God Is Love

"God is love," proclaims the story
of the Christ in human form,
come to earth, a helpless infant,
in a stable manger born.

"God is love," the angels chorus'd
in a heav'nly burst of song
heard by shepherds on the hillside;
"Peace shall reign, the Savior's come!"

"God is love," a truth unravelled
through the years, as Jesus taught,
touching, healing sick and needy,
wondrous life and hope he brought.

"God is love," incarnate message
still for earth Good News displayed
through the lives of loving persons;
Christ be born in us today.
