park totaling 1,482 acres. The development of the preserve started in the 1950s with the creation of campgrounds, trails, and parking lots. In 1967, the Big Branch Creek that ran through the preserve was dammed to create Lake George.

Loud Thunder offers many recreation opportunities. The maintenance of the park is important, so that visitors of the forest preserve have a pleasant experience. The upkeep of trails and well-marked signs and maps will help to keep visitors coming back. In 2012, a new ADA-accessible shower and restroom facility was constructed near the riverfront camping area. Row cropped parcels on the property were restored to native planting in 2017, mainly prairie and oak savanna. Funds were acquired to reconstruct the Sac-Fox Trail in 2017 and trail identification markers were installed. In 2016. shoreline access was provided from Lake George to picnic areas near the lake through the construction of trails. A site plan was developed for the Deer Haven picnic area in 2017. The boat rental area and concession building have been upgraded with new docks, and the service is operated out of the newly constructed park office. Pit-toilet buildings were refabricated and upgraded in 2016. The development of a new camp office in 2014 also included the establishment of online reservation for campsites.

Goals and Objectives

- Maintain Loud Thunder native landscape by protecting the natural resources for the residents of Rock Island County
 - Preserve and improve the health of the existing natural habitat through the forest management plan approved by the State District Forester and Commission (current plan can be found in the Appendix)
 - Identify future ecological issues and be proactive in the management
 - Address erosion issues surrounding Lake George, specifically at the inlet of the Big Branch Creek, which will require significant engineering and funding as well as a partnership from the Illowa Council
 - Fund maintenance plan for spillway and dam developed after the 2018/2019 modifications, upgrades, and repairs
 - Address soil conditions at the horse corral and install drainage as necessary
 - Add additional maintenance storage for vehicles and equipment
 - Construct and maintain bridges throughout the trail system where needed
 - Continue Sac-Fox and Hauberg Trail Maintenance (NOTE: Funds were acquired to renovate the

Sac-Fox trail on the south side of Loud Thunder Road in 2016)

- Increase awareness about Loud Thunder and Rock Island County's forest preserves
 - Establish partners and programs for clean-up and invasive species removal
 - Work with the Loud Thunder Boy Scout Camp and/or local groups such as the Illinois City Saddle Club, Friends of Off-Road Cycling, or the Blackhawk Hiking Club to determine responsibility for management, maintenance, and marketing of the trails at Loud Thunder

- Provide the residents of Rock Island County access to preserve natural areas and recreational opportunities
 - Develop parking lots along Loud Thunder Road and access routes/trails to Lake George
 - Renovate the Sac-Fox and Hauberg trails on the north side of Loud Thunder Road for mountain biking and hiking use only
 - Repair existing parking areas and roads
 - Pursue acquiring additional properties adjacent to the park
- Stay on top of evolving technology
 - Upgrade wireless internet service to staff and preserve in general

104

Map 6 Loud Thunder Forest Preserve

Martin Conservation Area

The Martin Conservation Area is located just west of Loud Thunder Forest Preserve. The Martin Conservation Area is part of the ecologically significant Milan Bottoms and offers many natural and cultural resources. Over 60 acres of the site were previously enrolled in the USDA Conservation Reserve Program (CRP) and managed for wildlife. While no longer in the CRP program, the District manages the site for wildlife. There are 170 acres of native woodland, including two acres of direct seeded hardwood trees. There are over 20 acres of tallgrass prairie restoration and 40 acres of cool season grass legume habitat. The diverse wildlife includes many white tail deer, turkeys, and migratory birds. The site also contains seven confirmed Indian Burial Mounds of the Middle Woodland Indians (200 B.C.-600 A.D.).

Developmental History

The Martin Conservation Area is a 253acre tract of land west of Loud Thunder Forest Preserve. Mr. Ralph Martin left the land to the Rock Island County Forest Preserve District for the use and enjoyment of local residents in 1994. Mr. Martin knew this area was not ideal for farming and valued the area for its natural beauty. He believed the property would be a great addition to Loud Thunder and the District in general.

Goals and Objectives

- Maintain Martin Conservation Area native landscape by protecting the natural resources for the residents of Rock Island County
 - Preserve and improve the health of the existing natural habitat
 - Identify future ecological issues and be proactive in the management
 - Protect Indian Mound areas
 - Eliminate invasive species of Honeysuckle & Autumn Olive
- Provide the residents of Rock Island County access to preserved natural areas and recreational opportunities at Martin Conservation Area
 - Establish and maintain a natural surface multi-use trail system circulating throughout the property in partnership with FORC or other volunteer organizations

Map 7 Martin Conservation Area

Niabi Zoo

Niabi Zoo utilizes approximately 50 acres to house an animal collection of 300 different species from all over the world. The remaining segments of land on the Niabi Zoo property is preserved in a natural state for native flora and fauna. The animal collection features giraffes, black & white colobus, gibbons, Bactrian camels, snow leopards, red wolves, amur leopard, giant tortoises, reptiles, and birds, among other of its many animal exhibits. Other amenities and attractions include an Endangered Species Carrousel; a playground; concessions; a gift shop; the Niabi Zoo Express, a train that travels the perimeter of the zoo; and the Administration Building. The classroom in the administrative building and other portions of the zoo can be rented out for birthday parties and group events. Niabi Zoo is open from April through October, with hours varying by season, and welcomes over 100,000 visitors a year.

