Introduction to the Global Goals

Elementary Engagement 1 | EXPLORE and REFLECT

Visit <https://www.sdgforchildren.org/> and explore the global goals in the chart you'll see if you scroll down slightly. Choose 5-10 of the goals in the chart to click on and learn about.

Then, doodle and/or write down what you learned that interested you the most.

Elementary Engagement 2 | WATCH and REFLECT

Watch this video from our partners at World's Largest Lesson. [World's Largest Lesson - Just a Kid](#). Next, think about what you have learned from the video and about the global goals. Start a list of at least 3-5 issues in the world that you would like to change for the better.

Elementary Engagement 3 | CREATE

Think about the difference between a *want* and a *need*. For example, we may love ice cream and trips to the zoo, but those are wants more than they are needs. However, oxygen and clean water fall in the category of needs. Create a poster using whatever you have handy at home. On one side of your poster, write *Wants* and on the other side, write *Needs*. Then find images that represent both. Be sure to send a picture of your poster to rockyourworld@creativevisions.org and/or the [Rock Your Rights gallery](#).
