I do hereby appoint the aforementioned business as my attorney in fact to accept on my behalf **ANY AND ALL** checks, drafts, or bills of exchange and to endorse all such checks, drafts or bills of exchange for deposit to the aforementioned business' account for credit on my account for repairs on my vehicle which has been released and accepted.

Signature _____ date _____

*All vehicles left at our facility after **one week** of being completed are subject to storage fees of \$30.00 **per day***

Pre- and Post- repair diagnostic scan work authorization form

This diagnostic work authorization form grants Discount Collision Center LLC. Permission to perform Pre- and Post- Repair diagnostic scans on your vehicle as part of the repair process. By accepting this procedure, you acknowledge the terms and conditions listed below. If you choose to decline this procedure, you acknowledge the repair shop will not be held liable for problems with the vehicle that cannot be detected without proper diagnostic scans.

Definition:

Pre- Repair diagnostic scan? This is a complete health check of your vehicle and provides the repair shop (and insurance company, if applicable) a complete report on the number of computer modules on board, as well as any diagnostic trouble codes (DTC's) that could indicate pre-accident and/or accident-related damage. This essential step eliminates unnecessary delays waiting for parts and/ or additional insurance authorizations and identifies issues with the vehicle that could be missed without a pre-repair diagnostic scan.

Post- repair diagnostic scan? This step ensures that all systems on your vehicle are in proper working order prior to delivery. It is important to note that the majority of DTC's do not result in a malfunction indicator lamp (dashboard light). Failure to perform a post-repair scan by trained professionals with factory tools significantly increases the risk that your vehicle may be returned with malfunctioning or inoperable safety and convenience systems. A post-repair diagnostic scan is the single best way to ensure that your vehicle is returned to pre-incident condition.

Data privacy:

In the process of performing a diagnostic scan, Discount Collision Center LLC will collect important historical vehicle data, including in some cases, the date, time, and mileage of when a DTC was created. This information clarifies if a problem is accident related or pre-existing. It is possible this information will be shared with your insurance company. Your acceptance of this procedure grants Discount Collision Center LLC permission to share this information with others, including your insurance company. No personally identifiable information is collected during the pre- or post-repair scan.

Disclaimers:

- Diagnosing vehicles has limitations. In some cases, modified vehicles may give false DTC's. Discount Collision Center LLC and its employees **cannot** be responsible for omission or errors caused by the information provided, or not provided by the customer
- All work performed by Discount Collision Center LLC will be in accordance with original equipment manufacturer (OEM) specifications and defaults. This includes, but is not limited to any repairs, calibrations, integrations, programming and set points as indicated by the OEM by way of their designated sources of such information. Discount Collision Center LLC is not responsible for any damage that results from, or to, aftermarket parts, or modifications from OEM factory specifications.
- Variations between vehicles, according to the make, model, and trim level may limit the information captured during a pre- or post-repair diagnostic scan.
- Depending on the condition of the vehicle, and the extent of the damage, and other factors outside the control of Discount Collision Center LLC a factory scan tool may not see every system on the vehicle being scanned.
- Discount Collision Center LLC is not responsible for any changes made to the vehicle after the vehicle leaves the shop.

While Discount Collision Center LLC recommends a pre- and post-repair scan on every vehicle, it is especially important to perform these functions on newer, highly optioned, heavily damaged vehicles. Failure to do so significantly increases the risk to the vehicle owner and occupants.

SELF PAY ONLY

Yes _____ (initial) I accept having a pre- and post-repair diagnostic scan on my vehicle, even if my insurance coverage does not pay for these procedures. In some instances, insurance coverage may not be determined until after the diagnostic scans are performed.

No _____ (initial) I decline having a pre- and post-repair diagnostic scan on my vehicle, though they were recommended by Discount Collision Center LLC and the need for them was explained to me. I understand Discount Collision Center LLC will **not** be held liable for any hidden damage that could be detected during the repair process because of not having performed a pre-repair scan. I understand certain systems may not function correctly, or at all following the repair, and it would be impossible to detect issues with those systems without a post-repair diagnostic scan. I release Discount Collision Center LLC from all liability for any pre-accident issues, hidden damage or post- repair malfunctions that would have been discovered, had I consented to having pre- and post-repair diagnostic scans performed.