<u>Developmental History</u>

In 1957, Gordon McLain purchased the land that is now home to Niabi Zoo for the purpose of creating a family-owned wild animal farm just outside the Village of Coal Valley. When opened to the public in 1959, McLain's Wild Animal Farm housed lions, tigers, wild birds, ducks, and several domestic farm animals. Mrs. Charles Deere Wiman purchased the Wild Animal Farm in 1962. Shortly thereafter in 1963, she deeded the 238 acres consisting of the farm and the surrounding property to the Forest Preserve District of Rock Island County. An administration building, small mammal building, feline building, 16 wild birds and ducks, and 61 wild and domestic animals were included with the original land donation.

In 1965, the zoological preserve was given the name Niabi. The word Niabi comes from the Native American language of the Osage (Wazhazhe) Nation meaning "the fawn spared by the hunter." Shortly after the District began ownership, a "Friends of Niabi Zoo" support organization was established. The "Friends of Niabi Zoo" later changed the organization's name to the Niabi Zoological Society. The Niabi Zoological Society still exists today as a non-profit organization; however, it does not have a formal relation with Niabi Zoo or the Rock Island County Forest Preserve District. Currently the zoo receives community support from the Niabi Zoo Foundation. The foundation provides funding for annual maintenance, exhibit construction, staff development, education, and conservation initiatives.

Today, the mission of Niabi Zoo is "Working today to assure a better tomorrow for all living things." The vision is: "Leading conservation action locally and globally through relationships with conservation organizations, universities, and researchers, both insitu and ex-situ." These actions will be the driving force behind Niabi Zoo's efforts: Connecting the community with animals and nature will increase awareness and appreciation for biodiversity, causing them to care about conservation issues; and Engaging educational experiences with unified conservation messaging and established action steps for individuals, families, and institutions will result in
behavior change and conservation action at home and abroad.

Over the past couple of years, the zoo has continued to transform itself under the current Zoo Director. Lee Jackson. into a science and education center. The Zoo Director and staff have been working on a short and long-range master plan with the following drivers of the plan being in no particular order: attractions are located based on best use of the site, the plan meets both the short-term and long-term needs of the Niabi Zoo, and the plan is focused on current land usage. The full Zoo Master Plan and as well as the Strategic Business Plan can be found in the Appendix of this plan.

The aesthetic modifications to existing exhibits and the zoo's landscape, infrastructure improvements, and the zoo's commitment to conservation and education have enhanced the visitor experience. Some of these improvements include creating habitats within the zoo and exhibit structures, a new format in signage throughout the zoo, an increase in educational offerings, and opportunities focused on science and conservation continue to reinforce the theme of the zoo being a science education center.

Goals and Objectives

- Maintain Niabi Zoo native landscape by protecting the natural resources for the residents of Rock Island County
 - Develop a land management or forest management plan for the natural areas of the Niabi Zoo property to combat invasive and undesirable species

- Consider LEED certifications for all new and renovated buildings structures
- Continue to partner with organizations that preserve and protect natural areas and the conservation of natural resources
- Increase awareness of Niabi Zoo
 - Continue to tell a story for the zoo and maintain a strong marketing and community presence through various medias
- Provide the residents of Rock Island County access to preserved natural areas and recreational opportunities at Niabi Zoo

Animal exhibits & renovations

- Construct new flamingo habitat
- Construct new lion habitat
- Construct new otter habitat
- Construct penguin habitat
- Construct camel habitat
- Construct or modify domesticated animal area or new winter holding areas
- Renovate red wolf exhibit
- Add air conditioning and heat to giraffe exhibit
- Renovate elk habitat
- Address koi pond
 - Landscape
 - Erosion and water quality

Rock Island County Forest Preserve District Comprehensive Park Plan

Visitor Areas/Educational Areas/ Non-Animal Exhibit Buildings/Infrastructure

- Consider the addition of indoor and outdoor viewing areas with comfort stations
- Construct new entry plaza that includes a new gift shop and concession building
- Construct new restroom facilities
- Install permanent backup power generators at buildings and exhibits
- Install additional interior lighting throughout the zoo for security, extended operational hours, and special events
- Replace, repair, or modify the zoo perimeter fencing to standards
- Construct additional buildings for storage
- Construct day-use pavilions or picnic shelters for school groups, guests, and private party rentals
- Construct an outdoor deck off the administrative building with fire pit and seating for educational programs and experiences
- Develop graphics or murals on large building spaces
- Construct a "dino dig" area or active play area
- Expand photo opportunities with particular themes
- Construct new train station

- Install additional safety around tracks
- Construct additional quarantine facilities
- Construct storage facility with loading dock for gift shop merchandise
- Install additional garage for vehicle storage
- Install supply storage area with concrete floor, dividers, roof, and heat
- Install greenhouse and grow plantings for exhibit replacement and zoo beautification
- Upgrade water system and infrastructure by considering connection to a municipal water supply
- Widen roadways and replace surface with concrete (include storm water drains)
- Increase educational and special event offerings
- Develop a nature trail within the perimeter and exterior fence
- Implement or address ADA deficiencies throughout the zoo
- Stay on top of evolving technology
 - Upgrade computer equipment with replacement plan
 - Purchase camera systems for each animal exhibit

- Install additional internet
 connections throughout the zoo
- Upgrade alarms and security devices throughout the zoo
- Be fiscally stable and provide cost-efficient benefits to the residents of Rock Island County
 - Create a development or resource plan to cultivate gifts and donations
 - Stay current on possible grant, sponsorship, and other funding opportunities
 - Develop a preventative maintenance program
 - Develop an equipment and vehicle replacement plan
 - Develop a utility plan
 - Develop a track repair and replacement plan (begin yearly cycle)
- Keep the Forest Preserve District's future planning goals up-to-date, and reevaluate Niabi

Zoo's administrative policies as needed

- Obtain and maintain zoological accreditations by implementation of modern zoological practices and philosophies
- Maintain and keep the zoo master plan current and fresh by reviewing and evaluating the plan every 5 years
- Update the Strategic Business
 Plan

