

Humanity's Team 2025 Impact Report

WE ARE THE TURNING POINT

A WORLD AT AN INFLECTION POINT

Around the world, we are witnessing deep division, rising instability, widening inequality, social fragmentation, and environmental strain. Trust in institutions is declining, feelings of isolation and disempowerment are rising, and many feel uncertain about the future.

This moment reflects a deeper belief that we are separate from one another, from the Earth, and from the systems that sustain us. When disconnection becomes normalized, fear rises, division deepens, and the social fabric begins to fray.

Yet, within this inflection point lies an extraordinary opportunity. Humanity is awakening to a new way of living. Across nations and generations, people are searching for a path rooted in connection over conflict and stewardship over extraction.

Our Vision and Mission

We envision a world where humanity lives as one-- expressing our highest potential and caring for each other and the Earth. To reach that future, our mission is to advance conscious living worldwide so humanity and the Earth can flourish together.

Research affirms that human beings are wired for connection. This connection is the foundation of a unified, compassionate, and sustainable future.

The Opportunity Before Us

In late 2025, Steve Farrell and Neale Donald Walsch released *An Important Letter to Humanity* calling attention to this pivotal moment. They wrote:

“If we are to pass along a healthy planet to our children and future generations, the time for action is now. The path humanity is walking today is perilous. It exposes us all to suffering, division, and decline. Yet another path is open. A life-affirming path that can heal, uplift, and guide us into a future of wholeness and peace.”

That path begins with a simple but transformative realization:

We are one human family sharing one planet and one future.

From that recognition flows a different way of living:

- Listening before judging.
- Upholding the dignity and divinity of every person.
- Creating cultures of compassion beginning in our homes and communities.
- Acting as responsible stewards of the Earth.
- Translating inner awareness into outward action.

This is not idealism. It is practical leadership for a deeply interconnected world.

Humanity's Team exists to help make that leadership visible, lived, and scalable. When leadership is grounded in our underlying unity and Oneness, it does more than change individual lives—it helps shift the lived reality of our planet from separation and fear toward cooperation, stewardship, and shared flourishing.

Modern science increasingly affirms this understanding, demonstrating that we are not separate from the Earth or one another, but part of a single, interdependent system that shares the same fundamental building blocks of life. When this reality is both understood and embodied, Oneness moves beyond philosophy and becomes a practical foundation for how humanity can thrive together.

Shifting the planet's reality begins with shifting how we live, lead, and relate to one another.

Our Role In Shifting the Planet's Reality

The world does not lack information.

It lacks integration.

It does not lack inspiration.

It lacks sustained community.

It does not lack awareness.

It lacks the structure to help people embody what they already know is true.

For more than two decades, Humanity's Team has convened global conversations on unity and conscious living, engaging audiences across more than 150 countries. We are evolving from an educational platform into a global, member-supported movement that bridges inner transformation with collective action. Unlike issue-specific nonprofits, our work addresses a deeper root cause beneath polarization, environmental degradation, and social fragmentation: the belief that we are separate from one another.

During this past year we have taken significant steps forward.

- Our first Sacred Awakening Live brought members together in person for three days of embodied learning, connection, and shared commitment in Fort Collins, Colorado.
- We expanded our Summit model to engage wider audiences around timely topics, including conscious citizenship, emerging technologies, and creating everyday miracles.
- Steve Farrell released *The Inner Way: Reclaim the Truth of Who You Are and Why You're Here*, which reached Amazon's Top 100 Free eBook list in multiple categories, powered by our community-driven Street Team.
- Our growing Book Club, weekly Watch Parties, and live gatherings strengthened community bonds across our global membership.
- We stepped into leadership of a global, member-supported movement by strengthening the infrastructure of unity and community within our long-standing global membership platform. Our Stream+ platform now provides not only transformational education, but live and online gatherings, guided practices, and leadership development designed to translate awareness into action.
- In 2025 and 2026, tens of thousands engaged in our live and online gatherings, strengthening global connections and expanding our reach across communities worldwide.

