

Torsdags Tech Talks

A professional silver condenser microphone is mounted on a black boom arm, positioned in the foreground. The background is a blurred office setting with a person in a white shirt and blue jacket, suggesting a professional or tech environment.

Dialog om nyheder fra Esri, fif fra supporten og dine spørgsmål

ArcGIS Updates & Patches

ArcGIS Pro 3.7

- ArcGIS Pro 3.7 er udkommet
- Det er en minor release – ingen breaking changes
- Mange nye features, f.eks.:
 - Et kort til flere map frames i layouts
 - Analyze map tool – fejlsøgning af performance på tegning af lagene
 - Konvertering af person geodatabaser er nu indbygget
 - Koordinatsystemer er omorganiseret – UTM32 ligger i anden mappe

<https://www.esri.com/arcgis-blog/products/announcements/announcements/whats-new-and-improved-in-arcgis-pro-may-2026>

ArcGIS Online Update

- I dag er ArcGIS Online blevet opdateret
 - Hosted Feature Services
 - Contingent values
 - URL felttyper
 - Map Viewer
 - Review map tool
 - Symbol drawing order
 - Dashboards
 - En række ændringer
 - Vær OBS på dashboards og gem ikke hvis der er noget galt – gem som I stedet for
 - Administration
 - Mere information om Item Dependency og forbrugsstatistikker

Supporten har focus på defects, der opstår efter ArcGIS Online bliver opdateret

Issue details

Describe the issue or error you are encountering. *

når jeg åbner et bestemt projekt i arcgis pro 3.7, det bliver ved med at load. Jeg kan ikke interagere med kortet eller lagene, og heller ikke lukke programmet normalt. Jeg skal slukke det fra task manager. Det er kun den ene projekt, der driller. Når jeg starter et nyt projekt kører det som forventet.

What troubleshooting have you already performed? *

Jeg har prøvet at åbne mit projekt fra både recent projekts og direkte fra mappen hvor det er gemt. genstarte af computer hjælper heller ikke.

Are you using any additional products, tools or features? If yes, please list what you are using.

nej
