

The Word with Children

When Jesus was here on earth, what were some of the things he did? He taught people about God, showed God's love and caring in healing the sick in mind or body, and performed many miracles.

How was he able to do these things? God's Spirit was in him, and because of that he understood what God wanted, and used God's love and power to say and do what God wanted him to say and do.

The same Spirit lives in us as well, and so we can also know and do the things God wants, and show God's love and power just as Jesus did - a reason for worship.