These are not isolated programs. They are interconnected touchpoints within a larger ecosystem designed to help individuals move from insight to embodiment, and from embodiment to measurable impact.

A Member-Supported Movement

Humanity's Team operates on a simple principle: **a thriving world requires conscious participation, not passive consumption.**

We are member-supported, not advertiser-driven. Our content is guided by mission, not algorithms. Our growth is fueled by individuals who believe that unity, stewardship, and conscious living are not fringe ideals, but essential foundations for a flourishing future.

Our **One-for-One Scholarship** model ensures that every paid membership helps provide access to individuals and communities who would otherwise be unable to participate. For every member who joins, another individual gains access through One-for-One. Unity and Oneness are not just something we teach; they are built into how we grow.

Every membership strengthens:

- Accessible transformational education;
- Scholarship programs that expand access globally;
- Community gatherings that reduce isolation and foster belonging;
- Conversations that bridge science, spirituality, and psychology;
- Leadership development for a new era of planetary citizenship.

As you read this Impact Report, you will see tangible evidence of growth, engagement, and expanding reach. More importantly, you will see a community choosing to live differently and lead differently.

One Planet. One Humanity. One Future.

This inflection point is not the end. It is the beginning of a more integrated way of living.

We are not waiting for systems to change. We are cultivating the consciousness that changes how we live on this planet.

The Turning Point is not something we await. It is something we create through daily choices made by individuals, families, communities, and organizations around the world.

Together, we are building a culture rooted in connection, responsibility, and shared flourishing.

In 2026, that momentum is accelerating across our membership, our programs, and the communities we serve.

We invite you to explore this Impact Report and see what's unfolding.