Consider additional staffing

- Veterinarian
- Animal Handlers
- Key Holder/Assistant Manager position for Membership/Gift Shop/Concessions
- Maintenance Staff
- Development Coordinator Public Relations-Grant Writer
- Veterinarian Technician
- Horticulturist

Map 8 Niabi Zoological Park & Forest Preserve

Mississippi River Trail/Grand Illinois Trail

The Mississippi River Trail (MRT) is a 10-state initiative to develop a worldclass trail along both shorelines of the Mississippi River from its headwaters in Minnesota to the Gulf of Mexico in Louisiana. The leg of the trail with Rock Island County is also part of the Great River Trail (GRT) that goes from Sunset Park in Rock Island upstream to Savanna, Illinois. The GRT is designated by the National Park Service and the U.S. Department of the Interior as a National Recreation Trail. In addition, the section through Illiniwek Park is a part of the Illinois Department of Natural Resources' Grand Illinois Trail (GIT). The GIT is an approximately 500-mile loop trail across the northern part of the state connecting the Mississippi to Lake Michigan.

The Great River Trail is a continuous, hard-surfaced multipurpose trail that extends along the east banks of the Mississippi River from Rock Island to the Rock Island County-Whiteside County line. This encompasses approximately 30 miles of trail within Rock Island County. The 60-mile trail extends to Savanna, Illinois, passing through numerous riverfront communities, county and state parks, and nature preserves. The Great River Trail is widely used as an alternative transportation link and for both active and passive recreational benefits. In addition, the trail provides the community with connections to neighborhoods, commercial districts, industrial areas, and recreation areas. The trail parallels the Great River Road National Scenic Byway (Illinois 92 and Illinois 84). Development of the MRT began in the early 1990s and was completed by 2005.

The Rock Island County Forest Preserve District manages the MRT in the following locations and arrangements:

- Illiniwek Forest Preserve that is maintained entirely by the Forest Preserve District
- Under I-80 bridge that is mostly frontage road and another portion just north of Rapids City
- North of Port Byron beginning at approximately 115th Avenue North/Fairfield Road to 13th Avenue South in Cordova
- Commonwealth Edison Company easement through the nuclear power plant property from 192nd Avenue to 208th Avenue North (Note: the easement has since expired and Constellation now maintains that section)
- 222nd Avenue to Rock Island County Line

Goals and Objectives

- Maintain the MRT/GIT for the residents of Rock Island County
 - Address erosion and other maintenance issues when identified
- Increase awareness of the MRT and Rock Island County's forest preserves
 - Continue to work with community groups and other potential trail user groups for liter pick-up and cleanliness programs

- Provide the residents of Rock Island County access to preserved natural areas and recreational opportunities
 - Maintain and reconstruct the asphalt surfaces of the MRT as needed. Identify sections that are in need of resurfacing due to heaving and roots buckling the path surface, and plan for their reconstruction
- Install general amenities for trails including doggie bag stations and bike repair stations at trail heads
- Continue to mow grass and trim tree/shrub branches as needed to maintain a minimum of eight feet high clearance and four feet clearance from the edge of the bike path

Map 9 Trail Map – RICO Project Area

6 Capital Projects and Land Acquisition

Capital Projects

Since 2013, the Rock Island County Forest Preserve District has completed several capital projects. The projects were identified in the 2013 Rock Island County Forest Preserve Park Plan and funded mostly through special revenue funds, grants, and partnerships. These projects significantly upgraded the District's operations and facilities, enhanced visitor experiences, and restored natural areas.

Capital projects are defined using these criteria:

- Having a lifespan of at least 3 years
- Improving or replacing existing facilities
- Construction of new facilities
- Restoration or management of natural resources

Examples of capital projects completed are the construction of improvements at Loud Thunder Forest Preserve including a park office building, multi-use trails, a shower and restroom building, boat docks, and prairie restoration with costs totaling \$700,000. At Illiniwek Forest Preserve, the shower and restroom buildings were remodeled, and a new playground was constructed with costs totaling \$200,000.

Capital projects that upgrade, repair, or replace existing facilities will generally

have a minimal impact on operating expenses. Construction of new facilities, especially those of a large scale, will have an effect on the operating budget as they will require additional resources to maintain.

The Rock Island County Forest Preserve District continues to have undeveloped areas of its properties that have little to no public use or environmental function other than open space labeled as green space, which requires mowing. These sterile green space areas should be repurposed with the mission and goals of the District. Additionally, the District must develop and pursue acquisition of additional lands for future use and preservation. Amôwa Forest Preserve was purchased in 2022, and \$700,000 of improvements have been made since then. All current and future properties will require capital projects in order to be maintained at a high level of service, preserved in a native natural state, and made accessible to the public.

As a mission driven conservation agency, the Rock Island County Forest Preserve District is committed to environmentally-sensitive and sustainable projects. Several District projects have included environmentallysensitive components such as utilizing alternative materials, employing geothermal power, and increasing wildlife habitat. While these initiatives are commendatory, the District should

continue to explore additional sustainability opportunities.

Capital Project Planning

Planning for the construction, installation, and maintenance of large-scale capital projects typically occurs over many years. These projects generally require architectural, engineering, and other professional services.

A number of factors will be considered when the District plans for capital projects. The factors include, but may not be limited to:

- Rock Island County Forest Preserve District mission statement and goals
- Rock Island County Forest Preserve District planning documents
- Public input
- Capital project funding
- Availability of capital project grant funding
- General Fund and other fund balances of the District

Since 2006, the District has strived to provide professional services, quality amenities, and affordable fees throughout its facilities. The District must continually strive to use the best professionals and management practices to ensure the basic amenities throughout the District such as playgrounds, shower and restroom facilities, signage, visitor information kiosks, drinking water, and trails are kept at an optimal level of service. The District should continually assess the level of service, amenities, and services its facilities should be providing in order to meet the District's mission and budgetary conditions, as well as the public interest.

