SUNSEEKER PREDATOR 60 EVO

Description:

Stunningly crafted to balance style with practicality, the Predator 60 EVO™ is the first model of Sunseeker's dynamic new product development plan with innovative stand out features and sophisticated interior design. Embracing a bold design direction, the model features all-new interior styling, furnishings, textures and materials; the Predator 60 EVO™ delivers a sophisticated, modern yet sporty style to surprise any owner. The Predator 60 EVO™ certainly doesn't sacrifice performance for style. With speeds of up to 34 knots, it cuts a sharp, impressive figure on the open water, with exemplary sea-keeping and unmatched agility. Truly a yacht designed for perfect cruising in luxury.

"Zigzag" is a truly unique opportunity, fresh to the brokerage market and ready to enjoy the summer. She is an immaculate example of the award-winning Sunseeker Predator 60 Evo, built and delivered in Spring 2021, with her custom "Silver-Grey" hull band, she is sure to turn heads wherever she goes!

Her highly experienced Sunseeker owners took their time in specifying her for year-round use here in the UK, so she benefits from many custom additions to the factory standards. Detail-cleaned fortnightly and with all pre-season maintenance works already carried out, she is presented in excellent order and ready to set off on new adventures with her next owner.

Powered by a pair of the largest Volvo Penta D13 1000hp shaft drive engines with just over 185 hours running since handover, she offers breath taking performance, with the benefit of proportional bow & stern thrusters, for easy docking. A further notable highlight is the addition of a gyro stabiliser system, for roll-reduction.

A thoroughbred Sunseeker Deep-V hull gives a surefooted ride in all conditions, with the perfect blend of onboard accommodation/socialising space. A full and comprehensive specification includes upgraded 13.5kVA generator, reverse-cycle air conditioning, diesel heating, carbon fibre electric opening hard top, electric opening aft patio window/door configuration, additional refrigeration, full suite of Simrad navigation equipment - dual plotters, radar, autopilot, AIS, TVs to all cabins, hydraulic bathing platform, dummy domes, Flexiteak decking throughout exterior, tender garage, LED lighting throughout interior & exterior, underwater lighting and much more.

Lying afloat in Ocean Village Marina and available to view 7 days a week by prior arrangement.
