

MOBILITY

Scooters & Powerchairs

“The Choose at Home Specialist”

Why buy from Churchill Chairs?

**We supply Proven Products from the World's leading manufacturers in Mobility Scooters
First-Class Support, a Friendly Caring Service**

We are a trustworthy family business with a strong customer service ethos.

**Our values are not only essential to the day-to-day running of our business
but also form the backbone of our reputation.**

You can trust our experienced team with over 30 years of experience in mobility to provide you with the best advice when choosing your first or next mobility scooter. Whether you visit one of our shops or we visit you so you can choose at home and have a **Free** No Obligation home demonstration, in fact, you can even see if it fits in your car boot or wherever you are thinking of storing your scooter.

You will find us warm and friendly whenever we serve you. Our aftercare is where we truly shine, offering a **Free** annual service saving you £75.00 annually, **Free** annual valet, **Free** loan scooter if yours is in the workshop. **Free** first month's insurance(optional) **Free** saddle bag, **Free** puncture proofing worth £85.00 on scooters with pneumatic tyres. **Free** loan travel scooter if you are going on holiday, when you buy a model that can't travel.

We offer great **PART-EX** allowances for your old scooter, and when you trade in your Churchill scooter, we will give you an excellent trade-in allowance in recognition of your loyalty. We offer only the best models, selected for reliability, durability, quality, and value for money. We only sell Scooters that meet these standards.

- **Thousands of Happy Customers**
- **Free delivery, set-up & training**
- **Good old-fashioned service**
- **5 Stars on Google**
- **Not all mobility scooters or dealers are the same !**
- **All our scooters have a pre-delivery inspection**
- **We have hundreds of recommendations**
- **Carefully selected mobility scooters**

Our Mobility Scooter Range

Introducing our safest, lightest scooters, Folding, Pavement, Road legal, Powerchair and country mobility scooter range – ever!

Designed for you, our Range supports you and helps you keep your independence and freedom.

Carefully selected mobility scooters (There are many makes and models we will not sell)

Selected for their reliability, durability, quality, and value for money. We only sell Scooters that meet these standards. You can trust our experienced team with over 30 years experience in mobility to only offer the best.

Expertly designed and crafted

Our Lightweight scooters/ powerchairs are expertly crafted of Carbon fibre, Magnesium alloy and Aeroplane -grade aluminium alloy, which offers towering strength and performance.

Our larger scooters may combine some of the above, but include premium-grade steel so you can be sure you are buying a robust scooter with a long life ahead of it to serve you well.

Our trusted partnerships with the world's leading manufacturers mean you're in safe hands.

Choosing a mobility scooter is an important decision, and it really matters where you buy it from. While some scooters, especially those sold online, may look similar or even the same. The difference is often in the detail.

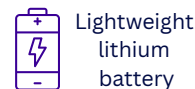

Will you receive reliable aftercare and ongoing support? How will your scooter be serviced in the future? Not all scooters are built to the same standards. Will it last? Will you get the same support we would give you? Will your scooter be fully checked and inspected before you use it?

Quality components matter!

Safe, high-grade batteries, strong and dependable motors & gears. Solid construction and availability of spare parts are what we look for when we choose our range, so your new travel companion serves you well.

Kind regards

Lee Calvert M.D

Viva

The Viva offers excellent value for money. With a comfortable 4mph ride, a range of up to 10.3 miles, and a tight turning circle for great manoeuvring, it's perfect for daily trips with family and friends.

Lightweight and easy to take apart, it fits neatly into your car boot, making transport simple and stress-free, all without the high price tag.
