

STI Thermostat Protectors

STI-9102

STI-9115

STI-9105

Holes in the frame allow
air to circulate freely

PRODUCT OVERVIEW

Thermostat Protectors help prevent vandalism, damage and tampering of thermostats and energy sensors. Moulded in clear, heavy-duty polycarbonate material, these protective covers are recommended for areas where misuse and vandalism to thermostats and energy sensors may result in an irritating and expensive problem. Holes in the frame allow air to circulate freely for proper operation of the thermostat, but an interior wall prevents any tampering to the controls with a small object. The covers are aesthetically appealing and easy to install. Suitable for flush or surface mounted applications.

HOW IT WORKS

Thermostat Protectors retrofit over the existing device and provide protection from unwanted use. For added protection against abuse, they come complete with a lock and key assembly, and are supplied with a full fixing kit.

KEY FEATURES

General Information

- Thermostat Protectors help prevent vandalism, damage and tampering of thermostats and energy sensors.
- Three year guarantee against breakage of polycarbonate in normal use.

Design

- Tamper resistance double wall design allows airflow to the protected device.

Construction

- Moulded of clear, 1/8" thick, heavy-duty polycarbonate.

Installation

- Retrofits over the protective devices, selected models are available with spacers for extra depth.
- Typical working properties of polycarbonate are -40°C to 121°C (-40° to 250°F)

Options

- Models are available with locks, ideal where thermostats are located in public areas.

STI Thermostat Protectors

Dimensions and Technical Information

MODELS AVAILABLE

STI-9102	Small Thermostat Protector, flush mount with frangible lock
STI-9105	Medium Thermostat Protector, flush mount with key lock
STI-9110	Large Thermostat Protector, flush mount with key lock
STI-9115	Circular Thermostat Protector, flush mount, clear - with tamper screws and bit
STI-9116	Circular Thermostat Protector, flush mount, clear - with standard mounting hardware

Accessories:

KIT-905	30mm spacer (for the STI-9105)
KIT-901	50mm spacer (for the STI-9105)
KIT-900	50mm spacer (for the STI-9110)
KIT-H18053	Extra key for Thermostat Protector (for the STI-9105 and STI-9110)
KIT-H19016	Key tool (for the STI-9102)
