

E-SWITCH®

AUDIO / VISUAL MARKETS

AUDIO / VISUAL MARKETS

E-Switch offers a wide range of switch products well suited for the audio/visual market. Besides the typical on/off function, many audio/visual equipment and devices often utilize more than one type of switch. From tact, toggles, pushbuttons and rockers, selecting the right switch depends on the application requirements.

NOTE: The most requested switches are shown for these types of applications. However, several switches can fit your requirements. Please visit www.e-switch.com to view our entire line of switches; check out Virtual Applications on our website or call 800-867-2717 for customer service assistance.

PUSHBUTTONS

Pushbutton switches, including anti-vandal switches, are available in many shapes, sizes, illumination options and several are IP certified. The illuminated pushbuttons are popular on audio/visual equipment as a visual power source indicator in dimly lit environments. Pushbuttons offer the following termination options: SMT, PCB pins, solder lugs, screw terminals, and quick connect tabs.

ILLUMINATED APPLICATIONS

- Audio Board Controls
- Broadcasting Control Suites
- Mixing Boards
- Equipment On/Off Switch
- Gaming Control Panels
- Projectors
- Computer Towers
- Lighting Systems
- Sound & Lighting Controls

NON-ILLUMINATED APPLICATIONS

- Equipment On/Off Power
- Performance Headphones
- Training Simulator Control Panels
- Security Camera Systems
- Amplifiers
- Guitar Pedal Board
- Intercom Systems
- Printers/Copiers
- Call Center Equipment
- Listening Devices

ROCKER SWITCHES

Rocker switches provide a firm back and forth motion upon actuation of the switch, which makes them frequently requested as an on/off power switch on audio/visual equipment. Rockers are commonly used to directly power a device. They are available in many shapes, sizes and colors, with both standard and custom symbols available on the actuator. Rocker switch illumination may be controlled on a separate circuit, or be dependent on switch position, based on what series is chosen. Available termination options include SMT, PCB pins, solder lugs, screw terminals, and quick connect tabs.

ROCKER APPLICATIONS

- Surge Protectors
- Outlet Strip
- Home Theater Systems
- Equipment On/Off Switch
- Mixing Desk
- PA System
- Floor Monitor
- Record Player
- Subwoofer

TACTILE SWITCHES

Tactile switches come in many shapes, sizes and illumination options. They come in surface mount, right angle SMT, and thru-hole termination options. Tact switches are particularly suitable for a wide range of audio/visual equipment because of their tactile response. E-Switch offers several miniature tact switches that are well-suited for wearable and handheld devices which are found in the audio/visual market.

TACTILE APPLICATIONS

- Remote Control Devices
- Smart Phones/Music Devices
- Camera Buttons
- Intercom Phone Systems
- Keyboards and Keypads
- Audio & Digital Recording Equipment
- Sound Amplifiers
- Instruments/Interface Control Panels

TOGGLE SWITCHES

Toggle switches offer a variety of switching functions and bushing options to fit many equipment requirements.

TOGGLE APPLICATIONS

- Reset or On/Off Switch
- Wireless Networking Switch
- Controllers
- Electrical Instruments
- Sound Board Controls
- Guitar Pickup Selector

SLIDE SWITCHES

A slide switch is a two or more position switch used to control the current flow in a circuit. E-Switch carries slide switches of all different sizes, and functions, with various terminals to suit a variety of applications.

SLIDE APPLICATIONS

- Vehicle Transponder Devices
- Networking Hubs
- Routers
- Transmitting Devices
- Industrial Vacuuming Equipment

OTHER SWITCHES

E-Switch has been serving the electronic industry for multiple decades now. We are incredibly proud of the broad range of switches we carry. With 15 switch categories and thousands of variations, it's safe to say we have a switch for almost every application imaginable. With categories like Rotary, Navigation, DIP Switch, and More, you'll be sure to find the perfect switch for your Audio Visual needs.