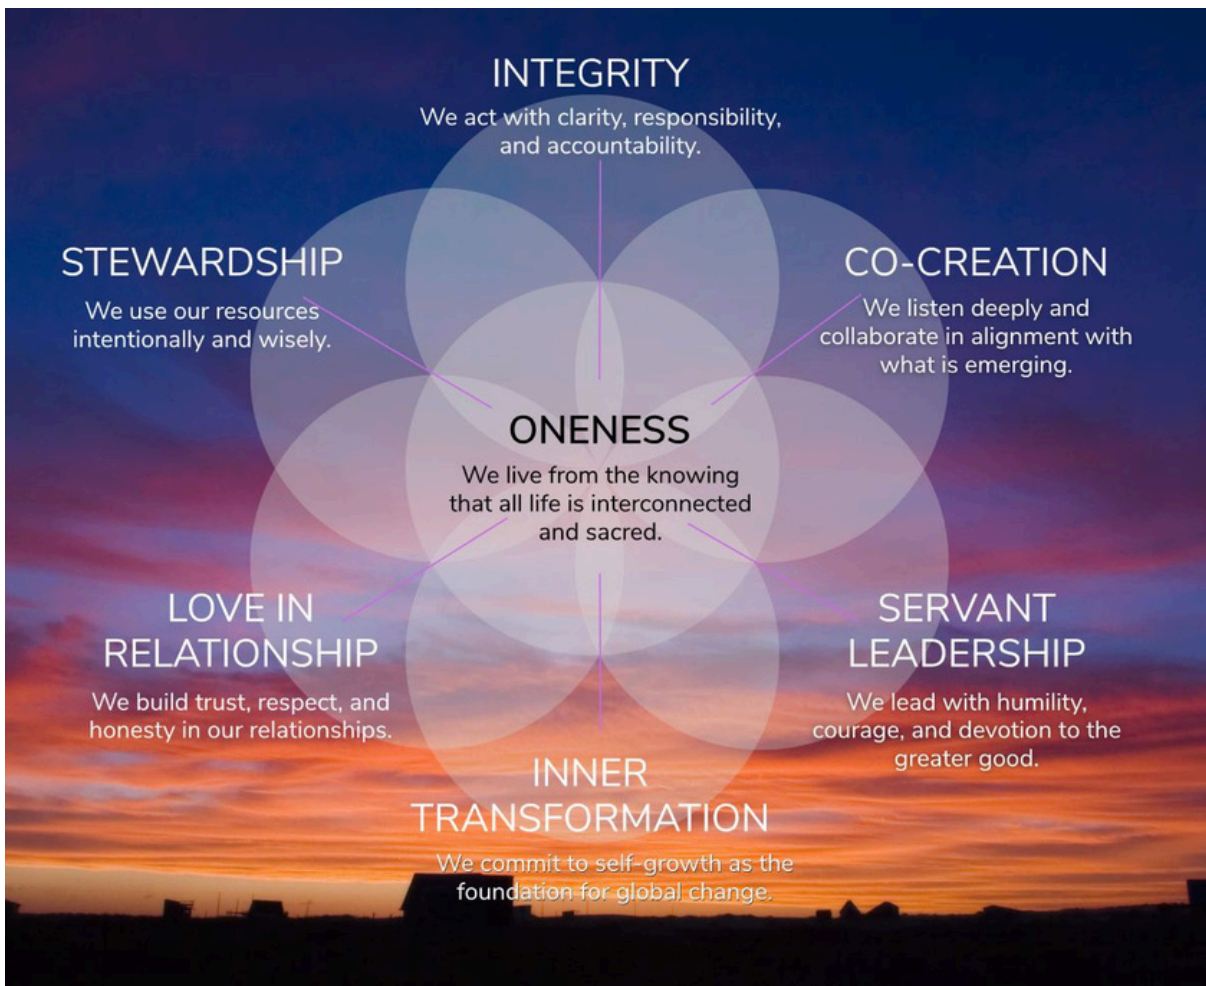

And if you feel called, we invite you to step in as a steward of this emerging way of living.

Together, we are the Turning Point.

OUR CORE VALUES

Shared values are the force that brings people together in service of something greater than any one individual can accomplish alone.

In a world where many experience overwhelm, constant stimulation, and disconnection, Humanity's Team stands for unity in action and cultivates inner stability in service to the common good.

