

WickRight Double Caulk Pocket 3-Piece Metal Counter Flashing

Function: Protects **WickRight Low-Slope Roof Perimeter Vent** from moisture intrusion when Roof Perimeter Vent is installed at the roof to wall intersection of a parapet wall and low-slope roof **without** WickRight parapet vents installed on top of the parapet.

- **Material:** 26-gauge Stainless Steel
- **Lengths:** Sold in 10-foot lengths
- **Pricing:** Call for quote
- **Custom Options:** Kynar-painted galvanized steel or Copper, call for quote
- **Available in Kits:** #4 with **WickRight Low-Slope Roof Perimeter Vent** and **WickRight Bug Screen** on WickRight.com/store

Installation:

- Install above **WickRight Low-Slope Roof Perimeter Vent**.
- Install masonry and metal compatible sealant in both caulk pockets to protect the low-slope roof vent
- Install **WickRight Bug Screen** to prevent insects from entering Roof Vent.

Requirements:

- Purchase and install same length of **WickRight Bug Screen** – position as shown in drawing, (sold separately or in kit)

Resources: Installation guide available at WickRight.com
