

3M x 2M fixed glass cutting table

Our cutting tables are made to suit standard glass stock sheet sizes, or the space available in the customers factory. This 3M long x 2M wide fixed cutting table has quality fire retardant felt and a timber edge to the table for ease of breakout. The castors with brakes enable the users to reposition the table around the factory (such as under a freefall or in storage when not needed).

- 3M long x 2M wide x 880mm tall
- Built solid to suit freefalling
- Quality fire retardant felt top for ease of positioning glass for cutting
- Hardwood timber edging shaped to suit breakout of scribed glass
- 4 off swivel castors each rated for 460kgs, two with brakes
- Welded construction
- Painted finish
- Designed and fabricated here in Australasia
- See www.theglassrackingcompany.com for other glass cutting table solutions