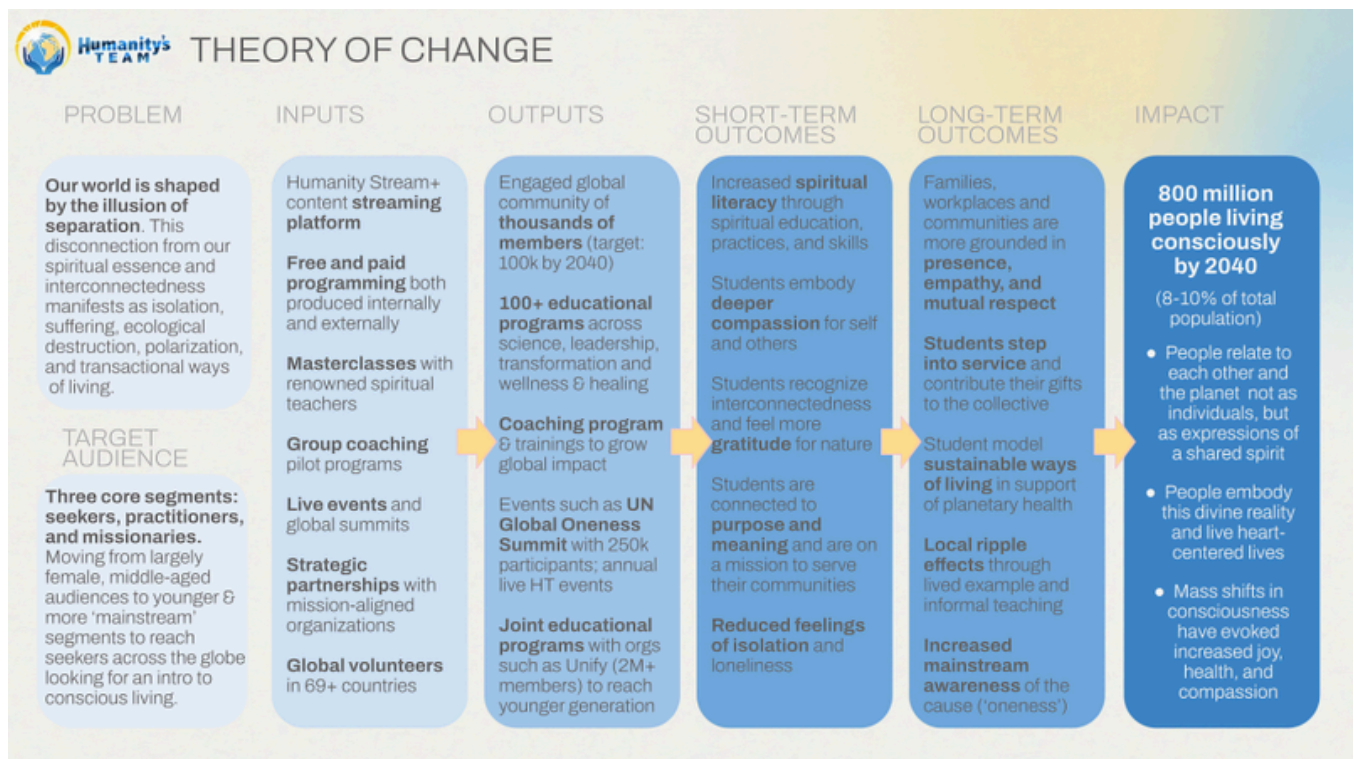

We are not saving the world, but tending it together.
Together, we are the Turning Point.

OUR THEORY OF CHANGE

At Humanity’s Team, we recognize the Illusion of Separation as a root cause of human suffering.

The remedy is people coming together to experience their underlying unity and then integrate the principles of conscious living into daily life.

As this way of living is sustained, it creates ripple effects that shape relationships, communities, and the broader human experience. Compassion, connection, and collective responsibility become the new normal.

Our work offers a pathway to living each day feeling grounded, awake, engaged, and alive.

Our goal is 800 million people living consciously by 2040.

Together, we are the Turning Point.

OUR PROGRAMS

The Essential Toolkit for the Conscious Evolution of Our Members and Our Species

The new global consciousness is emerging through each of us by how we live, relate, and show up each day. The programs of Humanity's Team strengthen the inner stability individuals need to step into their shared responsibilities as Planetary Citizens. Together, we are shaping a more connected, compassionate, and responsible future.

Humanity Stream+

Humanity Stream+ is a digital sanctuary and a home base for those committed to living consciously in a rapidly changing world. Here, members deepen their own growth while connecting with a global community rooted in unity, care, and shared responsibility.

Through Humanity Stream+, members have ongoing access to transformative teachings, live gatherings, and guided practices from respected teachers and trusted voices from science, spirituality, and psychology, designed to support clarity, resilience, and meaningful participation in daily life.

More than a content platform, Humanity Stream+ is a living, member-supported community, a place to engage, connect, and grow alongside others who are choosing to live differently.

It is where individuals move beyond insight into embodiment, stepping into a new identity, not as passive observers, but as active participants in humanity's conscious evolution.

One-for-One

Every member's participation extends beyond their own journey in the One-for-One program. For every Humanity Stream+ membership purchased, we provide a matching membership for an individual in an underserved or disadvantaged community who might not otherwise have the opportunity to access tools for conscious living.

