

The Millstream Group is pleased to announce the introduction of a new range of high purity White Oils and Petrolatums.

The new White Oil range will initially include the following product grades:-

- MillPharm White Oil 15
- MillPharm White Oil 68
- MillPharm White Oil 100

The above white oil grades are pharmaceutical & food grade white paraffin oils and are manufactured to meet the global requirements of the USP Pharmacopoeia, BP (British Pharmacopoeia), & Ph.Eur (European Pharmacopoeia). They also meet the requirements of US FDA 21 CFR 172.878 and CFR 178 3620(a). It is expected that these grades will arrive into our warehouse over the next few months.

For pharmaceutical grade petroleum jellies/petrolatums, we have introduced the following grade which has just recently arrived into Australia and is available from our Brisbane warehouse:-

- Snow White Petrolatum BP/USP

If you have interest in any of these products please let us know and we can provide additional information.
