Information may be obtained from the Iowa State University Extension and Outreach AnswerLine at 1-800-262-3804, which is available from 9:00-Noon and 1:00-4:00, Monday through Friday, or from their website at [www.extension.iastate.edu/answerline](http://www.extension.iastate.edu/answerline). Other references include So Easy to Preserve, Fifth Edition, by Cooperative Extension, The University of Georgia – available online at [www.homefoodpreservation.com](http://www.homefoodpreservation.com) and Ball Complete Book of Home Preserving, 2012 (or newer edition).

Use clear standard canning jars such as Ball, Kerr, etc. salad dressing jars or similar jars will not be accepted. Use only new rings and lids. Any size (but not less than ½ pint) standard canning jar is acceptable. Make sure all jars are washed after processing to remove any spillage or residue. Do not use paraffin in any class. Date of canning needs to be marked on all canned goods. Any article that becomes unsightly during the fair, will be destroyed. Ribbons and entry tags will be retained and can be picked up during open class entry release times.

Judging is based on current USDA approved processing methods and times, headspace, pack uniformity, appearance of fruit/vegetable, liquid, and cleanliness of jar and band. Fruits/vegetables must be whole or cut in uniform pieces. Headspace for each product varies. Be sure to use the correct recommended headspace for each product. (Headspace explained on page 11 of Ball Blue Book Guide to Canning and Preserving.) **Be sure to check processing times according to altitude where the object is being canned.** You can also find this information by calling the Iowa State University Extension and Outreach AnswerLine at 1-800-262-3804.

Baked goods are to be placed on heavy cardboard or a paper plate and put in a plastic bag. Anything not in a plastic bag will not be accepted.
