

Join Us

When you join a Chamber of Commerce, you become part of a credible establishment. It is a team of members **GROWING LOCAL BUSINESS** and promoting the community as a whole.

You will be working with **two teams** with one of them focused on **CHAMBER** services, and the other focused on **COMMERCE**. Between both teams, you are going to **SEE RESULTS**.

JOIN A CHAMBER & GET RESULTS

We Handle the Research

Amazon is all Centralized so Why Not Our Community?

80% of community businesses are not retailers, so our Marketplace supports much more than stores. We also offer a hybrid technology platform (people and technology workflows), so we can ensure community success every time that we prove in writing.

Our Service

When you join the Chamber, we handle all of the research and onboarding (no extra cost) to help you promote your business like never before.

INNOVATIVE DESIGN

Our Internet Ad Publisher posts at the same time to the general Internet and also to the community advertising network, improves SEO and creates many backlinks to your website, etc.

PROFESSIONAL TEAM

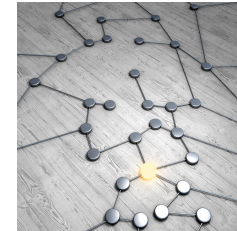

Our team will handle all of your new member onboarding services. This includes documentation for 10-12 ad display pages, catalog, texting keyword, mobile app, job board and more.

QUALITY CONTROL

Our team's QA department reviews the documentation before it is sent to the Chamber staff. The Chamber reviews and sends you links to view and to your member assistant for any changes, etc.

Deliverables

Added to Ad Network

Along with your fully built Chamber directory listing you are also added to the community advertising network.

eBusiness Card

From your new mobile app you will be able to share your Member Business Card electronically.

Advertising Reports

In most networks you will be able to view the community advertising report to see how well your business is indexing.
