

Special Selectboard Meeting
Annual Meeting with VT Agency of Transportation
Approval of Town Meeting Minutes
March 11, 2026

Attendance: Jeffrey "Joe" Solinsky; select board chair, Denis Royer II; select board member, Shane Heath; Highway Foreman; Patti McClure; town clerk and Logan Perron; Vermont AOT

Joe called meeting to order at 10:02 a.m.

Logan stated that grant submissions are eventually going to be all submitted online electronically.

There is an updated Town Road and Bridge Standards dated 2026 with some minor updates from the prior 2019. Logan gave us the newest version for the select board to review and adopt at the next select board meeting on March 26, 2026. This new version needs to be signed and adopted for any future FEMA reimbursement.

New Orange books are being worked on. Appendix forms will be removed from the book with online links to replace the appendix forms so they can be updated without having to update the entire book.

We need to update the culverts online with the upsized replacements that have been done. This will improve our chances for grants if the map is updated.

The grant that was originally issued for Fiddlehead Lane Bridge improvement, prior to the 2024 flooding where it got washed away, is still available to the town. Logan has these funds set aside for a future structures grant for Sutton. He suggests we wait until 2027 to apply these grant funds to a structure to see if we get any funding from the Vermont Agency of Administration.

Logan suggested we send the 2025 Pudding Hill Road Bridge inspection report to Doug Morton to get on the list of future grants to get this bridge replaced.

Logan stated that the 2026 MRGP report needs to be completed online still. The fees were paid but the report still needs to be completed.

Joe made a motion to approve the 2026 Town Meeting Minutes. Denis Second. Motion approved.

Denis made a motion to adjourn the meeting. Joe second. Meeting adjourned at 10:15 a.m.