Capital Project Goals and Objectives

- Establish and maintain a fiveyear capital plan, and annually review and update the capital plan
- Solicit public input for capital projects
- Develop concept plans, cost estimates, and construction documents for capital projects as needed
- Develop standardized construction details for use in the District's capital projects
- Apply for and utilize grants to maximize capital project funds
- Develop individualized site plans for the preserves to guide the location of capital improvements and protection of current natural resources on District lands
- Partner with other government agencies, non-profit organizations, businesses, and the public on the acquisition of multipurpose trail corridors and the construction of such trails
- Construct, refurbish and maintain facilities to meet the requirements of the Americans with Disabilities Act
- Facilitate donations of funds, goods, services, and labor for

use with capital projects

Land Acquisition

Shortly after the Rock Island County Forest Preserve District was created in 1941, it began to acquire property throughout the county. The first initial purchases comprise a majority of the current holdings of the District today. The initial purchases of properties in 1944 included the properties that comprise Loud Thunder, Illiniwek, and **Dorrance Forest Preserves and Indian** Bluff Golf Course. The Niabi Zoological Preserve was deeded to the District in 1962. An extended gap time occurred before the next land acquisition that was the donation of the Ralph Martin Conservation Area to the District in 1994. Amôwa was the most recent purchase in 2022. A spreadsheet providing the acquisition history of the Rock Island County Forest Preserve District is in the Appendix for this plan on the Forest Preserve website.

Land Acquisition Evaluation Process

The District becomes aware of potential acquisitions in several ways:

- The District contacts a landowner directly to determine if there is interest to sell a property. If there is no interest, the District does not pursue the acquisition further.
- A landowner or real estate agent contacts the District regarding an available property.
- A resident informs the District of an available property.
- The District works with other governmental agencies, non-profits, and developers on preservation of open space.

Once a property is determined to be available, information regarding the property is gathered by staff and presented to the Forest Preserve Executive Committee. Included in this information is the land acquisition worksheet that assists the commissioners in evaluating the property based on its physical characteristics. Other factors including, but not limited to, price, threats to the property, needs of the District, and grant requirements are also considered by the Commissioners when making land acquisition decisions.

Forest Preserve Commissioners, through staff or consultants, negotiate the purchase of property. When agreements are reached with a landowner, the Forest Preserve Commission approves an Acquisition Ordinance providing the officers and staff have the authority to carry out necessary due diligence to complete the acquisition.

The District should utilize simple fee purchases for the majority of its acquisitions unless it has a partnership arrangement. Potential funding for land acquisition could come from a variety of sources including, but not limited to, open space bond referendums, state and federal grants, and the District's taxing authority.

Land Acquisition Worksheet

Decisions regarding land acquisitions are the responsibility of the Board of Commissioners of the Rock Island County Forest Preserve District. The worksheet should be used to assist the Board, along with staff recommendations and resident input, in the land acquisition decision process. Other factors including, but not limited

to, price threats to the property, needs of the District, and grant requirements should also be considered by the Commissioners when making land acquisition decisions.

An sample worksheet, such as the one below, is numerically based. For each

quality that a parcel possesses, it receives the corresponding score. A high score indicates a property that should be considered for open space preservation. The total score may be compared with scores of other parcels in order to evaluate the properties as potential forest preserves.

Preserving Natural Features:

High Quality Natural Area (prairie, wetland, woodland, stream)	12
Mississippi or Rock Riverfront	12
Linkage between Protected Open Spaces	8
Streams/Lakes/Ponds	8
Expansion of Current Forest Preserve	4
Presence of Endangered or Threatened Species	4
Significant Geologic Features	4
100 Acres or Larger	4
Subtotal	56
Recreational and Education Potential:	
Multi-Purpose Trails	12
Nature Trails	8
Water/Fishing/Canoe/Kayak Access	4
Picnic Areas/High Use Areas	4
Preserve Access/Parking	4
Subtotal	32
Complement Existing Plans:	
Illinois DNR Conservation Opportunity Area	8
Rock Island County Greenway/Watershed, Municipal Park, or Trail Plan	4
Subtotal	12
Total	100

Land Acquisition Goals & Objectives

- Apply for and utilize grants whenever possible to maximize land acquisition funds
- Create a list of high-grade priority potential acquisition sites
- Consider a future open space acquisition bond referendum
- Utilize the Rock Island County Greenway and Land Use Plan as a guide for natural areas and open space acquisitions
- Expand existing preserves, especially those with limited opportunities for expansion or those with limited access
- Create and implement land acquisition procedures to streamline the acquisition process
- Increase public awareness regarding land preservation efforts
- Create greenway corridors along

the Mississippi and Rock Rivers and the significant creeks and watersheds of Rock Island County

- Work in partnership with other governmental agencies, nonprofit organizations, and private citizens to maximize open space acquisition and preservation
- Educate landowners on benefits of land donations
- Educate landowners and attorneys on the potential benefits and values of conservation easements
- Educate landowners and attorneys on the variety of financial and estate planning techniques that can result in open space preservation
- Work in partnership with the local municipalities' planning, building, and zoning departments and developers on conservation design as a means for the preservation of open space

