Better Body Group Gym - half price offer on 'Styku' scans
The Better Body Group Gym has a half price offer for squash club members on Styku scans.

A 3D body scanner will literally scan your body, often with infrared technology. It takes hundreds of photos and thousands of point locations in order to stitch them all together into a point cloud. After that, it makes a uniquely individual [3D model](#) of your body.

In fitness areas specifically, this data is used to see exact measurements of an individual's waist, hip, thigh, arm, chest, and height. It also tracks specific weight and where that weight is located on each person's body.
