

Tilt Thermal

Rugged sensors with expert design support

CAN Bus SAE J1939 TrueTILT™ wide-range electrolytic tilt sensor with integrated signal conditioner.

- Low power consumption
- Excellent durability and environmental protection
- Minimal output drift compared to MEMS devices
- Excellent resolution, repeatability, and accuracy
- Superior performance in extreme environments
- Small profile and economic design

Klixon precision hermetic thermostats

- Low-cost commercial to military applications
 - ½" commercial bi-metal
 - ¾" industrial bi-metal
 - Precision for aerospace & defence
- Broad capability ranges
 - Temperature range from -53.9 to +287.8°C
 - High current switching up to 40A at 120 & 240 VAC resistive
- Custom configuration of mechanical and thermal parameters
- Short lead-times and fast technical support
