

Talk to the Experts in **Passives** Procurement

Expert support for faster passives procurement

Knowledge makes a difference. It can make the difference between meeting or missing a critical deadline, completing a BOM at the first or fourth attempt, and finding alternatives to parts when you are faced with a potential line-stop.

The line between success and failure is narrow and expert help can make all the difference:

- Secure sourcing from a linecard of leading and specialist manufacturers
- Same-day response on enquiries
- Suggesting alternatives rather than no-bidding
- Identifying alternatives to parts on long leadtimes
- Parts list auditing & obsolescence management