Through One-for-One, Humanity Stream+ serves as both a personal resource and a collective pathway to global Oneness. As our members deepen in clarity, purpose, and connection, they help extend these benefits outward, supporting a broader movement toward shared growth and human flourishing. In this way, individual transformation and collective impact move forward together.

Summits & Masterclasses

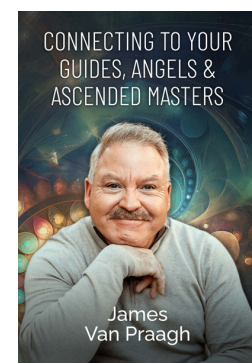

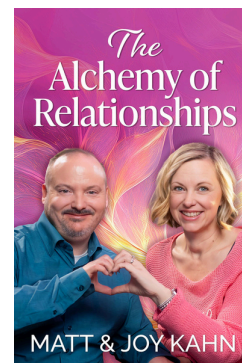

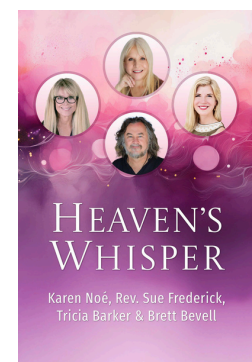

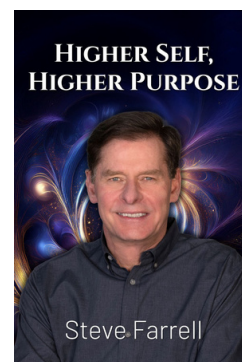

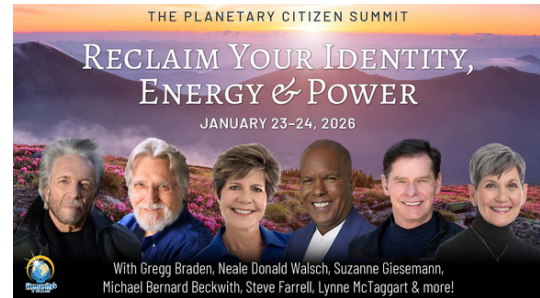

We offer live online experiences throughout the year where we bring together trusted voices from science, spirituality, psychology, and social change. Our masterclasses and summits provide practical guidance that supports emotional resilience, clarity, and meaningful participation in the world. Each of our programs moves the leading edge of consciousness forward in a unique way.

Our work with masterclasses and summits was given a boost in 2025 when Humanity's Team was gifted a state-of-the-art studio from which we now broadcast to the world.

In the 2025 timeframe, Humanity's Team created:

- *The Planetary Citizen Summit - Reclaim Your Identity, Energy & Power*
- *The First Global Summit for AI & Conscious Living - Soulful Productivity*
- *Higher Self, Higher Purpose* with Steve Farrell
- *Heaven's Whisper* with Karen Noé, Rev. Sue Frederick, Brett Bevell & Tricia Barker
- *Connecting to Your Guides, Angels, and Ascended Masters* with James Van Praagh
- *The Alchemy of Relationships* with Matt and Joy Kahn
- *Awaken Your Divinity* with Gregg Braden and Dr. Sue Morter

These summits and courses have had thousands of participants. Many are offered for free.

Live Events

In the spring of 2025, our community gathered in Fort Collins, Colorado for a transformative three-day experience, bringing together members, teachers, and leaders from across our global network.

Sacred Awakening Live offered something that cannot be replicated online: a shared, embodied experience of connection, presence, and collective growth. Participants didn't just explore these ideas, they lived them together.

Many described the experience as deeply moving, a space where they felt seen, supported, and reconnected to a greater sense of purpose. The impact extended beyond the event itself. Participants left with renewed clarity, a stronger sense of belonging, and a deeper commitment to living consciously in their daily lives.

Sacred Awakening Live is now a cornerstone experience, helping translate our mission into lived reality and strengthening the foundation of this growing global movement.

