LA TRADIZIONE DELLA BELLEZZA

*La Tradizione
della Bellezza*

STUCCHI
DECORATIVI
IN GESSO

Da oltre trent'anni **Stucchi Idea srl** progetta e realizza stucchi, elementi decorativi su disegno in gesso armato e controsoffitti in ogni stile, per **soddisfare le esigenze** di Architetti, Arredatori e Privati.

Essa **conserva e tramanda** negli anni una tradizione attraverso l'esperienza manuale e creativa dell'**Arte del Modellare** affinché Stucchi Idea rimanga un'azienda leader nel settore, sia per la formatura e la creazione

dei prodotti eseguiti nel "nostro laboratorio", sia per l'esecuzione accurata e scrupolosa della posa in opera eseguita con personale specializzato, al fine di **garantire** quella **qualità totale** a cui la nostra ditta da così tanti anni si ispira.

Da molti anni Stucchi Idea, per la cura dei suoi prodotti e la sua esperienza, è stata scelta come espositore ufficiale della Fiera di Roma "**Casa Idea**".

La Passione che diventa Tradizione

La realizzazione dei nostri manufatti decorativi ed architettonici viene effettuata **completamente a mano da esperti decoratori e modellatori**. Gli elementi decorativi, grazie alla loro **adattabilità**, possono essere modellati nelle forme più diverse affinché concorrano alla **sistematica decorazione degli ambienti**.

Frutto di una **accurata ricerca estetica**, i nostri prodotti permettono il loro impiego in ambienti dal **gusto classico**, ma anche con uno **stile moderno** che ne esalti l'ecletticismo e la fantasia.

Dalla **perfetta sinergia tra esperienza e ricerca** nasce oggi **PLASTER OUT**, un materiale **forte e durevole**, anch'esso ecologico con il quale la Stucchidea ha superato ostacoli che per il gesso semplice sembravano insormontabili. Infatti il Plaster Out viene realizzato con caratteristiche che gli consentono, all'interno di **resistere agli urti**, e all'esterno di **sopportare l'azione degli agenti atmosferici**.

Il nuovo materiale in fibra di vetro che resiste al gelo, agli urti ed al calore

Plaster Out è il frutto di un'accurata ricerca che unisce alla **qualità del dettaglio** numerosi vantaggi tecnici, perchè può essere realizzato con diversi sistemi strutturali, che gli conferiscono **leggerezza** per quelle applicazioni in alto come nel caso di mensole e cornici, o **pesantezza** ove richiesto, se da utilizzare per colonne e basamenti. Infine, dettaglio non trascurabile, è da ricordare che il Plaster Out, può essere rifinito con **qualsiasi tecnica pittorica** e l'effetto finale è **sempre garantito**.
