

Strategic Priorities | 2025-2028

MISSION

To advance the profession of health-system pharmacy in the state of Utah by promoting excellence through **advocacy**, **collaboration**, **education**, and **innovation**

VISION

USHP inspires health-system pharmacists and technicians to be leaders in advancing pharmacy practice, improving patient outcomes, and shaping the future of healthcare

VALUES

USHP members will promote **excellence** in the work we do, **collaboration** across groups, life-long **learning**, mutual **respect**, and **patient-centered care**

ADVOCACY

Advocate for laws, regulations, and standards that improve patient care and promote the pharmacy profession

- Empower USHP members to communicate with local officials and legislators
- Leverage a lobbyist to champion health-system pharmacy-specific needs
- Expand advocacy efforts beyond the legislative session
- Advocate for Pharmacy Practice Act updates that promote health-system pharmacy

COLLABORATION

Build multidisciplinary relationships and promote teamwork within the pharmacy profession in Utah

- Grow and retain an active, pharmacist and technician membership base
- Support in-person and online networking opportunities
- Expand the use of social media to provide timely and relevant communication with members
- Improve partnerships and engagement with other healthcare and patient groups

EDUCATION

Provide high-quality, engaging educational programming that supports professional development

- Create novel, members-only content that supports the educational needs of the Utah pharmacy workforce
- Optimize and expand accredited programming for internal and external groups
- Participate in local and national campaigns that promote USHP and the pharmacy profession

INNOVATION

Advance the practice of pharmacy through new initiatives and continuous improvement efforts

- Optimize the structure of USHP to ensure long-term viability and relevance within the State
- Develop programs that support the important role that technicians play in health-system pharmacy
- Champion innovative efforts of local health-systems and help spread best practices
