

Get the best protection for your building with a custom WASENS system offering:

- A range of valve sizes up to 12"
- A choice of point-of contact, rope and flow sensors
- Multiple shut-off points
- A free or optional premium subscription app
- A battery-powered hub and actuator
- Leak detection and valve closure on an independent wireless system
- The ability to manage multiple leak detection points, including water heaters, toilets, sinks, showers and tubs

Built-in scalability:

- Manage multiple systems and devices through a single login on your iOS or Android mobile device
- Support up to 99 wireless devices (sensors, actuators, wireless signal repeaters)

RSC-900-AW

Leak Detection, Monitor, Automatic Shut-Off

Supports multiple IP68-rated actuators for hot and cold water lines. Monitor near-freezing temperatures that could cause burst pipes. Indoor/outdoor use.

Shut-Off	Hub	Water Sensors	Monitor
Valve, via the App	Ethernet or WiFi	(2) Sensors	Free or Premium Subscription App

RSC-900-F

Flow Sensor

View consumption trends on the App.

Shut-Off	Hub	Water Sensors	Monitor
Valve, via the App	Ethernet or WiFi	(1) Valve	Free or Premium Subscription App

RSC-900-W

Monitor, No-Shut Off

Perfect for applications where you do not want to interrupt water flow.

Shut-Off	Hub	Water Sensors	Monitor
N/A	Ethernet or WiFi	(2) Sensors	Free or Premium Subscription App

Plumbing Leak Detection and Water Management Systems

MadisonWater offers a choice of leak detection and water management products with a range of features, including automatic shutoff and remote management.

Water Heaters & Water Tanks

Choice of Power Supply

RS-094
Water Heaters, Water Tanks. Commercial-grade leak detection and automatic shut-off. With receiver box. Can be integrated with a security system or appropriate relay.

Power	Water Sensor	Shut-Off
Hard Wired or Wall Plug	8 ft Cable & Metal Plate	Valve, 1/2", 3/4", 1" or 1-1/4"

COMING SOON:
RS-064

Washing Machines

Choice of Outlet Fitting

RS-070 & RS-070-9D
Washing Machines
With receiver (control/alarm) box. Simple installation.

Part	Outlet Fitting	Power	Water Sensor	Shut-Off
RS-070	Standard	Wall Plug	Disc w/ Metal Plate	(2) Valves, Hot & Cold Water
RS-070-9D	90°			

RS-090-E+
Washing Machines
Mounted in the wall, out of the way. Brass ball valve construction. Integrated water hammer arrestors. Control box mounted remotely for easy access.

Part	Outlet Fitting	Power	Water Sensor	Shut-Off
RS-090-E+	45°	Wall Plug	8ft Cable & Metal Plate	(2) Valves, Hot & Cold Water

Hose-Fed Appliances

Choice of Power Supply

RS-092-1/2
Hose-Fed Appliances
Leak detection and automatic shut-off. With receiver box. Can be integrated with a security system or appropriate relay.

Power	Water Sensor	Shut-Off
Hard Wired or Wall Plug	10 ft Rope	Valve, 1/2"

Water Alarm Systems

Alarm sounds when the sensor comes in contact with as little as 1/16" of any non-flammable conductive liquid, such as water.

Choice of Power Supply

RS-095	9v Battery	
RS-096	Wall Plug	With receiver box
	Hard-Wired	

Water Main Shut-Off System

Choice of Power Supply

Full facility water main shut off protection
Alarm sounds and the main water supply line is automatically shut off to a room, floor, etc. Supports multiple sensors to extend your monitoring range.

RS-080
Water Mains
Heavy-duty, commercial-grade. Leak detection and automatic shut-off. With receiver box.

Power	Water Sensor	Shut-Off Valve Type	
Hard Wired or Wall Plug	Disc with Metal Plate	Ball 3/4", 1", 1-1/4", 1-1/2" or 2"	Butterfly 2-1/2", 3" or 4"

QUICK TIP
Plumbing leak detection and water management systems may make you eligible for an insurance discount. Contact your provider for details.

Accessories

Water Sensing Discs
Additional sensors available with 8', 25', 50', and 100' cable lengths. Units ship with flying lead. Item # RSA-101-XXX, see website for ordering

Sensing Rope
Ideal for use with low tanks, or for room perimeter and sub-floor leak detection applications. Item # RSA-175-810

Auto Dialer Keypad Panel
Low cost panel sends automatic phone alerts when the system identifies a fault. Recorded message can trigger up to 9 phone numbers. Item # RSA-600-003
