## Questions for further application of God’s Word:

### GO DEEPER

Are there any beliefs that you hold that add to the work that Christ did on the cross? Are you adding anything to faith?

Do you know anyone who has been deceived by a false gospel? Are you in a position to help them understand the truth of the gospel?

### GET PERSONAL

Have you ever had a conversation that sounded like Galatians 1:8-9 when it should have sounded more like 2 Timothy 2:24-26?

How should it have gone differently? What things should not have been said? What things do you think should have been said?

If you know someone who is believing in a false gospel stop and pray for them. You may be the only person they know doing so.

### PUT IT INTO PRACTICE

Make a list of false gospels that you know of, divide them up among your small group and regather to teach one another where they depart from the true gospel and how scripture refutes each of them.

### ADVANCED QUESTION

Read through this article on theological triage:

<https://ps.edu/what-is-theological-triage/>

Is Paul treating the false gospel being preaching by the circumcision party as a black tag or a red tag doctrine?

Read through the statement of faith on VBVF’s website. Categorize each one according to the framework from the article above.
