

A Special Season – A Special Company

By Stephen Hannemann

T'was the week before Christmas, and all through the pub, every employee was stirring, all filled with grub! And a little libation. So was the scene at the annual 3D Plastics Christmas party.

On December 17, 3D hosted their annual Christmas gathering for their employees to usher in the new year. One of the many important attributes of 3D Plastics is their emphasis on a positive company culture. The 3D culture is continually evolving with a genuine respect for people, customers, and fellow employees alike. That is probably the single most important quality that bolsters customer loyalty. It also translates to continually improving quality and on-time delivery. Contented employees enjoy taking care in producing useful products! This Christmas my wife Yvonne and I experienced the joy of 38 happy 3D employees and families and a tremendous amount of gratitude.

fill this page with text, included are photos of the folks who celebrated the 3D culture this Christmas. Enjoy!

For all your injection molding and development needs visit 3d-plastics.com or call 503.537.0979.
