

Proudly Serving Since 1976

Fall 2025

# LEO-CEDARVILLE RSD PIPELINE NEWSLETTER

It is the Sewer District's goal to provide a high level of uninterrupted service at the best rate possible while having the least possible impact on the environment. Our Board strives to work cooperatively with any resident that wants to connect to the sanitary sewer and maintain good relationships with the residents of the District.

In June of 2025 the Sewer District began the installation of approximately 8600 linear feet of gravity sewer along a portion of Hosler Road, Cedar Lane, Lou Ann Drive and Cedarcrest Drive. This project is expected to be completed by the Spring of 2026. This line will service the new school and allow for septic elimination along the western half of Hosler Road. The District appreciates everyone's patience during the construction process.

Maintenance and repair is an ongoing priority for the District. If you see an issue please contact our office at 260-627-2084.

***Please do your part to keep maintenance and repair costs down. Be mindful of what you put down drains and flush down the toilet. Do not flush wipes or feminine hygiene products. Grease and excess food scraps should be put in the garbage instead of down the drain.***

**For Sewer Emergencies Call: 260-414-9033.**
