## TMS TREATMENT

**TRANSCRANIAL  
MAGNETIC STIMULATION**

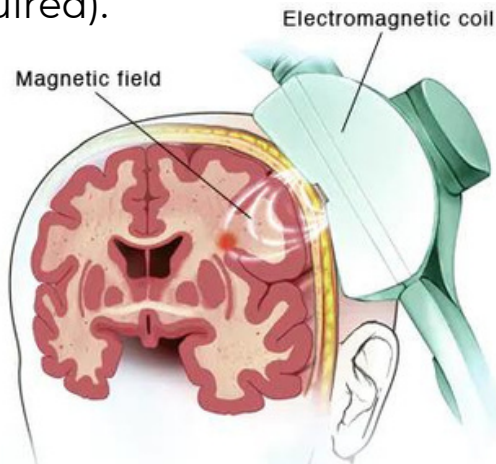

6360 Presidential Ct. Suite 3  
Fort Myers, FL. 33919

## HOW TMS WORKS

TMS treatment strengthens neural pathways in the brain that influence thoughts, emotions and behaviors. TMS is FDA cleared for treating depression and OCD.

TMS treatment works by sending short magnetic pulses to exactly the areas of the brain that you want to treat – stimulating and activating neural pathways and restoring the emotional control center.

The person receiving TMS is awake during the treatment and can return to normal activities immediately after (no medication or anesthesia is required).

# KETAMINE

## IV THERAPY FOR TREATMENT RESISTANT DEPRESSION

ASCEND BEHAVIORAL  
HEALTH SERVICES
