

INFuse Smart Connected Scanning Solution – CAPSYS® CAPTURE ONLINE

New connections for smarter work

The INFuse Smart Connected Scanning Solution, powered by CAPSYS CAPTURE ONLINE, can boost productivity and transform the way you work in multiple, positive ways. Driverless and PC-less, it sits at the front edge of your processes and is designed to efficiently onboard content into your specific business process. Now you can directly import documents and information and send them exactly where you like, while receiving real-time acknowledgment at the point of scanning. Spend less time managing documents and more time managing your business.

Thanks to immediate exception notifications, missing forms, signatures, and other critical information issues can be caught and corrected instantly, saving you money and enhancing employee productivity. Using our customized connectors, easily scan to CAPSYS CAPTURE ONLINE. The INFuse Smart Scanning Solution improves how your business deals with important information – in-house or in the Cloud.

It's smart

- Simply scan one set-up sheet and you're up and running
- Access automated workflows
- No end-user training required
- Get finished image files directly from your scanner
- Intelligent barcode reading and Security Pin access

It's connected

- Continuous monitoring with notifications
- Accurate delivery of data and metadata
- Seamless integration with your applications
- No on-site PC or software required
- Outgoing fax

It's scalable

- Cloud-ready
- Modern, scalable architecture
- Enterprise-level security
- Tightly integrated with CAPSYS CAPTURE ONLINE
- Remotely managed by CAPSYS Technologies, LLC
- 3 flatbeds available for specialty media and for exception processing.

From logistically challenging and slow... to fast, efficient, and secure: an INFuse Smart Connected Scanning Solution success story

Challenge

For a large food distributor with on-premise commissary, paperwork is everywhere – much of it is mandated to maintain HACCP and FDA compliance. Extensive documentation is needed on everything from food safety inspections to damaged goods, driver's checklists to proof of deliveries and much more. Paperwork builds continuously as the chain operates multiple locations and warehouses, and delivers to grocers, restaurants, airlines, and other customers along the Eastern Seaboard.

Solution

To digitize this tsunami of paper and automate workflow, CAPSYS Technologies worked with Kodak Alaris to create a customized solution. A CAPSYS CAPTURE ONLINE connector was installed on the food distributor's INFuse AX Scanner to streamline document capture and distribution. With this new solution, the food distributor has slashed document-handling time from 40 to just 10 hours a month!

Results

1. Customization for the way the distributor operates

An employee at the distributor needs to process invoices daily. He simply walks up to the INFuse AX Scanner and loads over 100 invoices into the feeder at once.

2. Daily work simplified with greater peace of mind

The employee pushes the "Invoice Scan" button and all invoices go directly and securely into the banking system. He is promptly given feedback if the job was successfully received. The job is done and he knows it's been completed properly.

3. Faster, more efficient workflow achieved

With the CAPSYS CAPTURE ONLINE connector, daily scans now take just seconds to complete, allowing the employee to move onto other tasks.

4. Business processes accelerated

The distributor's custom CAPSYS CAPTURE ONLINE connectors have streamlined AP, AR, food safety inspection, and other critical business processes. They've also cut operational costs, enhanced employee productivity, and further solidified the firm's documentation for HACCP and FDA compliance.

INfuse Smart Connected Scanning Solution

Kodak INfuse Management Software supports integration, device provisioning, monitoring and fleet management, while enabling bi-directional communication and rules-based exception handling defined by the business process.

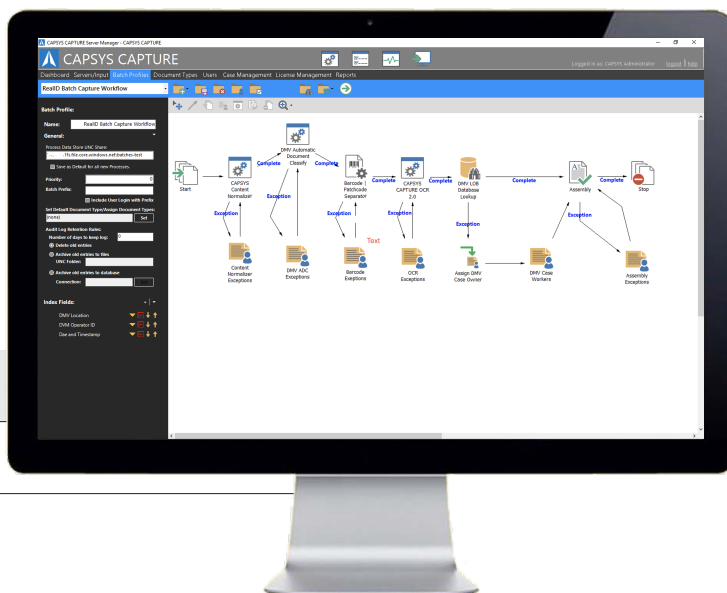

The result is easy integration into a secure, flexible, and expandable solution. One that features separate data and control channels and best-in-class image quality.

Kodak INfuse Management Software Environments

Features

Environments Supported - Requires a Microsoft Azure Cloud.
Amazon Cloud (AWS). Alibaba. Windows Server 2019.

Note: No image data is ever sent to management application; image data is separate from configuration/management controls.

Kodak INfuse AX Scanner Specifications

Features

Throughput Speeds ¹	Black-and-white/grayscale/color: up to 80 ppm/160 ipm at 200 and 300 dpi
Recommended Daily Volume	Up to 8,000 pages per day
Feeder Capacity	Up to 80 sheets of 80 g/m ² (20 lb.) paper Handles small documents such as A8, ID cards, embossed hard cards, and insurance cards
Power Consumption	Off: <0.5 watts; Sleep mode: <5.0 watts; Running mode: <36 watts
Electrical Requirements	100-240 V (International); 50-60 Hz
Connectivity	Wireless Network 802.11 b/g/n and 10/100 Ethernet (DHCP only) WLAN Security, WPA-PSK, WPA2-PSK
Environmental Factors	EPEAT Registered ENERGY STAR Qualified Operating Temperature: 10-35° C (50-95° F) Operating Humidity: 15% to 80% RH
Dimensions	Weight: 3.3 kg (7.2 lbs.) Depth: 204 mm (8.0 in.), not including input tray and output tray Width: 312 mm (12.3 in.) Height: 182.5 mm (7.2 in.), not including input tray Depth with input tray 269 mm (10.6 in.) Height with input tray 231.6 mm (9.1 in.)
Approval & Product Certifications	AS/NZS CISPR 32 (Class B RCM mark), CAN / CSA - C22.2 No 60950-1 (TUV C mark), Canada CSA-CISPR 32 / ICES-003 (Class B), China GB4943.1; GB9254 Class B (CCC S&E mark), EN55032 ITE Emissions (Class B), EN55024 ITE Immunity (CE mark), EN60950-1 (TUV GS mark), IEC60950-1:2005, Taiwan CNS 13438 (Class B); CNS 14336-1 (BSMI mark), UL 60950-1 (TUV US mark), CFR 47 Part 15 (FCC Class B)
Accessories (Optional)	Kodak Passport Flatbed Accessory, Kodak Integrated A4/Legal Flatbed Accessory, Kodak A3 Size Flatbed Accessory

Disclaimer

1. Throughput speeds may vary depending on your choice of driver, application software, operating system, and selected image processing features.

CAPSYS CAPTURE ONLINE can be customized for many industries and applications

Retail
Invoicing

Healthcare

BPO/Service
Bureaus
