

Join Us as a Founding Sponsor and Build a Thriving Community

By becoming a founding sponsor of our Pippily by Chamber Nation system, your business will benefit from extensive promotion through our innovative publishing system. This means reaching more potential customers, boosting brand visibility, and increasing your business.

Why Become a Founding Sponsor?

Please keep the following text in mind:

In addition to being featured in the first 100 business buildouts, as a sponsor, your business will receive prominent promotion on all businesses, including their 10-12 page ad displays, which we create for each business on the network. Depending on the size of your community, this will result in hundreds to thousands of web pages promoting your business. Your logo will be displayed and linked to your preferred URL, driving traffic directly to your website or provided professional services catalog.

Your business will gain exposure through various channels, including the community welcome center (also known as the Product & Services Guide), search page, business services pages, community clicker app, business dashboards, and potentially even inclusion in the community website.

Our diverse local audience ensures that your brand reaches many potential customers. As a Founding Sponsor, you'll be integrated into community service display pages, member mobile apps, and community management system dashboards.

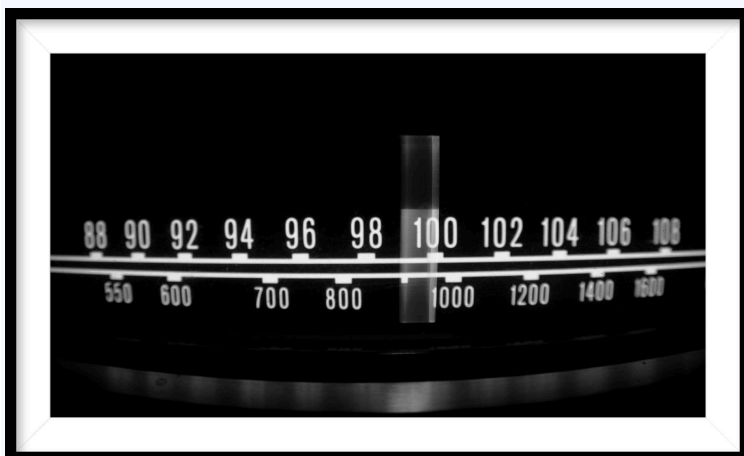

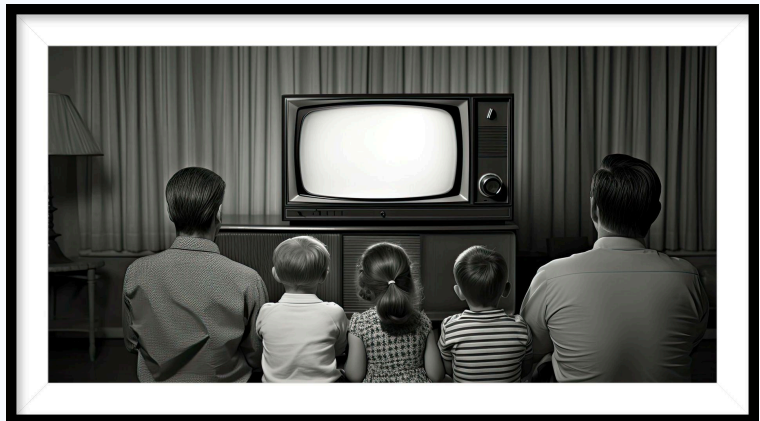

What Does Your Funding Support?

This program turns the community into a strong advertising and publishing platform for local businesses. Our committed onboarding and support center team ensures that your community is filled with valuable content and receives essential support for business transactions.

Additionally, it acts as a management system for community events, communications, tourist kiosks, and subscription plans with automated recurring billing. This contributes to maintaining a thriving "COMMERCE" community in your area.

Bringing Local Back

It was once easy to discover what your community offers. However, it's nearly impossible nowadays since everything is decentralized—until now!

A Small Investment Does Provide a Terrific Return

Join us as a founding sponsor with a ONE-TIME payment of \$_____ for our initial launch and only \$_____ per month. This will cover our launch costs and support our start-up community of _____ businesses. Additional businesses beyond the initial group will cover their own subscriptions, so your support will only be for the initial program launch costs. The duration of your sponsorship will be determined by local community leadership, but it will last for one year from the onboarding of all initial businesses.

Contact Us Locally or Through our Contact Form

Contact us now at www.FoundingSponsors.com or through your local community leader for more information and to secure your spot. Only 8 spots are available. Remember that amounts shown at www.FoundingSponsors.com may differ from the local community request.
