

Sentinel Lab Advisors

Technical Supervision | Regulatory Compliance | Quality Management for Clinical Laboratories

About Us

At Sentinel Lab Advisors, we believe laboratory owners and physicians should spend their time where it matters most – caring for patients.

We take on the heavy lifting of quality, compliance, and operational requirements so you don't have to. Our mission is simple: to protect your lab, safeguard your reputation, and free your team to focus on delivering exceptional patient care.

Our Services

Quality & Compliance Programs

- Comprehensive Quality Management Systems (QMS)
- Compliance audits, gap assessments, and risk documentation
- Internal audits with Corrective and Preventive Action (CAPA) follow-up

SOP Development

- Custom SOPs compliant with CLIA, COLA, CAP, and state requirements
- Coverage for PCR panels, ELISA assays, and pathology workflows

Validations & Verifications

- End-to-end validation services for assays and instruments
- Accuracy, precision, sensitivity/specificity, reference ranges, QC studies

Inspection Preparation & Support

- Mock inspections and readiness reviews
- Staff compliance coaching and post-inspection corrective action plans
- COLA accreditation and state licensure (CA, TX, others)

Licensing Support

- CLIA applications and renewals

Technical Supervision

- Electronic laboratory quality assurance documentation review and authorization
- Instrument and technique related technical troubleshooting

Billing Support Referrals

- Connections to trusted billing partners for insurance contracting, Medicare/Medicaid enrollment, and revenue cycle management

Why Choose Sentinel Lab Advisors

- We Handle the Hard Work – Focus on patient care, not paperwork.
- Expertise Across the Lab Spectrum – From molecular diagnostics to pathology.
- Inspection-Ready Deliverables – Documents designed for regulatory scrutiny.
- Proactive, Not Reactive – Prevent issues before they become problems.
- Trusted Partner Network – Reliable resources for billing, LIS, and more.