Left: Steve Farrell and Dee Meyer Above: Suzanne Giesemann

What participants had to say about the field of interconnection we experienced at Sacred Awakening Live:

"This is what we need at this moment in time. Each of us must do our individual inner work—reconnecting, re-grounding, and remembering. But just as important, we must come together in community.

In the spiritual traditions, we're reminded that awakening is not only personal—it's collective. The power of the Sangha is one of the greatest forces we have. When we gather, we strengthen one another, deepen our experience, and expand what becomes possible.

What I experienced here was a community deeply committed to conscious awakening—not just individually, but together. And from that shared awakening comes something even more powerful: a ripple effect that extends into the world through our actions, our presence, and the way we live.

I'm deeply grateful to Humanity's Team for creating such a sacred and meaningful space for this work to unfold."

– Sadhvi Bhagawati Saraswati

"From the very beginning, it was clear that this event was about more than inspiration—it was about creating an embodied experience of awakening.

What makes this gathering so powerful is the collective light each person brings. Every speaker, every participant adds something meaningful, and together it creates a field that truly uplifts and transforms.

My deepest hope is that people don't just leave inspired—but changed. That they carry this experience within them and step forward as light-bearers in their own lives, sharing that love, healing, and awareness out into the world.

This is how real change happens—through each of us, living and embodying that light, and allowing it to ripple outward."

– Stephanie James

"I discovered Humanity's Team last August through what felt like pure synchronicity, attending the event where Steve Farrell received the Oneness of Humanity Award.

From the moment I arrived, I felt there was a reason I was there.

What stood out immediately was the depth, authenticity, and heart-centered presence of the community. It's not like many other environments—there's a genuine commitment to living these principles, not just speaking about them.

The mission of Humanity's Team deeply aligns with my own path, and being part of that space felt like coming home."

– Ben Clark

Our community continues to gather live online for connection, learning, and celebration during each month of the year. We host watch parties, discussion groups, book groups, and membership events to strengthen the sense of belonging that fuels our shared mission.

Partner Spotlight

In 2025, Humanity's Team received extraordinary support from Evolve.org in the form of a \$50,000 non-recourse grant, which was the first of its kind for our organization. The Evolve grant helped us hone our Theory of Change, and also provided the resources to track and monitor ROAS (Return on Advertising Spent) across all social media platforms. The generosity and expertise of Evolve has helped us hone our advertising strategy and become even better stewards of the economic resources we hold in trust for the awakening of humanity.

Practice Challenges

Humanity's Team offers a range of interconnected programs designed to support the integration of conscious living into daily life. Among the most impactful are the Practice Challenges.

These multi-day, guided experiences are open to all and bring together hundreds of participants committed to practicing the principles of unity and conscious living in real time.

Through these challenges, participants develop practical skills to navigate their inner world with greater awareness. Our community learns how to relate to others with more compassion, and how to respond to the challenges of everyday life with increased clarity and intention.

The result is not just insight, but lived experience. Conscious living becomes something participants can embody and sustain through conscious practice.

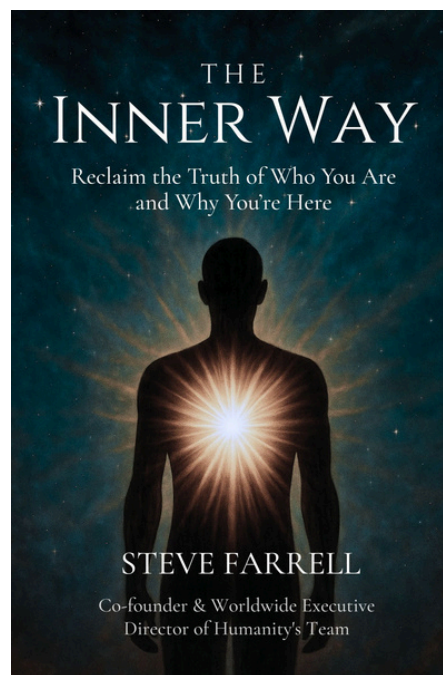

Books

Humanity's Team became a publisher in 2025, launching a book by Steve Farrell entitled *The Inner Way: Reclaim the Truth of Who You Are and Why You're Here*.