Grant	Source	Amount Available	Local Match	Cycle/Due Date
Boat Access Area Development Program (BAAD)	Illinois DNR	\$200,000 motorized/ \$80,000 non- motorized	Up to 100% reimbursable	Annual/September 1st
Federal Recreational Trails Program (RTP)	Illinois DNR	\$200,000	20% match	Annual/ March 1st
Illinois Bicycle Path Program	Illinois DNR	\$200,000	50% match	Annual/ March 1st
Illinois Transportation Enhancement Program (ITEP)	Illinois DOT	No set maximum	20% match/ reimbursable program	Dependent on funding availability in any given year
Off-Highway Vehicle Recreational Program (OHV)	Illinois DNR	No set maximum	Up to 100% reimbursable	Annual/March 1st
Open Space Lands Acquisition and Development Program/ Land and Water Conservation Fund (OSLAD/LWCF)	Illinois DNR	\$1,725,000 acquisition/ \$600,000 development or renovation	50% match	Annual/July 1st
Park & Recreational Facility Construction Program	Illinois DNR	No set maximum For park & recreation unit construction projects and land acquisition projects	Typically matching	Annual/January
Public Museum Capital Grant Program	Illinois DNR & Illinois State Museum	To develop or update exhibits and facilities	100% match	Annually announced
Prairie State Conservation Collation	Various	Various	Varies	Varies
Openlands	Private Foundation	Land acquisition and development, \$10,000	At least 50%	Annual/March 16th
Riverboat Development Authority	Not-for-Profit	No set maximum. Average recent round \$28,000	Yes but no set amount	Last Business Day March and September
Scott County Regional Authority	Not-for-Profit	No set maximum. Average recent round \$31,000	Yes but no set amount	Last Business Day March and September
Community Challenge	AARP	No set maximum	Yes but no set amount	Annual/Mid-May
Community Grant Program	PeopleForBikes	\$10,000	≥50%	1-2 cycles per year
Let's Play Community Construction Grant	KaBoom	\$15,000	\$24,000- \$50,000	Tri-annual/ January, May, September

TABLE OF CONTENTS

<u>JUNE, 2025</u>

COVER LETTER-FOREST PRESERVE

FP- <u>CROSS FUND REPORT</u> - CASH POSITION Includes Checkbook & Investment balances by Fund	1
FP-CROSS FUND REPORT - INTEREST RECEIVED on Investments by Fund	1

July 8, 2025

TO THE COMMISSIONERS OF THE FOREST PRESERVE DISTRICT:

Accompanying this letter is the Treasurer's monthly report of Financial Status as of June 30, 2025 and interest received on **Forest Preserve Funds** invested for the month of June 2025, as the twelfth month of the fiscal year, compared with the prior year follows:

FY 2025 interest received in June 2025	\$ 25,593.00
FY 2025 accrual as of June 30, 2025	\$ 233,784.00
FY 2024 interest received in June 2024	\$ 9,974.00
FY 2024 accrual as of June 30, 2024	\$ 181,432.00

The Blackhawk Bank interest rate remains 3.825% (since 12/18/2024). As of July 8, 2025, Forest Preserve funds accounted for 5.7% of the pooled investments (sum of all FP funds invested divided by Blackhawk Bank pooled investment account total).

TAX ANTICIPATION NOTE (Authorized November 19, 2024) Up to \$1 million, to be drawn upon to provide cash flow for facilities upgrades and other operating expenses at Niabi Zoo, and repaid by December 2025.

• CBI Bank & Trust, Moline, IL; 4.000% interest rate; interest payable monthly; principal due at end of term.

Principal activated as of 7/7/2025: \$ 0.00	Interest paid as of 7/7/2025: \$ 0.00

Indian Bluff Clubhouse Report – July 2025

June Sales Numbers:	2025	2024	2023
Rounds played:	4209	4316	4529
Golf Revenue's:	\$114,153	\$108,042	\$108,474
Concession's:	\$29,261	\$30,099	\$29,186
ProShop:	\$5,415	\$5,403	\$4,955
Improvement Fund:	\$5,679	\$7,618	\$6,054
Total Revenue for June:	\$150,033	\$143,771	\$142,865
Pass Sale Revenue	\$500	\$225	\$250
Avg \$/Player	\$35.63	\$33.26	\$31.49

June was an ok month at Indian Bluff Golf Course. It caps off what has been a very good fiscal year for the golf course. Overall the fiscal year closes out with an even better fiscal year than in June 2024. Rain played havoc on 4 or five days this month. It caused leagues to be cancelled four times. Those cancellations are what caused rounds to be down for the month. 18 hole rounds were up for the month, 9 hole rounds were down, causing overall rounds to come in just under the rounds of 2024 for the month. A heatwave in the last 10 days of the month had a fair effect on business as well. The first 20 days of the month saw enormous amounts of play and revenue, the last 10 days things dropped off considerably. Overall, the revenue ran a little bit ahead of 2024, the rounds ever so slightly behind. Concessions saw a bit of a drop off from 2024, that was very evident the final 10 days that people were not buying concessions. I am not sure if that was heat related or something else. Draft beer was the main culprit in the lack of sales, as I have noticed a substantial drop off in draft sales.

Indian Bluff hosted 3 golf outings in the month of June. We hosted:

- Putts for Mutts
- Steve's Old Time Tap
- Edgewood Baptist Church

Putts for Mutts had more that 144 players this season, while Steve's Old Time Tap had his biggest golf outing ever. Edgewood Baptist had 54 players play on an extremely warm day, for their first outing ever.

Looking ahead to July, we have two golf outings on the books for the month. The Hackers and Slackers outing is July 19, and will be a full event, as they currently have a lengthy waiting list. The National Guard will hold their annual golf outing on July 11. More and more outings look for dates in August, and the August schedule fills pretty quickly. The last couple of years, along with the beginning of this season, weekend days without a golf outing, have faired very similar business wise (if not better) to those days with golf outings. Needless to say, I am not worried to much about a light outing schedule. July 2024 was a record month for Indian Bluff GC, we are trying to see if we can make July 2025 even better.

