

High Power Magnetic Solutions

Exxelia showcase the latest technology at PCIM 2019

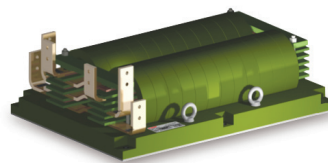

High power, high frequency Ferrite Transformers

- Isolated DC-DC converter
- Cutting-edge magnetic structure
- High power, low leakage
- From mW up to 100kVA
- Frequency to 20kHz
- Special winding construction reduces HF losses
- Dedicated to high-end applications

High Current, 3-phase Common Mode Choke

- Common-mode filtering for 3-phase inverter
- High performance nanocrystalline core construction
- Busbars provide high current capability, 580A
- Minimum inductance 1.4mH
- Rail and Industrial applications

Visit **Exxelia** at PCIM in Nuremberg: Hall 6, Stand 136,
where they will be joined by **Charcroft Electronics**

Charcroft: Challenge Accepted
