OPTION -AP

Auto-Purge
Function Controller

Murdock Manufacturing offers option -AP, the Auto-Purge Function Controller, as an add-on to BF12S and BF16S plug-in bottle fillers. These products feature an Auto-Purge Sensor which allows adjustment of Purge Cycle, Sensor Range and Lock-out functions. The -AP Sensor Function Remote Controller provides for adjustment of the Auto-Purge Timing Cycle, Infrared Sensor Detection Range and Activation Lock-out settings.

Custom Colors & Logos

Whether you want to
blend in or stand out,
Murdock's Custom Colors
is the solution for you!

A171408S-UG-BF12S-BCD-EG22

POWDERCOATED LOGOS

For a look that's more personal, we can integrate powder coated logos, colors and decals on most any Murdock® unit. Simply provide us with your team, company or personal logo for a truly unique drinking fountain.

STANDARD FINISHES

Visit www.murdockmfg.com to see all available color and finish options for our products. Finishes not available on every product.

CUSTOM/MATCH FINISHES

Looking for a specific color to match an existing wall or color pattern? No problem. Murdock has the unique ability to match all Drinking Fountains, Water Coolers and Bottle Fillers to any Pantone® color swatch. Color match your unit so that you don't have to design your space around it... make it a part of the room!

Thirsty for some color?

Custom color powder coats bond with Murdock's seamless drinking fountains and bottle fillers for an eye-catching alternative that is built to last.

murdock
Filter Cartridge
7012-347-000

Maximum Flow	1.5 GPM
Maximum Pressure	125 PSI
Maximum Temperature	120°F
Service Life	3000 Gallons

NOTE: DO NOT USE WHERE THE WATER IS MICROBIOLOGICALLY UNSAFE OR OF UNKNOWN QUALITY WITHOUT ADEQUATE DISINFECTION BEFORE OR AFTER THE UNIT

NOTE: INSTALL IN COLD-WATER APPLICATIONS ONLY

NOTE: ITEMS 1 THROUGH 3 ARE NOT REQUIRED WHEN REPLACING THE CARTRIDGE HOUSING

- 1. Shut off water supply.
 - 2. Turn the flow direction of the filter.
 - 3. For quick connection: Rotate push screw to the left and pull the filter out of the housing.
 - 4. After replacing the cartridge, simply attach the push screw to the right and check for leaks. If leaks occur, stop step 3. If leaks persist, discontinue use and call your servicing dealer.
 - 5. Run 2 gallons of water through the filter before use.
- OR REPLACEMENT UNIT**
Call 1-800-453-7465

NOTE: INSTALL IN COMPLIANCE WITH LOCAL AND STATE REGULATIONS

Rated by NSF to NSF42 for lead reduction and NSF401 for microplastic reduction.

Model No. BF12

Model No. BF12S-BCD

Replace your Bottle Filler!

- No need to drill new holes! SpringH2O® and H2O-To-Go® bottle fillers match the hole configuration of many existing bottle fillers—including select competitor models.
- Compatible with many existing water cooler models
- Rough-ins match existing models for easy installation
- Bottle Counter Display (optional) shows how many 16-oz water bottles were saved

Number of Parts

OURS: Only 27 parts

THEIRS: 60+ parts

Replace your Water Cooler with an A17 Series!

- Universal Bracket is compatible with several popular water cooler brands
- Reuse the existing mounting bracket and screw patterns

Single Mechanical Button

OURS: Single mechanical button with no complicated maintenance.

THEIRS: Three electronic buttons that can complicate maintenance.

Replace the Filter with Ease

- EZ Door™ filter allows replacement in four quick steps - unlatch door, remove filter, insert new filter, latch door
- No removing the shroud
- Auto shut-off simplifies filter changes

Refrigeration via Tube Evaporator

- Wraps around the water tube
- Eliminates tank of stored water that could potentially harbor bacteria

OURS: Refrigeration tube to chill water is wrapped around the water tube. Coil keeps sediment moving through to the strainer.

THEIRS: Chilling tank has standing water that can allow sediment to collect in the bottom and possibly become contaminated.

MURDOCK