It is a practical guide to accessing and living in Oneness Consciousness.

The Inner Way reached the Amazon Top 100 Free eBooks within weeks of its release and has remained in the top 20 ever since.

Offering the book for free is our way of saying: "You Grow. We Grow. The World Benefits."

Our Global Oneness Summit

278,702 Attendees on Our Website ♦ 80+ Speakers ♦ 3 Days of Oneness

Since its inception, Humanity’s Team has hosted an annual Global Oneness Summit, offered freely to participants around the world.

The 2025 Summit, ***Awaken the Divine Within***, streamed from Friday through Sunday, October 24–26. The Summit was one of the most cohesive and well-attended gatherings in the organization’s history.

Thousands of participants from across the globe came together for a shared experience of learning, reflection, and connection at this Global Oneness Summit. The overwhelming positive response demonstrated both the growing demand for this work and the power of accessible, mission-driven programming.

Our annual global gathering continues to serve as a key entry point into the movement, inspiring individuals to integrate conscious living into their daily lives and deepen their ongoing engagement with Humanity’s Team.

The programs of Humanity’s Team are not “content.” They are invitations to practice and participate in an Ecosystem of Shared Humanity.

Together, we are the Turning Point.

“I originally joined for one program, Awaken Your Divinity, but what I discovered was an entire ecosystem of growth. The depth of wisdom, the quality of the teachers, and the sense of community are beyond anything I’ve experienced online.”
– Katrina

“My name is Marna Lameiro, and I am so grateful to be a member of Humanity’s Team and to have access to an enormous amount of information and inspiration whenever I want! I recommend joining the team to access so many wonderful videos and classes that can change your life for the better. I’m excited to grow and change through what I learn, even though I am a senior in my seventies! Thank you, Humanity’s Team!”

“I would like to thank you for offering me a space for hope, support, and growth. In these times, when some of us are forced to live in “lockdown” for safety reasons, having this space means a lot. Keep up the great work, and may it reach and bring light to many.”
– Identity Withheld by Request

“Humanity Stream+” is one of the most comprehensive and interesting spaces to explore when spiritual growth is a core value or when life’s challenges or finding meaning knocks at our door. For a polymath who considers herself a researcher of the soul, and has been forced to redirect her path a few times and confront beliefs and perspectives, Humanity Stream+ has offered me a “magic library” of well-curated and trusted teachers to help me integrate fresh views or satisfy my curiosity and love for learning. I like that the platform is “quiet”, in the sense of mature and respectful, no pressure, just invitation, which appeals to introverts like me.”
– Esther

Staff Spotlight

In 2025 Humanity's Team honored Nannette Kennedy with a Lifetime Volunteer Achievement Award for her extraordinary 18 years of devoted service.

Nannette has been a quiet yet powerful presence within our global community, consistently offering her time, energy, and care in support of a world rooted in Oneness and conscious living. Her unwavering commitment reflects what it means to live consciously: showing up with an open heart, serving something greater than oneself, and uplifting others along the way.

Through nearly two decades of steady contribution, Nannette has helped plant seeds of transformation that continue to ripple outward, inspiring all of us.

The Humanity's Team Teachers

Showers of the Way

"Humanity's Team has been a lifeline over these past decades in my life. It's like a friend you can tap into at any time you need a "pick me up" when the world seems to be spinning off course. The "library" of available content and the plethora of wonderful providers of that content, with their diverse skills and knowledge, are such a treasure.

Neale Donald Walsch emboldened this journey for me decades ago with CWG book 1. And people like Gregg Braden have added to that. Many of the other presenters are companions on a 40-year journey of exploration that has been my life. It's just confirmation for me that this is where I am meant to be, and it is truly a gift that keeps on giving. Blessings to them all and to all of us who have found them on our path. They are a true "lifeline".

