Course introduction

Course introduction
Course goals
Installing the course data
Icons used in this workbook

1 Introducing ArcGIS Experience Builder

Lesson introduction
Capabilities of ArcGIS Experience Builder
Introduction to ArcGIS Experience Builder versions
Explore an ArcGIS Experience Builder app
Use cases for ArcGIS Experience Builder
ArcGIS Experience Builder creation workflow
Lesson review
Answers to lesson 1 questions

2 Designing a web app

Lesson introduction
Design elements
Design considerations
Exercise 2A: Explore the out-of-the-box templates
- Sign in to ArcGIS Experience Builder
- View the blank templates
- Examine the Web AppBuilder Classic templates
- Explore the Map Centric templates
- Inspect the dashboard-style templates
- View the web page and website templates

Choosing an out-of-the-box template category
Introduction to the interface
Exercise 2B: Apply design principles to an app
- Open ArcGIS Experience Builder
- Set the theme for the app
- Adjust the widgets on the page
- View the app on various devices

Lesson review

Answers to lesson 2 questions

3 Adding pages and windows to an app

Lesson introduction
Working with pages
Exercise 3A: Configure a multipage app
- Create a new experience
- Add a page with a header
- Configure the page options
- Update the page outline
- Configure the menu

Working with windows
Exercise 3B: Add windows to an app
- Add a splash screen
- Populate the content in a window
- Create a custom button
- Add an interactive effect to a button
- Preview the windows

Linking to an external window
Lesson review

4 Working with maps

Lesson introduction
Overview of the Map widget
Explore the map tools
Adding data to an app
Exercise 4: Build a Map widget with data
- Add a Map widget to a blank page
- Connect the map to data
- Modify the map view
- Add tools to the map
- Configure the map style

Lesson review
Answers to lesson 4 questions

5 Creating a mapcentric app

Lesson introduction
Discover types of mapcentric widgets
Creating a 3D mapcentric app
Exercise 5A: Build a 2D mapcentric app
- Define the layout of the app

Show a customized list of layers and legend
Compare mapcentric widgets to map tools
Highlight key information using bookmarks
Measure distance and area by drawing on the map
Connecting utility services to widgets
Exercise 5B: Configure a widget with a utility service
Organize the widgets on the page
Add a custom utility service to the app framework
Convert coordinates for locations in the field
Determine distance and drive time to each site
Print field maps based on the current map extent
Using a utility service to create an infographic
Lesson review
Answers to lesson 5 questions

6 Creating a datacentric app

Lesson introduction
Discover types of datacentric widgets
Types of data sources
Configuring data-driven functionality
Using data views in an app
Exercise 6: Configure dynamic content in an app
Add web layers to a dashboard style app
Calculate a statistic to summarize information
Build an expression to calculate a value
Display an attribute based on the map selection
Preview the dynamic functionality
Identifying the requirements for a datacentric app
Lesson review
Answers to lesson 6 questions

7 Configuring actions for a datacentric app

Lesson introduction
Message actions
Using the framework as a target
Exercise 7A: Use message actions in an app
Create an app
Configure a search
Create a chart
Preview message actions
Data actions

Exercise 7B: Use data actions in an app
Create an app
Create a list of layers
Enable tools for the list
Configure the data actions
Preview data actions
Identifying the action requirements
Lesson review
Answers to lesson 7 questions

8 Configuring a mobile layout

Lesson introduction
View an optimized mobile layout
Customizing mobile layouts
Common layout widgets
Exercise 8: Use layout widgets to create a mobile-friendly app
Create the app page
Insert a sidebar to contain widgets
Add a card that contains text and images
Create a section that contains views
Populate the app content
Customize the layout for small-screen devices
Preview the app on a mobile device
Lesson review
Answers to lesson 8 questions

9 Deploying an app

Lesson introduction
Publishing workflow
Publishing statuses
Exercise 9A: Apply the publishing workflow
Choose an app to publish
Update the sharing level
Publish the app
Refine the app
Workflow review
Exercise 9B: Deploy a new web app
Create a new app with a splash screen
Configure the app based on a scenario
Publish the mobile-friendly app
Exercise 9B solution with steps

Answers to lesson 9 questions
Exercise 9B solution: Exercise 9B solution with steps

Appendices

Appendix A: Data license agreement
Appendix B: Answers to lesson review questions
Appendix C: Additional resources
Appendix D: Lesson stories
