

Emily's

## THE CONCEPT

It is fitting for Emily to open her very next restaurant in her hometown of Penang, Malaysia. With an open invitation by the Malaysian government to bring home knowledge and expertise acquired from around the world, Emily believes it is apt to bring to Malaysia a real taste of Britain serving classic hot English breakfast, fish & chips, and char-grilled steaks.

Emily's Steakhouse came about when they realised there simply were very few restaurants serving hearty meals in a 'down to earth' setting – with real homemade chips and unmolested ingredients such as a prime cut steak.

Countless restaurants chains serves frozen refry or offer a fine dining experience. Emily believes in good value.

You just can't beat a hearty serving of satisfying dishes.

This business model have seen Emily's Steakhouse success grow into adjacent premises. Consistent 4 to 5 star rating on Google and TripAdvisor with a 10 years consecutive 5 star record with the local council translates this to a premier establishment.

Emily grew up in Penang, Malaysia and continued her education at Melbourne University, Australia in Hotel & Hospitality. She followed this up with training in various prestigious restaurants and hotels in London before

opening her own English restaurant in 2006 personalising it as 'Emily's Steakhouse' with husband Lee.

Head Chef Lee comes from a long line of family Chefs from Hong Kong. He was born into the restaurant industry with the family restaurant still running some 80 years later. The family went on to establish two further eateries specialising in fish & chips that adds up to nearly 100 years of experience.

Chef Lee grew up in England and worked in London restaurants whilst studying for his Bachelor of Art degree in Accountancy. After graduating and training as a Chartered Accountant, he returned to his core passion – good food.

He often jokes about one of life's enjoyment is a satisfied tummy.

Emily and Lee hopes you enjoy your visit  
to any of the Emily's Steakhouses.

## OUR HOMEMADE CHIPS

**Fries'** (short for French Fries) are thin strips of potato that have been deep fried. They can range in size from 3mm to 8mm square strips and often served with American styled burgers. Whereas American 'Steakhouse Chips' are at the other extreme and are quite chunky at 16mm strips served in steakhouses across America.

British 'Chips' are potato strips that are 10mm cut strips. It is the standard UK serves in 'Fish and Chip' shops. There are many differences between homemade chip to fries. Fries are white and crispy because they have a preservative coating and are fried from frozen. Some fries are not even strips of potato at all but instead made from reformed potato mash. This makes fries cheap as it can be made all year round and stored for long periods. The crisp coating gives that deceptive fresh experience.

At **Emily's Steakhouse**, we believe fresh chips should taste of potato. We only use select types of potato and cut chips daily for that freshness. Our choice of potato is sweeter which when it's fried browns (caramelized) to a nutty flavour. The soft centre gives that succulence and offers a moreish eating experience. We believe you can taste the seasonal differences that can only come from real potato.

**Emily's Steakhouse** have specially adapted chip cutters at 10mmx16mm. This cut is a cross between a UK chip at 10mm, with a 16mm steakhouse cut. The thinner side allows for an even fry whilst the thicker side offers a more mouthful eating experience.

'Fries' (singkatan dari French Fries) ialah kepingan kentang nipis yang telah digoreng. Mereka bersaiz dari 3mm hingga 8mm dalam bentuk jalur dan sering dihidangkan dengan Hidangan burger gaya Amerika. Manakala American 'Steakhouse Chips' adalah agak kental pada 16mm berbentuk jalur yang disajikan di restoran stik di seluruh Amerika.

'Chips' British ialah jalur kentang yang dipotong pada saiz 10mm. Ia adalah hidangan standard UK di kedai-kedai 'Fish and Chip' sebagai "sides dish". Terdapat banyak perbezaan antara kerepek buatan sendiri dengan kentang goreng yang diproses. Kentang goreng adalah berwarna putih dan rangup dan mempunyai salutan pengawet dan digoreng dalam keadaan beku. Kentang goreng yang diproses mempunyai jangka hayat yang lebih panjang berbanding dengan kentang buatan sendiri kerana ia mempunyai pengawet untuk mengekalkan kesegarannya.

Di **Emily's Steakhouse**, kami mempercayai ubi kentang harus mempunyai rasa Ubi kentang yang segar. Jadi kami hanya menggunakan Ubi kentang yang premium dan kita memasak kentang segera selepas memotongnya untuk menjamin kesegarannya. Pilihan kentang kami adalah lebih manis apabila digoreng hingga kewarnaan perang (caramelised) dan ranggup. Pusat ubi yang kekal lembut memberikan kesegaran itu dan memberikan pengalaman makan yang lebih menarik. Dengan cara ini, anda boleh mengatahui perbezaan kentang asli dan kentang yang diproses.

**Emily's Steakhouse** mempunyai pemotong cip yang disesuaikan khas pada 10mmx16mm. Potongan ini adalah salib antara cip UK pada 10mm, dengan potongan restoran stik 16mm. Bahagian yang lebih nipis membolehkan cip digoreng dengan lebih rata manakala cip yang tebal menawarkan pengalaman makan yang lebih istimewa dan memuaskan.

薯条" (French Fries 的缩写) 是经过油炸的薄马铃薯条。他们的尺寸范围从 3 毫米到 8 毫米方形条，通常与美式汉堡搭配。而美国的“牛排薯条”则呈现于另外一种形状，在全国各地的牛排馆供应为 16 毫米比较正方形，非常厚实。

英国“薯条”是切成 10 毫米方形的马铃薯条。这是英国“炸鱼薯条”食店的标准尺寸。自制薯条和冷冻薯条有很多区别。冷冻薯条又白又脆，只因为它们有防腐涂层，是冷冻油炸的。有些薯条甚至不称得上是马铃薯条，而是用改良的马铃薯泥制成的。这使薯条成本价格较便宜。它可以全年制作并长期储存。防腐涂层使薯条看起来更加清脆爽口，让人有种比较新鲜的错觉。

在 **Emily's Steakhouse**, 我们相信马铃薯应该要拥有马铃薯的原味。我们每天只使用精选的马铃薯和采用手切马铃薯片的方式来保持其原有的香味和新鲜度。我们选择的马铃薯更甜，炸成棕色（焦糖色）到坚果味。柔软的中心赋予了多汁的口感，我们相信您可以分辨冷冻速食薯条及自制手做薯条的差异。

**Emily's Steakhouse** 有专门改装的 10mmx16mm 切屑刀。这种切割的自制薯条尺寸是介于英国薯条的 10 毫米和牛扒店薯条 16 毫米的尺寸。我们的自制薯条较薄的一面方便下锅炸时较全面熟透，较厚的另一面则为食客提供更丰富的咬嚼体验。
