

Specialist support for high reliability

New lines for harsh and high-end applications

Three new lines of products added to Charcroft's range, enable engineers to extend the products that they can select for high-reliability Space, Defence, Industrial and Rail industries. Call on Charcroft's decades of experience for specialist support on designs for high-end and mission-critical applications.

Exclusive UK and Ireland distribution agreement

- Aerospace, defence, rail & critical industrial designs
- Validation & test
- Command & control
- Power conversion
- Space systems

NEXEYA

Specialist support on high-reliability components

- Space, high-altitude aerospace, defence & high reliability
- Quartz crystals
- Custom electronic filters
- Radiation-tolerant oscillators
- Space satellite components

EURO QUARTZ

Flexible heater mats

- High-precision etched metal foil technology
- Thermal protection with heatsink design
- Thermostat, thermal fuse or thermistor control
- Operating temperature range: -195°C to +230°C
- Simple or complex shapes
- Rapid prototyping service
