

A large, close-up photograph of a man, Chris Leek, wearing a headset and looking out from the turret of a tank. The tank's main gun barrel is visible in the foreground, pointing towards the left. The background shows a green field.

It's all about Power

Chris Leek, Power Specialist, Tank Driver and Crime Writer

When he is not driving a tank or writing a new crime novel, Chris Leek is the new Power Specialist at Charcroft, helping designers to find the right Power Supply from one of the world's leading manufacturers: Power-One.

- **NEW** Hot-Swap industrial AC/DC supplies with the industry's highest power density
- DC/DC converters with high efficiencies, ultra-low profiles and wide 4:1 input voltage ranges
- Highly-configurable modular AC/DC supplies offering up to six adjustable outputs.
- Point of Load (POL) converters with enhanced performance and industry-standard form factors
- Melcher™ rugged AC/DC and DC/DC power supplies for Rail applications

Contact Chris to see what Power-One and Charcroft can do for the efficiency of your next power design:
