

4Mx2.5M Large L-frame factory trolley

This general purpose L-frame factory trolley is designed for storage and movement of large glass and window items around your factory. All bearing surfaces are clad in our non-marking inserted polymer to reduce the risk of damage and scratching to the load. 8 off quality 150mm castors rated at 460kgs each ensure ease of movement around your factory and longevity.

- L-frame design
- 4000mm long
- 2500mm high with the ability to overlap
- 8 turning quality 150mm 460kg rated castors
- 4 cubic metres of glass capacity
- Single 400mm ledge
- 7 horizontal supports
- 8 base blocks on the ledge
- Hot dip galvanised finish
- Metalcraft non-marking polymer bearing surfaces, inserted with end caps