Report to Forest Preserve Committee

Name of Park Illiniwek

For the Month of June 2025

Grounds Maintenance performed— Staff continues to mow Illiniwek and Dorrance on a weekly basis. Staff has also been mowing and weed eating around the parking lots at Amôwa every other week. Staff sprayed the campground around trees, water spigots on RV sites, and electrical pedestals. Staff mowed the prairies that were planted back in May at Illiniwek and Amôwa to eliminate competition from unwanted vegetation. Amôwa got hit hard by a storm in early May. Staff cleared 7 trees off the trails and cleaned debris out of the parking lots. Staff sprayed phragmites along the highway at Illiniwek to keep it from spreading into the boat ramp prairie plot. Staff also sprayed the stump sprouts on the hillside behind D1 at Dorrance. These trees and honeysuckle were removed in April to protect the outfield fence.

Building Maintenance projects performed—Staff has been replacing bulbs in the shower buildings as needed. Staff sprayed home defense under the shower building and camp office roof overhangs to prevent spiders from building webs and collecting insects.

Equipment repairs and/or project performed— Staff completed the 50 hour preventative maintenance service on the 997 and both 1575 John Deere mowers. Mower blades were also replaced.

Trails/General facility conditions—The trails at Illiniwek, Dorrance, and Amôwa are in good shape. Staff mowed the GRT from Port Byron to Cordova to eliminate vegetation from falling onto the bike path. **Vandalism report**—No vandalism or break-ins this month.

Incidents—No incidents

Accidents reports—After a game at Dorrance someone decided to drive through the grass instead of staying on the driveway and ran over the shut-off to the bathroom. This brake the pipe and created a 15' tall fountain. Port Byron had to shut off the water to the whole park. JL Brady was able to come out the next day and repair the break. Just in time for Wednesday night's games.

Weather conditions—Dry

Activities/Events/Outings held at park— On June 28th the QC Astronomy club set up about 15 telescopes to view the night sky. Around 100 people showed up for the event. A Riverine walk was held at Amôwa West to discuss prairie diversity and pollinators. 10 people attended the hike. LL&W sponsored a honeysuckle removal event with John Deere interns at Amôwa west. 45 people attended and cut honeysuckle for 2 hours.

Items to be bid by Purchasing—No items.

Other misc. notes— The Fish and Wildlife Service has started the rusty patched bumblebee surveys and will be surveying Illiniwek, Dorrance, and Amôwa West.

This report was prepared <u>Mike Petersen</u> Date 7-04-2025

Report to Forest Preserve Committee

Name of Park __Loud Thunder ___

For the Month of _June2025___

Grounds Maintenance performed--

- Picked up trash on grounds, removed trash from trash receptacles
- Cleaned pit toilets as needed
- Wrapped firewood and filled firewood shed
- Removed hazard trees
- Remove storm damage on grounds and trails
- Mowed and string trimmed as needed
- Tilled horse corral
- Sprayed all gravel camping pads, parking lots, and dumpster pads with chemical to kill weeds
- Sprayed two fields in preparation for prairie planting later in the year

Building Maintenance projects performed--

- Cleaned maintenance shop
- Replaced light bulbs as needed
- Cleaned park office as needed
- Cleaned boat rental buildings weekly
- Installed two windows on maintenance shop

Equipment repairs and/or project performed--

- Preformed pre and post operation checks daily on equipment to be used.
- Changed oil and filter on both JD 997 zero turn mowers
- Changed blades on both JD 997 mowers
- Installed two hitches on golf carts
- Vacuumed and cleaned ford fusion, f150, and f350

Trails/Course/General facility conditions--The park as a whole is looking great. Trails were closed to horses and bikes due to wet conditions as needed.

Vandalism report— I have no vandalism to report for the month of June 2025.

Incidents--I have no incidents to report for the month of June 2025.

Accidents reports---I have no accidents to report for the month of June 2025.

Weather conditions—The month of June we did not receive a lot of rain. When we did receive rain events the grass and vegetation took off and we mowed a lot during the month of June. Activities/Events/Outings held at park— Loud Thunder hosted the Illinois City Horse show on Father's Day weekend.

The month of June really brought the warm weather to our area. I and staff have noticed our tent patronage is significantly lower than it was this time last year due in part to the extreme heat we have been having. Lake George is slowing down in regard to fish biting as the water temps are in the 80's. The anglers who are up early and the last ones to leave the lake are still managing to catch from the reports that I have received.

The shower building down at Riverview and the one located by White Oak campground both got LED lights installed in them this month. The florescent lights were constantly going out and the ballasts were going bad so keeping the lights on was a real challenge. With the new lights installed, patrons can see clearly and they should last significantly longer before burning out.

Illinois City Saddle Club held their horse show Father's Day Weekend and I think everyone enjoyed themselves as I did not receive any complaints. Staff have been maintaining trails this month every opportunity that we can. We have been experiencing higher winds than normal and these winds have been causing trees to fall on and across the trails more frequently than we would typically see this time of year.

I was able to put our dock in the Andalusia slough for two weeks and then rain and storms north of us caused me to remove the dock before we lose it. I keep a very close every on the water levels on the Mississippi River and do my best to keep our dock in the water when the water level permits. I and staff will continue to monitor the water levels and will put the dock in when conditions allow.

