

Member Business Cards

Mobile App

01

Easily Share Your Business Card

Take a few minutes to see the incredible power of your new Member Business Card. Once you save your business card on your phone, you can quickly share it with others regardless of the kind of mobile phone they use. Follow these simple steps to get started.

02

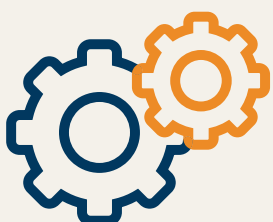

Visit Your Chambers Resource or Welcome Center

Visit your Chamber/Organization website to find the Welcome or Resource Center page. Often times you will see it right on the top of the home page.

View the Member Business Cards

Now click on the button called "Member Business Cards." Find your business from this list and scan the QR code to open your mobile app on your phone.

03

Save Your Mobile App on Your Home Screen

Now save that onto your home screen for real quick and easy access any time you need to share your business card. Android and Apple both offer a save on home screen option.

04

05

Easily Share Your Business Card and App

When you open your mobile app, you will always see a little banner at the bottom called "Share My Business Card" that you will want to click. It opens your QR code people scan to collect your business card.

06

Instantly Delivers Your Contact Info

There is an option for them to instantly add your contact information to their phone's address book for easy future access. They also will have access to your products or services catalog and much more.