- Pat Lynch Lehrmann

"I am so grateful for the work of this organization. My husband and I are learners and were drawn perhaps by different presenters. We have found the offerings beyond comprehensive.

I can say that the handful of people I have been most impacted by have, indeed, changed my life and offer hope, inspiration, reassurance, and uplift in the midst of these challenging times. It is so heartening to know that we are a part of a movement working on humanizing the planet, and we each work in our own particular sphere.

When we need an uplift, a refresher, or something to keep us "on track," we know where to turn and that the possibilities are endless."

- Linda and John

Volunteers Living Oneness Throughout the World

Together, we are the Turning Point.

2025 By the Numbers

Numbers tell an important story, but not the whole story. In traditional business, they often point to a single outcome, the bottom line. In the transformational education space, most organizations are structured to generate profit for shareholders and investors.

Humanity’s Team is different.

We are not a corporation with a bottom line. We are a nonprofit with a deadline— to make conscious living prevalent worldwide by 2040.

For more than two decades, we have operated as a mission-driven, entrepreneurial organization, focused not on maximizing profit, but on expanding impact. We do not answer to advertisers or corporate interests. We answer to our members and to our mission.

2025 Financial Information

Total revenue	\$1,216,660
Revenue from operations	825,744
Donations Received	387,873
Total operating Expenses	1,588,414
Cash reserve at year-end 2025	481,265

Nancy Harris

From Our Co-Founder & Worldwide Executive Director, Steve Farrell

Dear friend:

Humanity's Team is a global nonprofit dedicated to cultivating unity, well-being, and responsible action in a rapidly changing world. At a time when many feel overwhelmed, disconnected, or uncertain, we help people rediscover a sense of grounding, belonging, and shared purpose. We support inner stability alongside collective responsibility, recognizing that a more compassionate and sustainable world emerges through how we live, relate, and choose each day.

At the heart of our mission is a simple truth: humanity is not separate. We are interconnected, expressions of a deeper Oneness that connects us all. When this understanding is lived, it transforms how we relate to one another and how we respond to the challenges of our time, from division and conflict to climate disruption and systemic inequity.

For more than twenty years, we have translated this awareness into practical, measurable action. Through education, global events, and community-based programs, we support individuals and communities in moving from isolation toward connection, and from fragmentation toward a lived experience of Oneness and shared responsibility. Our work is inclusive, non-religious, and grounded in both timeless wisdom and modern science.

Humanity Stream+ is the sustaining home of this work, a membership-based digital sanctuary for ongoing learning, connection, and shared practice. Through Humanity Stream+, members grow within a global community committed to unity, care, and conscious action, while directly supporting our free programs and global initiatives.

Membership is an act of stewardship. Each membership also helps extend access to individuals in underserved or disadvantaged communities, allowing this work to reach those who might not otherwise have the opportunity. In this way, personal growth and collective flourishing move forward together, reflecting the deeper truth that we move forward as one.

Humanity's Team stands for Oneness in action, inner stability in service of the common good, and a global community shaping a more connected and compassionate future.

I invite you to join us, as a member, a supporter, or both. Your participation helps expand this work at a time when it is needed most.

Together, we are the Turning Point.

In Oneness and Appreciation,

Director

OUR MISSION & VISION

Our mission is to advance conscious living worldwide so humanity and the Earth can flourish together.

We envision a world where humanity lives as one—expressing our highest potential and caring for each other and the Earth.

In this world, separation gives way to belonging, fear to compassion, and exploitation to regeneration.

Through the widespread practice of conscious living, humanity reaches a tipping point that heals divisions, restores the planet, and aligns our systems with life—so that by 2040 and beyond, all people and all beings can thrive together on a just, peaceful, and flourishing Earth.

Be part of the turning point.
