

ON-TIME DELIVERY

98.5%

Charcroft Delivers: At least 98.5% on-time delivery over last 12 months

As component leadtimes continued to drift out, Charcroft has maintained a minimum on-time delivery record of 98.5% to key customers over the past 12 consecutive months. How do we do this? Here are just some of the ways that Charcroft provides stability in uncertain times.

For buyers

- Early intervention based on market knowledge
- Holding up to 12-months of customer buffer stock
- Investing in inventory to minimise back-to-back ordering
- Identifying alternative parts with faster availability
- Getting fast answers from franchised manufacturers
- Active inventory planning based on potential demand
- Minimising liability and procurement risk for customers
- Strong linecard of global and specialist franchises

For engineers

- Auditing availability during parts selection
- Identifying upgraded alternatives to legacy devices
- Suggesting ways to design-in flexible procurement
- Liaising between customer engineers and buyers
- Thinking outside the box to find different approaches
- Taking responsibility for delivering a total solution
- Specialist through-life support on designs

UK-based manufacturing facility

- Custom passive assemblies
- Manufacture of legacy passives
- Vishay Approved Precision Centre
