**Conference Room**

**6:30-8:00 p.m.**

**Led by Jared Vos**

Snowflakes are made up  
of tiny, water particles and  
may take on a hexagon  
shape/pattern because of how  
small amounts of water freeze.

Each snowflake takes  
a different "path" in  
forming as they fall  
from the clouds.

The smallest snowflakes  
may be "As tiny as a single  
human hair and  
as large as 15 inches long."

According to the  
Library of Congress:

"It is almost  
impossible for two  
snowflakes to be exactly  
alike due to changes  
in temperature  
and humidity, which affect  
their size and shape."

God is the "architect" who  
created and creates unique  
snowflake designs.

**Psalms 147:16:**

**"He spreads the snow  
like wool  
and scatters the frost  
like ashes."**

**Isaiah 55:10:**

**"As the rain and the snow come  
down from heaven,  
and do not return to it  
without watering the earth and  
making it bud and flourish, so  
that it yields seed for the  
sower and bread for the eater..."**

Care groups usually meet  
Monthly in various locations.
