

Kitten Health Checklist

Kitten Health Checklist: Vet Visits, Vaccinations, and Preventative Care

Keep your kitten healthy with our checklist for vet visits, vaccines, deworming, and preventative care every new owner should know.

Initial Vet Visit

Schedule a check-up within the first week.

Vaccination Schedule

- FVRCP (starting at 6–8 weeks).
- Rabies (as required by law).

Parasite Control

- Deworming as recommended.
- Flea/tick prevention. To include heartworm prevention.

Annual Care

- Yearly vet visits.
- HCM heart scans (for breeds at risk).
- Teeth cleaning.
