

"Well behaved women rarely make history" - Eleanor Roosevelt

International Women's Day

March is Women's History Month, a time to highlight the contributions of women to events in history and contemporary society. Today specifically is International Women's Day, but at the WNY Women's Foundation, we believe that every day is International Women's Day.

We work hard every day to advocate for social change, lead community progress, convene influential partners, research and educate on issues impacting women, invest in single mothers and empower adolescent girls. We do this because we know that when women lead, communities succeed.

IMPACT GRANTS

We invest in adolescent girls because we believe that when they have access to STEM programs and can build self-esteem and confidence, they grow into strong, determined leaders.