We are currently in our Fourth of July Weekend. The majority of our campsites are reserved or occupied and it is extremely hot. With the, "feels like", temps in the triple digits the primitive sites filled slower than typical. I am very confident that we will be full this weekend and our patrons will push through the heat and have a blast while camping with us. I look forward to our next meeting.

Ben Mills Superintendent

Loud Thunder Forest Preserve, Ralph Martin Conservation Area

Niabi Zoo report for June 2025

Lee Jackson

7/3/2025

- Mesh work at cat house is completed. African Leopard and Snow Leopards and snow leopards are now on exhibit. Bob cats and Amur leopards will be placed on exhibit after their enclosures receive minor adjustments on the 7th and 8th of July
- Projected completion date for Bald Eagle is still July 11th.
- Final touches for the viewing deck work at painted dogs have been completed.
- Lee attended the ZCOG board of Directors meeting in Louisville on July 28th and 29th.
- Lee did television interviews with KWQC, WQAD, and WVIK to discuss our work with the Wildlife Confiscation Network.
- Lee, Tammy, and Joel held temporary exhibit planning session.
- The Zoo would like permission to donate the following items to the River Bend Food Bank:
 - 1 beverage cooler
 - 1 sandwich prep table and cooler
 - 1 popcorn maker/cart

These items are unused by the zoo and are surplus to our needs. We also have no place to safely store these items.

Maintenance department

- Repaired back concessions drinking fountain
- Adjust linkage on Hoof stock gator.
- Caulked all seams on walk in freezer.
- Repaired back of barn at Domestic animals.
- Moved old logs out of Cathouse area.
- Worked with Greenspace to move logs with skid steer.
- Repaired lock on Tarantula exhibit.
- Fabricated new tire swing for Rhino.
- Fabricated and moved a bench over to Binturong exhibit at Biodiversity.
- Installed barriers around Squirrel monkey exhibit.
- Repaired leaf blower, put a new carburetor on.
- Installed barrier between Peacocks and Singing Dogs.
- Repaired hose at Colobus monkeys.
- Installed shade covers at Animal Encounters.
- Repaired fence at Camel yard.
- Repaired door at Mixed Primates.
- Repaired pus bar on door at Biodiversity.
- Spread gravel on driveway at Donkey barn.
- Repaired hoof stock scale.

- Fabricated and installed hanging food dish in Ostrich barn.
- Repaired trip hazard at Reptile house entrance.
- Installed shade sails at Rhino outdoor yard.
- Repaired door at Tamarin monkey exhibit.
- Repaired fan at Domestic animals.
- Repaired Eagle Owl entrance door.
- Repaired fencing at Painted Dogs.
- Repaired door at Reptile house.
- Replace air filter, sparkplug, and sharpen blade on zoo keeper push mower.
- Set up scale at Rhino barn.
- Replace fill valve in toilet in Administration Women's restroom.
- Repaired gate at Wolves.
- Repaired door at Giraffe barn.
- Maintenance Ticket booth A/C.
- Replaced shift door cable at wolf den.
- Repaired hose at Administration building.
- Repaired shift door at Giraffes barn.
- Fabricated and installed new ramp on Giraffe tamer.
- Hung a fan at Duikers barn.
- Repaired waterer at Camel barn.
- Refabricate and installed resting perches in cat yards.

Animal Care Department

- Snow Leopards and African Leopards now out in their new habitats!!!
- Bobcat and Amur Leopards should be completed and cats out next week
- Bald Eagle Habitat will start mesh installation next week

- Hung a fan at Duikers.
- Repaired waterer at Camel barn.
- Refabricate and installed resting perches in cat yards.

Rock Island County

Our mission: is to maintain and acquire lands with the intent to restore and conserve such lands for the purpose of preservation, education, and recreation for its residents with fiscal responsibility.

Members of the Rock Island County Forest Preserve District Executive Committee, please accept this report to the Committee for the month of July 2025.

Notes or follow-up from the prior Forest Preserve Executive Committee Meeting

- The budget & appropriation ordinances were executed and filed with the County Clerk. The ordinances were also published in the Argus/Dispatch on June 24th as required by statute.
- The PO for the mowers and truck approved at the June Commission meeting were sent.
- Lauterbach & Amen and Mindfire were given notice of their approved proposals.

Issues or Items noted on the agenda for the month of June

District Monthly Disbursements Claims

The monthly claims & Treasurer's Disbursements for the month enclosed are typical for this time of year. At the time of this report, all claims had not yet been reviewed by the auditing team. Any flagged claims will be addressed by staff.

Transfers of Appropriations

At this time of the year there are many transfers required in the General Fund and Niabi Zoo fund to cover adjustments staff have made in spending from the initial appropriations. No new appropriations to any fund have been needed other than the support to pay for the big cathouse, eagle, rhino roof and snow damage repairs project. Niabi Zoo revenues have been increased were applicable and the general fund has made new appropriations to transfer funds to the Niabi Zoo Fund.

Resolutions

There are three resolutions to consider this month.

Consider a Resolution for increased appropriations in the General Fund to assist the Niabi Zoo Fund for appropriations needed to pay the monthly claim for the big cathouse, eagle, rhino roof and snow damage project. The Niabi Zoo Fund has no funds left to appropriate unless new revenue is or is to be received. Prior appropriations and future appropriation assigned to pay for this project from the General Fund will be deducted from the FY 26 appropriations in the General Fund. An appropriation of \$550,000 was made in FY 26 to transfer to the zoo. A total of \$272,127.73 has been transferred to the Niabi Zoo Fund. There is \$312,554.87 outstanding for the zoo project.

Rock Island County

Consider a Resolution for increasing revenue appropriations to offset the funds needed to appropriate for the monthly claim to the big cathouse, eagle, rhino roof and snow damage project at Niabi Zoo.

