Transform Your Document Processing with AI-Powered Automation

Stop Wrestling with Manual Document Processing

Is your team drowning in invoices, contracts, and forms? Spending countless hours on manual data entry while errors slip through the cracks? CAPSYS AcuityAI™ eliminates the bottleneck, transforming your document chaos into streamlined, intelligent workflows.

What is CAPSYS AcuityAI™?

CAPSYS AcuityAI™ is an advanced artificial intelligence engine that supercharges CAPSYS CAPTURE ONLINE with cognitive automation capabilities. Purpose-built for highly-structured and unstructured content from any source—email, fax, mobile uploads, APIs, IoT Smart Connected and TWAIN scanners.

The Result? Your documents work for you, not against you.

Immediate Business Impact

BENEFIT	WHAT THIS MEANS FOR YOU
Reduce processing costs by up to 80%	Greatly reduce or entirely eliminate manual data entry and indexing
Accelerate invoice processing	Complete AP, Claims, Underwriting, etc. workflows in minutes, not hours
Achieve 99%+ accuracy	AI-driven validation catches errors humans miss
Real-time visibility	Track every document through your workflow
Automatic compliance	Built-in audit trails and secure cloud access
Scale without limits	Handle 500 or 50,000+ documents monthly

CAPSYS®
TECHNOLOGIES, LLC

Five Powerful AI Solutions in One Platform

CAPSYS|AcuityAI EXTRACT™

SMART DATA EXTRACTION
- Pulls precise data from any document type using advanced OCR/ICR and machine learning
- Handles structured, semi-structured and unstructured content
- Intelligently identifies important data using context, not templates

CAPSYS|AcuityAI CLASSIFY™

INTELLIGENT DOCUMENT RECOGNITION
- Automatically identifies and categorizes documents by type, layout or business process
- Sorts mixed document batches without human intervention
- Routes documents to appropriate workflows instantly

CAPSYS|AcuityAI INVOICEEXTRACT™

PRECISION INVOICE PROCESSING
- Captures header, footer, and line-item data with surgical precision
- Purpose-built for B2B Accounts Payable operations
- Integrates directly with your ERP and financial systems

CAPSYS|AcuityAI INSIGHT™

AI-POWERED DOCUMENT INTELLIGENCE
- Uses Retrieval-Augmented Generation (RAG) to surface relevant information
- Generates contextual summaries and data-driven insights
- Transforms unstructured content into actionable intelligence
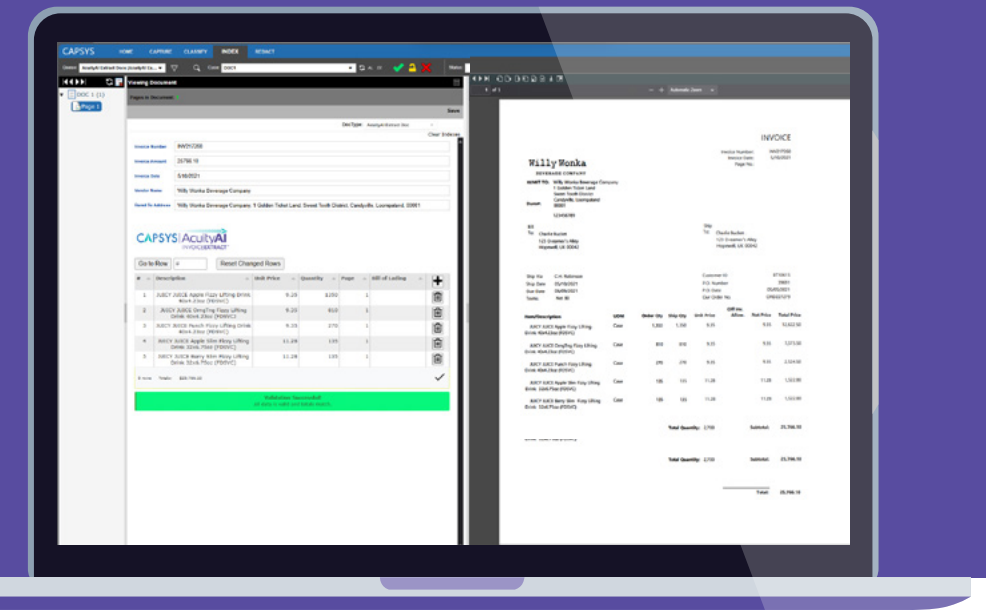

CAPSYS|AcuityAI STUDIO™

CUSTOM AI SOLUTIONS
- Build tailored AI models for your specific use cases
- Low-code development environment
- Future-proof your investment with extensible architecture

REAL-WORLD SUCCESS STORIES

"Whether you're processing 500 invoices or 50,000 claims monthly, CAPSYS AcuityAI™ transforms document processing challenges into automated, intelligent workflows."

COMMON USE CASES

HEALTHCARE
Claims processing, patient records, insurance forms

FINANCE
Invoice processing, loan applications, compliance documents

MANUFACTURING
Bills of lading, purchase orders, quality certificates

GOVERNMENT

1

SCHEDULE A DEMO
See CAPSYS AcuityAI™
in action with your documents

2

PILOT PROGRAM
Start with a
focused use case and
scale from there

3

FULL DEPLOYMENT
Transform your
entire document
processing operation

ABOUT CAPSYS

CAPSYS® is a leading provider of AI-driven Intelligent Document Processing, Scanning, Fax Capture and Email Capture solutions designed to streamline the process of acquiring structured, semi-structured, or unstructured documents and information helping our customers go fully digital to transform their business. The company's primary product, CAPSYS CAPTURE ONLINE™ coupled with CAPSYS AcuityAI™, can easily and efficiently capture documents for organizations of any size and volume from anywhere at any time using any IoT Smart Connected Scanning or TWAIN enabled web scanning devices in both centralized and distributed document capture environments. CAPSYS solutions are offered as a subscription-based cloud service by way of Microsoft Windows Azure Data Centers—Commercial or Government Editions—or as a traditional on-premises deployment.