Consider a Resolution per the Open Meetings Act 5 ILCS 120/2.06, the Act requires public bodies as least semi-annually review the closed session minutes of the public body to determine if the need for confidentiality still exists or no longer require confidential treatment and should be made available for public inspection. Any member of the Commission who wishes to review these minutes may do so during normal business hours at the District office.

Ordinances

There are no ordinances to consider for the month.

Other Business noted on the Executive Committee Agenda

Consider a proposal for services from IMEG for Construction Administration and Construction Engineering Inspection and observation for the Great River Trail HMA repairs and overlay in the amount not to exceed \$13,800.

Consider a proposal for services from IMEG for construction documents and bid administration for the electric vehicle charging station grant.

Consider the 2025 District Park Plan. The 2025 is an update from the previous plan assembled in 2018. The research from the 2023 survey of users and residents was utilized as well as a review of items accomplished were removed. It is a best practice to update a plan like this approximately every 5 years so data is relevant and as a reference for community support when applying for grants in some instances. Staff utilize the plan to direct funds and establish annual goals. Site specific plans in the appendix i.e. the Niabi Zoo Master Plan still need to be updated and a management plan for Amôwa Forest Preserve need to be developed.

Facility Usage throughout the District

June was a very windy and warm month with some strong storms that dumped precipitation in large volumes. Luckily, there has been no significant damage to any of the District facilities or grounds. The wind significantly affected to the boat rental operation at Loud Thunder Forest Preserve and the heat has affected services throughout the District as zoo attendance, golf and camping have significantly slowed when the heat index climbs into the 90's and beyond. Several large storms that moved through the north of the region dumped a lot of precipitation which made Mississippi River levels rise and the boat docks to be removed at Loud Thunder. The river was

Rock Island County

expected to rise at least 3' and the old dock system at Loud Thunder can't handle that level of fluctuation. During the precipitation events trails were closed to horses and bikers periodically throughout the month which affected general park use as well.

Now that summer is officially here, the District's prairies are in blooming with many varieties with wild flowers.

Staff throughout the District are busy with seasonal operations, please take note of staff reports as they go into greater detail about what transpired throughout the month of June.

Zoo Foundation

The next meeting of the Zoo Foundation is July 8th at Niabi Zoo.

<u>Union</u>

No grievances were filed by the union for the month of June.

Staff Reports

Lots of great work going on by the staff this month. Auditor's Report & Treasurer's Report. Budget Performance Report. Even though the District's fiscal year ended on June 30th. Revenues earned and expenses that occur on or before June 30th will be backdated until August

31, this includes payroll.

Items of note for the Current Month

- Worked on the State Grant appropriation application throughout the month. The application is nearly complete after getting the required IRS forms, completing the budget and project narrative.
- The grant application for the electric vehicle charging station was finally received and executed. As part of the grant, attended a mandatory grant training session via Zoom.
- Attended a time and attendance meeting and provided information so the time clocks could be programmed. The first-time clocks were installed recently at Niabi Zoo and Indian Bluff Golf Course by the County IS Dept. Illiniwek and Loud Thunder will have the time clocks installed later in July. In addition, the esutie software is now active for all staff to utilize. The software provides electric pay stub information, allows staff to change W-2, access W-4 and view beneficiary and other benefit information.
- Attended the Niabi Zoo Foundation meeting June 10th.

Rock Island County

- The second payment of property taxes was received on June 27th.
- Filed June sales tax for the General Fund and Niabi Zoo Fund.
- Completed the FY 26 GATA internal control questionnaire.
- Attended two meetings of the Rock Island County Conservation Consortium and applied for funds for a trail bridge at Loud Thunder and invasive species removal at Amôwa Forest Preserve.
- Continue to reviewing best practice policies and procedures as recommended by the Illinois Distinguished Agency Accreditation program.
- Participated in a preliminary meeting with Sikich to prepare for the FY 25 audit.
- Participated in a preliminary meeting with Lauterbach & Amen for the GASB 75 Other Post Employment Benefit actuarial report. All available documents and reports were loaded to their support software so they can begin their work.
- Nothing to report about the Lake George fishery unfortunately. The IL Conservation Police informed the District that they will be patrolling Lake George periodically to conduct boat and license inspections. Boat registrations and laws as well as fishing regulations are under their purview to enforce, the District ordinances are not.
- Depositions have been occurring in the Kilgore claim against the District. Ms. Kilgore's attorneys filed a motion for leave to file an updated complaint, which the Court granted. The motion has minor changes mostly based on information learned during discovery. Instead of alleging that Ms. Kilgore was terminated because of her disability and request for accommodation, they now allege that she was not hired in 2024 because of her disability and request for accommodation. IPARKS legal team is representing the District.
- A preliminary hearing in the worker's compensation case file by D. Salisberry occurred. Mr. John Remus is representing the District.
- The construction at Niabi Zoo is nearing its completion, however the carrousel still needs to be repaired. Staff have a quote from Crawford company to repair the top frame which was damaged during the snow events in January of 2024. The canopy top has been on back order for some time.
- Beginning to review fiscal year 27 appropriation needs. Will open fiscal year 27 appropriation requests from staff on September 1. Staff will present a preliminary budget and levy ordinances to the Commission in November.
- Reviewing grant opportunities with the Community Foundation and IL DNR. The grant application for Eurasian Eagle Owl was not accepted.
- Looking forward to a great 4th of July weekend, then the next big summer holiday is Labor Day Weekend. It goes by so fast these days so enjoy our parks when you can!
- Next month's Forest Preserve Executive Committee meeting will be at Loud Thunder Forest Preserve. Then in September the committee will be meeting at Illiniwek.

Rock Island County
